

## **JIM SCHLETT** [Photography](#)

Hope all is well at Dorland. I was there for 2 different stays several years ago with my better half, Gail.

Since then, I have been selected as the Artist in Resident (AIR) at 10 National Park sites. I have exhibited my photographs of the parks at several galleries, government offices and commercial buildings in northern Virginia in the past 10 years.

Most recently I was the AIR at Fort Union National Monument in NM for the month of March.

[See more about the experience Here](#)

Fort Union was one of the largest supply Depots for the US Army from 1860s - 1880s in the southwest and the Santa Fe Trail was literally right next to the fort. I was up at sunrise and always ready for sunsets for the month to capture the "golden hour," and literally had the park to myself at those times. It was another great "refocusing" project of my life.

Attached are a few photos from the park of what I produced in my time there.

best wishes,

Jim & Gail Schlett
