

Sensory Science & Art Club

Archway Classical Academy Scottsdale

K to 4th Grade
Tuesdays: 3:05- 4:05pm
March to April 2017

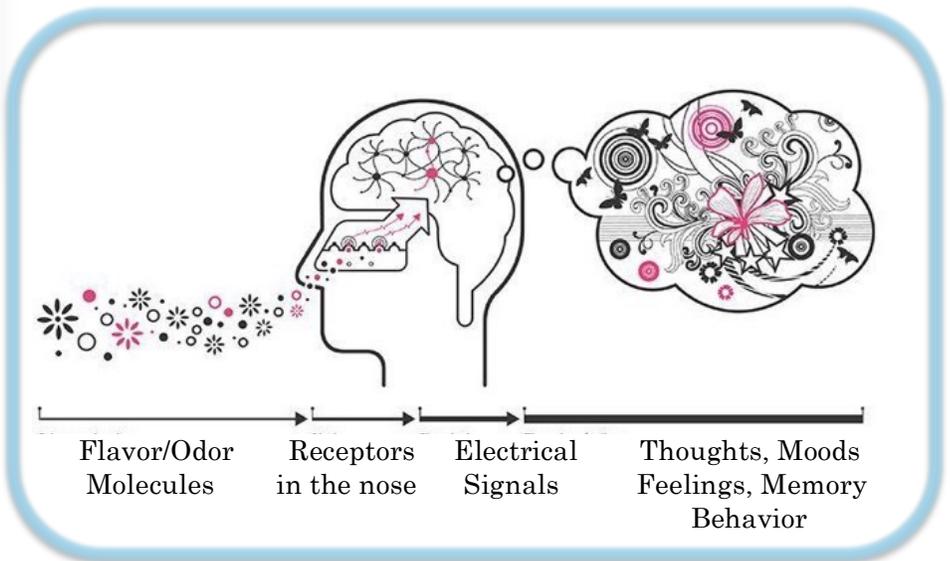

This is a fun educational class that squeezes the creative juices of your child using sensory experience in a relaxed environment. This activity is based on **Sensory Psychology** that teaches about critical & creative thinking. (synesthesia). Kids can be trained at an early age to interconnect with **Smells, Flavor, Textures, Color, & forms of Art!**

Activity includes:

- Elements of Nature in Classical Art
- Hands-on interactive activity at every class.
- Creative sensory experiments.

Very Limited Seating. Register NOW.

Cost: \$85 (for 6 weeks. includes all art materials. Subsidized by extracurricular tax donations.) To sign up visit:
www.archwayscottsdale.confugio.com

**We never notice aroma, light, air...
We just assume it.
But when an object is created around it,
It creates a nuance.
And to notice it, requires effort.
Effort is required to climb the ladder.
But each step is different.
And with each step you gain a new perspective.
This is not just to see and admire,
But to inhale & experience.**

SensMood is an interactive approach to discover nuances of scents around us while learning about its impact on our daily life. We take you on a **sensory journey** using tools of color, imagery, art, music and flavors while pay attention to the emotions generated through smell. We promise that your child will rediscover the world through their senses! It's a skill that can be mastered early age so Sign up NOW!
