

4-Step Fertilome Lawn Care Program

Step 1 **March-April**

Crabgrass Preventer Plus Lawn Food

- Slow release fertilizer
- Prevents crabgrass & many broadleaf weed seeds from germinating

Step 2 **May-June**

Weed-Out Plus Lawn Fertilizer

- Slow release fertilizer
- Kills broadleaf weeds, dandelions, clover, chickweed, etc.

Step 3 **July-August**

Lawn Food Plus Iron

- Chelated iron for fast, long, lasting green-up
- Two types of nitrogen, quick greening and long term growth

Step 4 **September-October**

Winterizer

- Improves root system
- Great for established lawns and newly seeded lawns
