Non-Standard* These are the prices if purchased when making a L3 contract and the company wishes to pre-purchase hours in addition to the 12 hours that are included with the L3. Note: The 12 hours included in a L3 may be used for any purpose however hours in excess of standard and/or pre-purchased hours are charged at the standard rate. Pre-purchased and the 12 included hours with Food Safe Pro!® L3 contracts are not refundable and expire when the contract expires.

1) Telephone (Micro) consulting: We will listen to your issue and provide expert advice on how to best resolve it.

2) Program review and implementation: This includes a complete review of your operation (management, food safety, production, etc.) and provides a comprehensive program for you to implement. When people think of someone coming in and setting up a program from scratch or a complete rewrite this is what they are thinking of. This is not an audit!

3) Software Modification: We will modify your existing (Non-Food Safe Pro!®) software to your specifications.

4) Software Development: We will develop custom software to meet your specifications.

5) Software Audit/Trouble shooting: We will review the code, data base, tables, or other parts of your software (Non-Food Safe Pro!®) to identify any potential issues or vulnerabilities and or to identify the cause of an issue you are having.

6) Document preparation: This is to prepare any and all documents such as NR appeals, preparation of systems analysis, etc.

7) Regulatory affairs: Researching and finding solutions to any issue with a regulated process, such as assisting with issues concerning government inspectors, interfacing with District or Washington USDA/FDA about your concerns, etc.

8) Food Safety Program Audit Onsite is where we review all documentation, programs, plans, perform an onsite visit to verify implementation, etc. utilizing the We R Food Safety Audit procedures. It results in a comprehensive 3rd Party Audit report.
Our HIMP audit verifies your compliance to HIMP and also gives you a direct comparison to traditional slaughter inspection.

9) Food Safety Program Audit-Desktop is where we review all documentation, programs, plans, etc. in accordance with the We R Food Safety Audit procedures. Please note that the audit does NOT include implementation! It results in a comprehensive 3rd Party Audit report.

10) Retainer Services are not applicable to Food Safe Pro!® contracts. Retainer services may be arranged at a standard rate to guarantee the availability of our consultants and staff and have a 4 hour a month minimum. In addition, all emergency contracts have a minimum retainer prior to any work being performed that is generally 35% of the expected work or if that isn't known a 4 hour minimum. Retainer fees are charged against for work performed; please note that retainer fees are non-refundable unless it is specified in the work contract.

11) Emergency services: This includes all aspects concerning emergencies that require us to respond immediately, examples include recalls or potential recalls including data analysis, interfacing with regulators, press releases, Software (Non-Food Safe Pro!™) system failures, etc.

12) Miscellaneous services: This includes travel, legal research, business structure evaluation, laboratory work, trend analysis of data you provide, etc.

These are our standard prices, please contact us for discounts based on association membership or referrals. Call for quotes for specific jobs, prices may vary depending on the work required.

Effective: 6/01/2016
Revision 2
Prices subject to change.
