

**MATERNAL POWER™
ANGUS BULL SALE**

**AT THE RANCH FEB 20, 2021
3 P.M. FORT RICE, ND**

OUR PROGRAM:

We raise Angus cattle that prosper in a no-frills environment. They are moderate-framed, very fertile, easy-fleshing productive females with good feet, great udder quality and a quiet disposition. A seedstock source with a no-nonsense, problem-free herd backed by Maternal POWER™ is essential to help ranchers stay profitable.

Each year, we select a handful of proven, balanced-trait AI sires to use in our program. They must have a proven maternal lineage, come from highly productive mothers and, preferably, have daughters in production.

This is not a shoot-from-the-hip breeding program. By taking a balanced approach to genetic selection, we hope to manage our risk and help you manage yours.

COMMITTED TO OUR CUSTOMERS:

Each bull is backed by generations of Maternal POWER™ and our industry-leading guarantee. As a Strommen Ranch bull buyer, you can take full advantage of our exclusive marketing resources: the Badlands Angus Alliance Female sales in December and January, and our Commercial Female List. Both tools expose our customers' bred and open heifers to potential buyers.

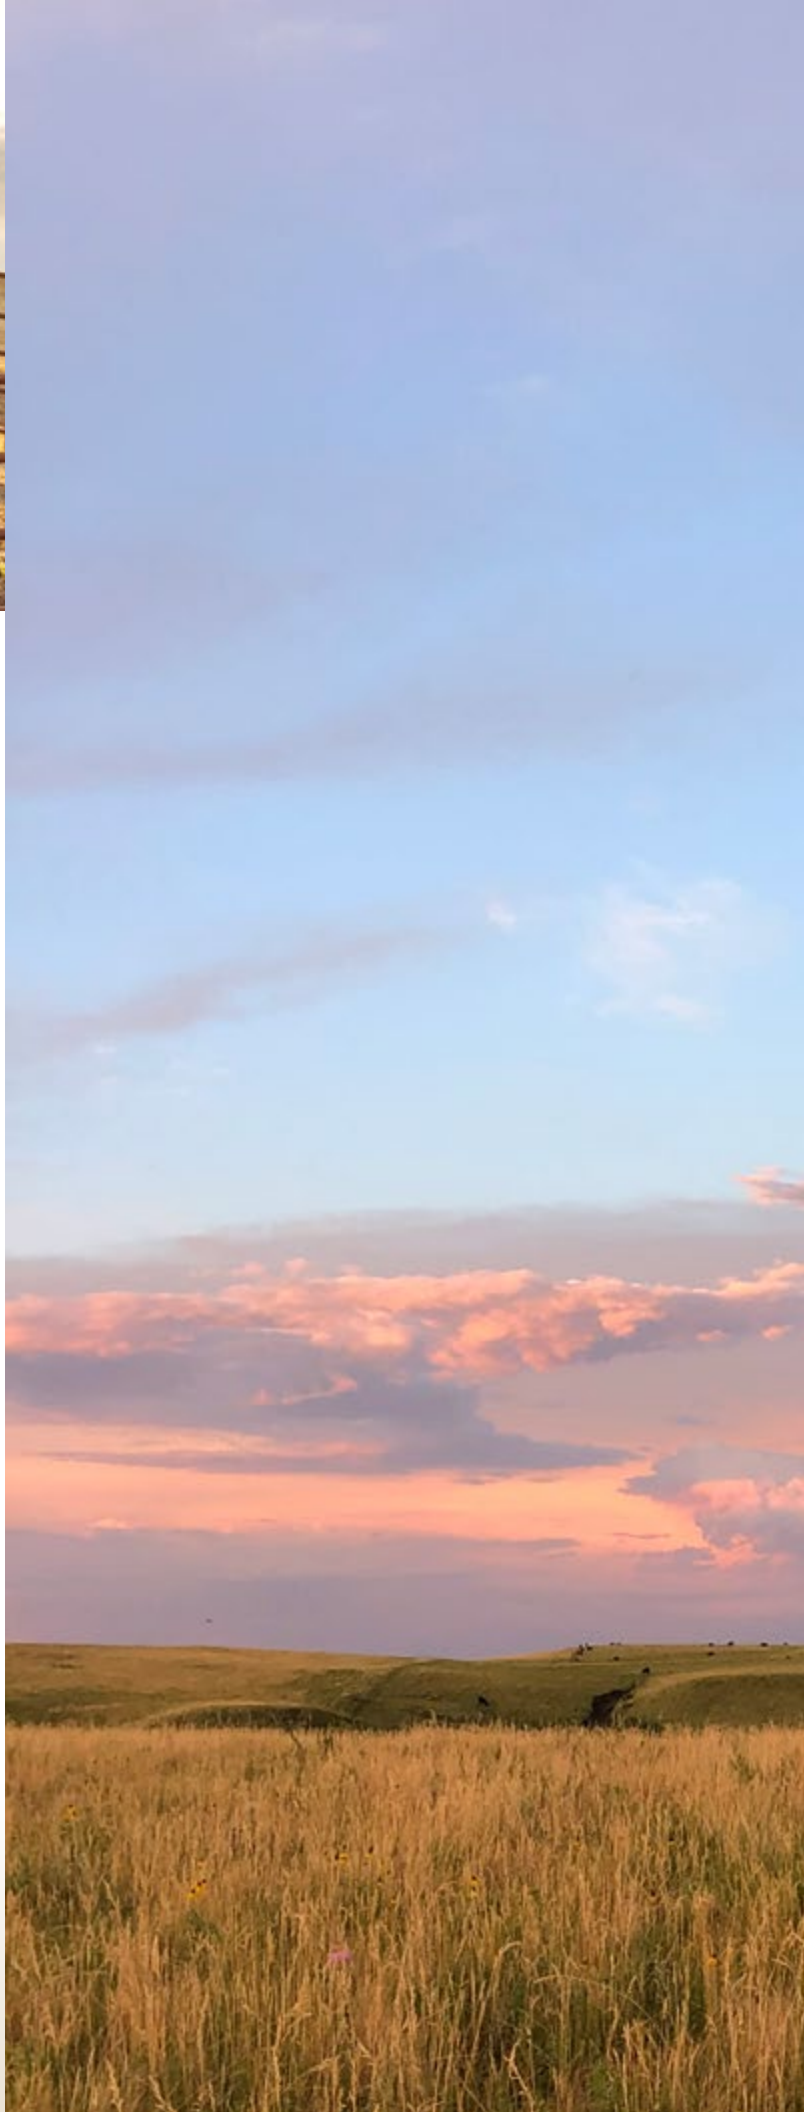

