Philosophy

I believe every student can learn. Children can learn from parents, teachers, and peers. Parents are the first teachers of their children. What a parent does and teaches a child determines how they view themselves and see the world. Teachers are like secondary parents to children. A child can learn many things from how they are received by his/her teachers. Peers have a strong influence on children also. Children are most

likely to model the behavior of their peers. Children learn many things from others, but all children have someone they learn from.

Testimony

I accepted Jesus Christ as my savior when I was around 20 years old. I trembled and sobbed when the Holy Spirit called me to the altar in church. Since then I have frequently turned to Jesus for the strength to carry on in my life. He is my rock and my strength. I turn to the Lord more and more in prayer as I grow older and mature in my spiritual life. I prayed that He would show me what he wanted me to do at this point in my life and he led me to this job at Clovis Christian. I feel like this is how He wants me to serve him now. It has been difficult at times but I feel He is with me as I begin working here. I just remember I can do all things through Christ who strengthens me. Phillipians 4:13.
