

S.A.F.I.R. Rx

Lock and Properly Dispose of Medications.

Keep our community healthy, safe, and substance free!

- Nearly 80% of all heroin users reported misusing prescription opioids first. (National Survey of Drug Use and Health)
- Nearly 70% of opioid medications in homes with children are not stored safely. (Johns Hopkins Bloomberg School of Public Health)
- 56% of teens say, “It’s easy to get precreation drugs form their parent’s medicine cabinet.” (Study by MetLife Foundation)
- Improper disposal of unused medications damages the environment. Use drop off centers or deactivation bags.
