Training & Objectives

- ❖ To be a MRC Level 1 Emergency Pet Shelter Volunteer you must:
 - ❖ Be a credentialed member of a recognized Volunteer Organization
 - ❖ Have completed NIMS 700, ICS 100 or a local MRC approved ICS training
 - ❖ Be aware of the history and types of Emergency Pet Shelters
- ❖ Understand the role of a MRC Emergency Pet Shelter Level 1 Volunteer
- ❖ Learn how to assist the Owners with the safety and security of their Pets
- ❖ Satisfactorily complete the Level 1 training quiz

*Prepare, Coordinate, Educate.
Building local capacity for animal response*

- ❖ *State of Massachusetts Animal Resource Team* is a network of organizations, agencies and individuals committed to responding to the needs of the animal population in disaster situations throughout Massachusetts
- ❖ *SMART's Mission:* To be a key resource in Massachusetts by establishing best practices for animal emergency preparedness. Through training and education, SMART assists in the development of disaster animal response teams, both locally and regionally, in an effort to strengthen capabilities throughout the state.

Why Collaborate?

- ❖ Standardization of skills for the safety of the volunteers and the pets
- ❖ Create a cache of volunteers who are trained with standardized, identifiable skill sets
- ❖ Training levels and skills sets are based on the SMART Pet Shelter Plan*
- ❖ Provide skills that are transferable/adaptable to *Local* plans

* <http://smartma.org/wp-content/uploads/2011/09/SMART-Shelter-Manual-5-25-14-.pdf>

Why Do we Provide Emergency/Disaster Sheltering for Household Pets?

- ❖ Pet Owners may be unwilling to leave their pets behind
- ❖ Refuse to evacuate
- ❖ Risk their own lives and those of Emergency Responders trying to rescue their pets from disaster or evacuated locations

MA Task Force 1 deployed to NC,
Hurricane Helene 9.2024

The Pets Evacuation and Transportation Standards Act

- ❖ The Federal PETS Act of 2006
 - ❖ Requires state and local emergency preparedness operational plans to take into account:
 - ❖ The needs of individuals with household pets and service animals
 - ❖ Before, during and after a disaster

Massachusetts Executive Order Acts of 2014, Chapter 54

- In April of 2014 the Governor of Massachusetts signed into law an Act: *Ensuring the Safety of People with Pets in Disasters*
- Chapter 54 (2014), S.1172 standardizes pet evacuation procedures in Massachusetts to guarantee that best practices are used state-wide, improving public safety and ensuring pets and service animals receive proper care during an emergency or disaster

Emergency/Disaster Pet Sheltering

- ❖ PETS Act protects the health and safety of People and their Pets in the community
- ❖ To keep people safe, officials must consider and plan for accommodations of household pets during an emergency
 - ❖ Many people will not leave their pets at home and find shelter for themselves
- ❖ Pet Shelter accommodations in an emergency are based on best practices and can be:
 - ❖ Co-located
 - ❖ Immediate vicinity of human shelter
 - ❖ Requires owners involvement in their pets' care
 - ❖ Temporary
 - ❖ Located off-site from Human Emergency Shelter
 - ❖ May or may not require owners involvement in their pets' care
 - ❖ Co-habitated!

Health Risks Associated with NOT Providing Emergency Shelter for Household Pets

- ❖ Psychopathologies such as grief, depression, and posttraumatic stress disorder are associated with pet abandonment during an evacuation
- ❖ Health care workers may refuse to work if their animals are in danger, leaving medical facilities, and emergency shelters understaffed during crises
- ❖ Zoonotic disease risk increases when pets are abandoned or left to roam, where they are more likely to encounter infected wildlife or unowned animals than they would if they were safely sheltered with their owners

Pets, Emergency Sheltering and Health Concerns

- ❖ Anxiety around or fear of animals
 - ❖ Zoophobia is the fear of animals. Some people with zoophobia fear all animals, while others are afraid of one specific animal
- ❖ Allergies
 - ❖ People can react to substances in animals e.g., hair, dander, saliva
 - ❖ Common reactions can include, itchy eyes, stuffy nose, hives and sneezing
- ❖ Zoonotic Disease
 - ❖ Infectious illnesses that spread between animals, as well as between animals and humans
 - ❖ Zoonotic diseases spread through contact with infected body fluids, animal bites, contaminated water and eating infected meat

Service Animals

- ❖ A Service Animal is Defined in Title 1 & 11 of the Americans with Disabilities Act (ADA):
 - ❖ Any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability, including a physical, sensory, psychiatric, intellectual, or other mental disability.
 - ❖ In addition to the provisions about service dogs, the ADA regulations have a separate provision about miniature horses that have been individually trained to do work or perform tasks for people with disabilities

- ❖ Service Animals are **NOT**:

- ❖ Required to be certified or go through a professional training program
- ❖ Required to wear a vest or other ID that indicates they're a service dog
- ❖ Emotional support or comfort dogs, because providing emotional support or comfort is not, per the ADA, a task related to a person's disability

<https://www.ada.gov/topics/service-animals/>

https://www.cdfa.ca.gov/AHFSS/Animal_Health/eprs/docs/nasaaep_disaster_veterinary_medical_response_best_practices.pdf

Service Animals

- ❖ If it is unclear to you whether someone's dog is a service dog, you may ask for certain information using **Two Questions**
- ❖ You May Ask:
 - ❖ Is the dog a service animal required because of a disability?
 - ❖ What work or task has the dog been trained to perform?
- ❖ You are **NOT ALLOWED** to:
 - ❖ Request any documentation that the dog is registered, licensed, or certified as a service animal
 - ❖ Require that the dog demonstrate its task
 - ❖ Inquire about the nature of the person's disability

