

# Hotel Clock Radio with Wireless Audio and Universal Charging

**SoundFlow** – a whole new way to listen to music. **No pairing. No wires. No connecting.**

**Universal Charging** – charge any smartphone or tablet... at the same time.

## SoundFlow Wireless Audio

Now you can offer your guests the convenience & simplicity of listening to their smartphone music wirelessly without having to pair or connect a device. SoundFlow Wireless Audio is as simple as pressing play on their smartphone and placing it on the soundmat. It's just that easy and it works with any smartphone.

## Battery Backup

With "no worry" battery backup, the time setting will be saved and the alarm will sound even when power is lost. Simple, Intuitive Interface Simple 1,2, 3 instructions guide users through alarm setting and music playback.

## Volume Limits

Easily set the maximum volume level for each room. No more disturbing other guests.

## Security Features

The anti-theft door on bottom panel protects batteries. Time settings and max volume control are hidden on bottom and can't be changed by guests. The unit is security-lock ready for theft prevention.

## Universal Charging Station

Charges a smartphone or a tablet or both simultaneously via 2, side-panel USB ports. The AC outlet provides easy access to power when needed.

## Sound Performance

High-quality audio for enjoying all genres of music.
