## The True Meaning Of Christmas

In today's day and time,  
it's easy to lose sight,  
of the true meaning of Christmas  
and one special night.

When we go shopping,  
We say "How much will it cost?"  
Then the true meaning of Christmas,  
Somehow becomes lost.

Amidst the tinsel, glitter  
And ribbons of gold,  
We forget about the child,  
born on a night so cold.

The children look for Santa  
In his big, red sleigh  
Never thinking of the child  
Whose bed was made of hay.

In reality,  
When we look into the night sky,  
We don't see a sleigh  
But a star, burning bright and high.

A faithful reminder,  
Of that night so long ago,  
And of the child we call Jesus,  
Whose love, the world would know.

- It is very important to keep the office informed of any change of address, phone number or marital status.
- Please verify with the office that your address is current & your social security # is correct before W-2's are printed in January.
- If you have a job related injury, please note the date and time and notify the office ASAP.

# Dressing for Winter Work

During cold weather, it can have a chilling effect on the senses to see, smell, and feel. It is usually difficult to be productive when you are cold. Therefore, it is important to dress for weather conditions found on the jobsite.

- \* Always dress in layers with the outer layers being rather loose and the inner layers being somewhat tighter (to trap body heat).
- \* Do not over bundle.
- \* Use the outer layers of clothing as a windbreaker. This will make the layers underneath more effective.
- \* Minimize seat. If yo begin to get hot, take a layer off. Try to avoid getting your clothing wet. Once wet, they will not serve as good protection from the cold.
- \* Wear head protection. This will increase your overall warmth. Over half of the body's heat loss comes from the head.

- \* Be sure to properly protect your feet. Unless you are moving around, your feet will feel the effects of the cold first. Wool socks will help.
- \* Gloves are very important. Most often a thin pair of wool gloves under a pair of leather gloves will provide the best protection.
