Turkey Vulture Craft

Supplies:

Scissors
Glue
Googly eyes
Black, red and white paper or crayons
Toilet paper roll
Your hands

Instructions:

Wings:

Put the white and black paper together and fold them in half to create 4 sheets
Trace your hand on the top sheet
Cut out your hand – now you will have 4 hands: 2 white and 2 black
Cut the palms out of the white hands, leaving the fingers intact.
Glue the white hands on top of the black hands so the black fingers are covered

Beak and feet:

Using the corners of the black paper, cut out 3 triangles
2 triangles will be the feet – you can cut out little notches to create the talons
1 triangle will be the beak

Body:

Cut a strip of red paper to cover the top of the toilet paper roll and glue it in place (this is the head)
Cut a strip of black paper to cover the bottom of the toilet paper roll and glue it in place. (this is the body)
Glue the wings to the back of the toilet paper roll (palms together and thumbs up – the white facing forward)
Glue the feet to the bottom of the toilet paper roll
Glue the beak to the center of the head
Glue googly eyes or draw eyes above the beak.

Now you have a turkey vulture!
