

Information for the Family

Welcome to Pathways Family!

Pathways to a Better Life, LLC provides a safe structured home-style living setting with the goal of enabling your loved one to stay sober and/or free of chemicals. Pathways will assist your loved one in becoming conscious in his /her highest potential for independent living in everyday situations in the community. Pathways uses a holistic approach to help each person meet individual goals through collaboration with referring agencies, the resident, counselors, and the Pathways staff working together as a team.

Families are an integral part of the healing process. We encourage family members to attend our Family Group Sessions held on every Saturday, which includes our Family Alumni group once a month. Each family group provides an opportunity to increase support, provide experiences, and education in order to maintain the personal connections needed with this complicated disease.
