

# GoWild Australia, LLC

*ingredients for health*

GoWild Australia is a Natural Technical Solution Provider and Global Supplier of Australian Native Foods ~

- If you are seeking to develop all-natural preservative alternatives, or all-natural formulations, based on the unique phytochemistry of Australian native plant extracts, then GoWild Australia is an excellent choice. We will work with you to customize applications (formulation and delivery system) that meet your needs while also speeding the approval process. No synthetic or chemical additives are required in GoWild Australia's systems.

GoWild Australia's Native Plant Extracts ~

- GoWild Australia, develops and licenses uniquely innovative all-natural extracts and process solutions from Australian Aboriginal wisdom traditions, contemporizing ancient reverence for Australia's unique plant biodiversity into authenticated solutions in foods, beverages, nutraceuticals, supplements, skin care, hair care, body care products and assuring sustainable economic empowerment for its supply-chain partners and the communities they serve.

- GoWild Australia's products are proprietary extracts, essential and fixed oils, and dehydrated powders of Australian native plants. Kakadu Plum is being developed through an exclusive supply chain through a cooperative of Aboriginal growers in the Northern Territories and will meet the guaranteed vitamin C and polyphenol content shown in our spec sheets.
