

Bottom Line

"... You must focus on Jesus, the source and goal of your faith..." (Hebrews 12:2).

The bottom line is often used with the primary or most important consideration. Many times you will find the bottom line means the final result or the most important consideration of a situation, activity, or discussion. The bottom line in a decision or situation is the most important factor that you have to consider.

According to Hebrews 12:1-2. all the individuals who ran the race before you had similar problems as you have, but they kept on running anyway. Bottom line- they looked to God and His truth. Even though they were not perfect, they trusted Him and kept moving forward.

So what's today's bottom line? You are only what the Word says you are and that's what the Lord sees when He looks at you.

The bottom line is who you are is not defined by:

- Others
- Your past
- Your family
- Your human ability
- Your mistakes
- Your emotions

The Lord sees you in your full potential wrought by His loving and merciful hand. He doesn't see what other people say you are. He doesn't see your family's impressions or stature. He doesn't see your human abilities.

He wants to shine His light onto the lies that you have believed or things that try to keep you imprisoned because you believe them.

He wants to shine His light upon you so that you can be free the way He created you to be. He wants to break off the strongholds that have been built within your mind regarding who you are.

He wants to replace those lies with His truth. He wants you to be healed. He wants you to move forward in confidence.
