

## Flight in a Sailplane

Experience this unique opportunity to soar with the eagles. You will be pre-briefed by an experienced sailplane pilot and then loaded in the cockpit for your one-of-a-kind adventure at the Sailplane Capital of the Country at Harris Hill, New York. A tow plane will pull you up to altitude and then you will be released into the skilled hands of your experienced pilot to soar above the beautiful Chemung Valley. If the soaring is good, you will experience climbing in a thermal and perhaps look out your canopy to see an eagle soaring with you.

You will fly in a high-performance ASK-21 two-seater glider, with room for a single passenger and pilot.

**Estimated Value: \$140**

**Bidding starts at: \$90**
