CLOUD9EXPRESS

SHIP FASTER, SAVE MORE, STRESS LESS.

About Us.

Who We Are

Cloud9Express is an affordable, cloud-based shipping platform that helps businesses ship faster and save money. We offer discounted rates from top carriers like USPS, FedEx, UPS, and DHL—making shipping easy for everyone from home-based sellers to large fulfillment centers.

Our platform features real-time tracking, automation, and easy e-commerce integrations. You can manage all your shipments from one dashboard, wherever you are.

For enterprise-level needs, we offer a **REST API** that integrates with warehouse and fulfillment systems. Contact us to learn more about the available features and setup process.

Cloud9Express supports **LTL and full truckload shipping**, and can be used by any business or agency with internet access—no matter the size or location.

Key Features & Benefits.

Cloud9Express is a cloud-based shipping solution designed to help businesses of all sizes, including **3PL providers and warehouses**, streamline their shipping process. Our platform supports multi-carrier shipping, real-time tracking, and automated workflows, ensuring your orders are processed faster and more efficiently.

With support for major **scales, thermal, and laser printers**, Cloud9Express makes label printing seamless and hassle-free. Our address importing and verification tools reduce errors, preventing mis-shipments and delays. Whether you operate an e-commerce store, a fulfillment center, or a large-scale distribution business, Cloud9Express provides scalable, automation-driven solutions to optimize your shipping process.

Businesses can benefit from batch processing, multiple warehouse support, and automated shipping rules to eliminate manual work. Our intuitive, cloud-based dashboard provides full visibility into all shipments, helping you stay organized and in control.

E-COMMERCE INTEGRATION

Connect your Shopify, Amazon, eBay, WooCommerce, and more. Import orders instantly and ship with ease.

MULTI-CARRIER SHIPPING

Get the best rates from USPS, UPS, FedEx, and DHL. Compare costs and choose the most affordable option.

3PL & WAREHOUSE SUPPORT

Manage shipments across multiple warehouses, fulfillment centers, and third-party logistics providers with ease.

SMART AUTOMATION

Set up shipping rules, automate label printing, and eliminate manual work. Ship faster with fewer mistakes.

REAL-TIME TRACKING

Keep customers informed with live tracking updates. Manage all shipments from one dashboard.

ADDRESS VERIFICATION

Import addresses in bulk and verify them instantly to prevent shipping errors, delays, and mis-shipments.

Carriers & Integrations

Cloud9Express connects you to top shipping carriers and leading e-commerce platforms, making order fulfillment simple and cost-effective. Ship with USPS, FedEx, UPS, and DHL at discounted rates, or use your own carrier account. Easily integrate with Shopify, Amazon, eBay, WooCommerce, and more to import orders instantly and streamline your shipping process—all from one platform.

Powerful & Flexible API for Smarter Shipping

Cloud9Express offers a flexible, **REST API** that gives you full control over your shipping operations. Our API makes it easy to manage multiple customer accounts, automate workflows, and scale your shipping process—all from one system.

Designed for smooth integration, it connects easily with other software packages, including ERPs, warehouse management systems (WMS), and fulfillment tools. Whether you're a software provider or managing your own systems, our API makes it simple to plug Cloud9Express into your workflow with minimal setup and maximum performance.

With built-in support for real-time rate shopping, label generation, and tracking updates, our API helps you eliminate manual processes and improve overall efficiency. You can customize shipping logic, set rules for specific customers, and retrieve detailed shipment data—giving you the tools you need to build smarter, more automated shipping solutions.

Serving Industries That Ship Smarter

Cloud9Express is built to serve more than just online stores. Our platform improves shipping for a wide range of industries by simplifying complex workflows, reducing manual entry, and cutting shipping costs.

Industries we support include:

- Universities, Colleges and Schools
- Private Manufacturing and Parcel Distributors
- Pharmaceuticals, Healthcare and Hospitals
- Law Firms and Insurance Companies
- Printer and Copier Service Companies
- Commercial Printers
- Third-Party Logistics (3PLs) and Distribution Centers

With our easy-to-use dashboard and intuitive UI, users at any skill level can manage orders, print labels, and track shipments without training. Whether you're handling one location or many, Cloud9Express helps you ship smarter with fewer clicks.

Why Choose Cloud9Express?

FASTER & SMARTER SHIPPING

- Get access to exclusive shipping discounts of up to 89% off retail with FedEx, UPS, and DHL. Reduce costs while ensuring fast, reliable deliveries.

- Set up rules to automatically select the best carrier, service, and package type based on order details. Eliminate manual decision-making and ship orders in seconds.

- Process and print hundreds of shipping labels at once. Speed up fulfillment while reducing time spent on repetitive tasks.

SEAMLESS ORDER MANAGEMENT

- Connect Cloud9Express with Shopify, Amazon, eBay, WooCommerce, and more. Import orders instantly and manage everything from one platform.

- Keep customers informed with live tracking updates. All shipments are monitored in a centralized dashboard, ensuring visibility at every stage.

- Manage multiple warehouses or fulfillment centers with ease. Set up different "ship from" addresses and assign them to orders automatically.
