

New For  
Summer 2016

**RAMP**<sup>™</sup>  
**SHOT**

# New and Improved Net Assembly!

All RampShot games now come with a tool to make net installation a breeze. We are committed to 100% customer satisfaction and hope the new tool makes installation a little easier. After a few minutes your nets will be installed permanently and we hope you'll be sinking "Triples" with the best of them! You can also visit RampShot.com and view our new Net Installation Video created just for you! ☺

1

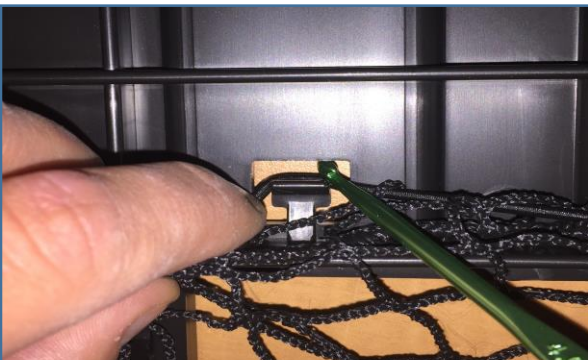

Flip your ramp upside down, place on a flat surface and lay the netting down evenly around the center of the goal.

2

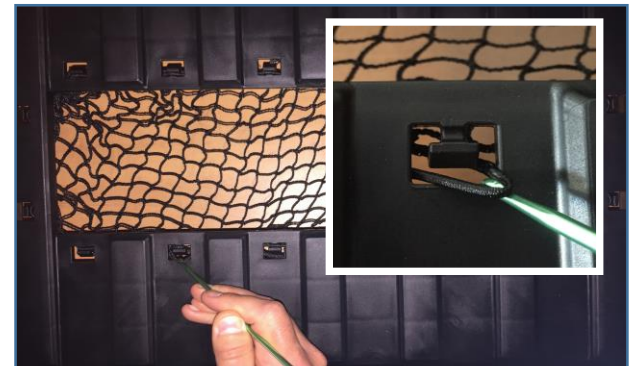

Make small loops with the **bungee cord** and place it around each of the four side hooks first (A,B,C,D).

3

Using your finger and net tool, push the **bungee cord** down and around the rest of the hooks on the ramp, continuing to space the netting evenly apart.

4

Need to readjust? Flip your ramp right side up, use the hook end of the tool and pull the bungee cord up and over the ramp hooks to free the net.

## Our Ultimate Goal:

★★★★★  
5 STAR-RATING

- Are you having fun playing RampShot with your friends and family? If so, please leave us a review online.
- Have a question or suggestion on how we can improve, please contact us at; [contact@rampshot.com](mailto:contact@rampshot.com).
- We are a new family business and our main goal is to provide each and every customer with a 5 Star experience from purchase to playing. We hope you enjoy playing RampShot as much as we do and would love to hear from you!