We've built - and continue to build - a strong demand for Strommen Ranch-influenced commercial bred females that generate a premium for our bull customers. We fully recognize our future as a seedstock supplier is based on the success of our customers. We will work hard to help you succeed.

We invite you to attend our 2021 Maternal POWER™ Angus Bull Sale, SATURDAY, FEB. 20, 2021 at the Ranch, Fort Rice, ND. We are eager to earn your trust, friendship and business.

Scott Ressler.....(701) 391-7310
Todd Finke.....(701) 240-7711

SALE ORDER • We will follow consecutive sale book order.

TERMS AND CONDITIONS • All animals sell under the standard terms and conditions of the American Angus Association. Terms of the sale are cash. Full payment is due on sale day, unless prior arrangements have been made.

BASE PRICE • All bulls will have a minimum price of \$2,500 sale day. Bidding will begin at the base price.

BULL DEVELOPMENT • These bulls have been handled correctly and developed without ANY creep. They have been fed just enough to express genetic differences, but not overfed as to compromise soundness or longevity. We want you to have a bull that will do his job and last for years. We believe our 90-day breeding season guarantee, detailed below, is among the best in the industry.

DISCOUNTS • We will offer a \$50/head discount if you purchased a bull last year and a \$50/head discount for volume purchases of 2 or more head.