ADA Service Animal Stipulations

- ❖ Service Animals remain with their Handler and must be in control:
- ❖ Under the ADA, Service Animals must be under control of its handler
- ❖ “The Service Animal must be harnessed, leashed, or tethered, unless the individual’s disability prevents using these devices or these devices interfere with the service animal’s safe, effective performance of tasks. In that case, the individual must maintain control of the animal through voice, signal, or other effective controls.”
- ❖ Poor behavior and/or defecating/urinating indoors is cause for removal from a location
- ❖ You can’t deny access, but it is the responsibility of the Handler to maintain that access

Emotional Support, Comfort Animals

- ❖ Emotional support animals, comfort animals ...are not service animals under Title II and Title III of the ADA.*
- ❖ ... Other species of animals, whether wild or domestic, trained or untrained, are not considered service animals either.
- ❖ It does not matter if a person has a note from a doctor that states that the person has a disability and needs to have the animal for emotional support. A doctor's letter does not turn an animal into a service animal
- ❖ Laws specific to Emotional Support Animals may differ from State to State
- ❖ Where do the Service or Comfort Animals reside?
- ❖ What is a Level 1 Pet Shelter Volunteers' Responsibility?
- ❖ What would you do if someone comes to the shelter with their Service/Emotional Support Guinea Pig?

<https://adata.org/guide/service-animals-and-emotional-support-animals>

<https://usserviceanimals.org/blog/emotional-support-animal-laws/>

What about Crisis Response and Therapy Dogs in an Emergency Shelter?

- ❖ Comfort and Crisis Response Dogs are trained to handle stressful, crowded situations so that they can help people remain calm in disasters
- ❖ Some K9 Response Teams use techniques to bridge the gap between a traumatic event and the connection to mental health supports: <https://k9fr.org/>
- ❖ Therapy dogs are privately owned canines. These dogs and their owners volunteer in places like schools, hospitals, Public Safety, communication centers and nursing homes

Livi
@therapudogsunited

Niko Suave:
K9 First Responder
@nikosuaveakita

- ❖ Crisis and Therapy dogs are not considered Service Animals
- ❖ Unless working in the shelter* Owners of Crisis and Therapy dogs do not benefit from the same legal accommodations Service Animals

REMINDER!

- ❖ It is important to remember that any Crisis, Comfort or Therapy dog who is a “resident” of the emergency shelter, should NOT be working.
 - ❖ These animals and their handler, as with other residents of the Emergency Shelter, are in the midst of their own crisis and should not be supporting other shelter residents.
- ❖ Crisis, Comfort or Therapy dogs that are “working” in the shelter have been INVITED in to support shelter residents and/or First Responders
- ❖ **Can a Dog be both a Service & Therapy Animal?**

OWNER PET EVACUATION SHELTER AGREEMENT

I, _____ understand that an emergency exists and that special arrangement have been made to allow my family and pets to remain together in this shelter facility. I understand and agree to abide by the pet care rules contained in this Agreement and have explained them to any other family members accompanying me and my pet(s). I also acknowledge receipt of a copy of the **RULES FOR THE SAFE OPERATION OF THE PET SHELTER** and agree to abide by them.

RULES TO ENSURE PET AND PEOPLE SAFETY

1. My pet will remain in its crate except at scheduled times. During scheduled relief time, my pet (cat or dog) will be properly controlled with leash/ harness and muzzle (if necessary). Scheduled times will be strictly adhered to.
2. I agree to properly feed, water and care for my pet as instructed by SMART staff. I agree to properly sanitize the areas used by my pet, including proper waste disposal and disinfection as instructed by the smart staff.
3. I certify that my pet is current on rabies and all other recommended vaccinations. I agree to assume the cost of any shots or veterinary care, which may be given at the shelter because my pet lacks proof of vaccination.
4. I will not permit my animal to have any contact whatsoever with any other animal while out of its carrier, nor will I permit any other shelter occupants to handle or approach my pet either while in its carrier or during exercise times. I will make sure that the carrier door is properly latched.
5. My pet and its cage will be tab-banded for identification by SMART staff upon registration. I agree not to remove these identification bands until after discharge from the shelter.
6. I will permit my pet to be examined by qualified shelter personnel to determine if medical or stress conditions requiring attention are present. I further agree to the administration of medication to alleviate any symptoms.
7. I acknowledge that my failure to follow these rules may result in the removal of my pet to another location. I further understand that if my pet becomes unruly or aggressive, shows signs of contagious disease, is infested by parasites (fleas, ticks, lice, etc.), or begins showing signs of stress-related conditions, it may be moved to a more appropriate location. I understand that any decision concerning the care and welfare of my pet(s) and the shelter population as a whole are within the sole discretion of SMART, whose decisions are final.
8. I certify that my pet has no prior history of aggressive behavior, has not bitten anyone within the past 10 days and has not been diagnosed with any contagious diseases for which it has not received successful treatment.

I hereby agree to hold harmless all persons, organizations, corporations or government agencies involved in the care and sheltering of my animal(s). I further agree to indemnify any persons or entities, which may have suffered any loss or damage as a result of the care and sheltering of my animal(s).

I understand that if I leave the shelter when the emergency is declared to be over, and I do not take my pet(s) with me, then it/they will be transferred to the _____ Animal Shelter and be held there for a maximum of _____ (____) days for disposition. The fee charged by _____ Animal Shelter is \$_____ for the first day, plus \$_____ per day thereafter.

I have provided these items for my pet _____

I acknowledge that the following items were loaned to me to provide proper care and confinement of my pet(s) during the emergency and I agree to return these items to SMART when the shelter is closed.