EPDS • EPDs are current as of Jan. 25, 2021.

SALE TIME & LUNCH • The sale starts at 3 p.m. CST. Please join us for lunch beginning at 1 p.m. and remain with us after the sale for fellowship and refreshments.

FEEDING & DELIVERY • We will keep all bulls free of charge until delivery. Deliveries start May 1st. We ask that you work with us so that we can get bulls delivered in the most efficient manner. We will offer free delivery within 500 miles of the ranch.

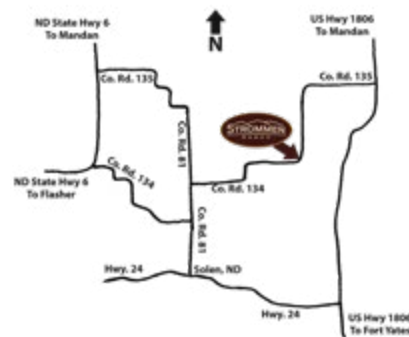

HEALTH • All bulls have been on a complete health program as prescribed by Dr. Pat Bierman of the Mandan Vet Clinic, Mandan, N.D. Bulls have been given a vaccination for foot rot and will be boosted when they are fertility tested.

FERTILITY • All bulls will pass a fertility exam performed by Dr. Bierman before delivery.

LIABILITY • Anyone attending this sale does so at their own risk. Neither the owners nor anyone connected to this sale, assumes any liability, legal or otherwise.

SIRE GROUPS • For our customers who are looking to put together a set of closely related herd sires, we are offering many 1/2, 3/4 and full brothers.

SIGHT UNSEEN PURCHASES • If you, for some reason, are unable to attend the sale, but wish to place a bid, feel free to call us and we will handle your bid as if you were here. If you wish to be on the phone during the sale, we will try to accommodate your request. Please let us know in advance so arrangements can be made. We have also partnered with DVAuction to offer online bidding and purchasing options. All sight unseen purchases are fully guaranteed.

DIRECTIONS TO THE RANCH • From Cenex on Main Street in Mandan, take Highway 1806 South 27.5 miles. Turn West onto County Road 135. Go West about 4 miles. The road curves South. Continue South 3.5 miles. The ranch is on the West side of the road. Roads will be marked.

From Solen, go North on County Road 81 for 5 miles, then turn East onto County Road 134 for 7 miles.

DVAuction
www.dvauction.com

We've partnered with DVAuction.
See page 28 for details.

Videos of the bulls will be available on our website www.StrommenRanch.com

GUARANTEE • Strommen Ranch is very confident that we have developed these bulls safely. They have been fed just enough to express genetic differences, but not overfed as to compromise soundness or longevity. **We want you to have a bull that will do his job and last for years.** It is important to us that these bulls not only perform from birth to yearling, but from birth through breeding. It is with this confidence in our bulls that we can give our full 90-day breeding season guarantee. We understand that these are animals and that injuries do occur, but we have the utmost confidence that we have developed these bulls in the best way to protect your investment. If an injury or death occurs, Strommen Ranch will guarantee them for the purchase price minus salvage value (\$1,500), or we will provide a replacement bull, if a suitable bull is available.

We don't make you take out an insurance policy and add that to the purchase price. We don't have a formula to take away half of the value of the bull if injury occurs. At the same time, these are not 'disposable' bulls. We expect you to care for your investment in your Strommen Ranch bull, so that if a problem does occur, the most appropriate and timely care is taken. If the bull happens to get injured, or you are unsatisfied with your purchase for any reason, we want to know so we can take care of the issue in a timely manner. All injured bulls must be diagnosed by a veterinarian and any claims must be made by Sept. 15, 2021. **We are committed to our customers and your success.**

There are three things Torque does better than any bull we have ever used – he adds body length, improves disposition and he stands on a tremendous foot. He works great on those big-bodied, easy-fleshing females that need spine length and extension up front. He improves disposition and feet quality, all while maintaining maternal function and power. We feel the best is yet to come with the daughters he is leaving us.

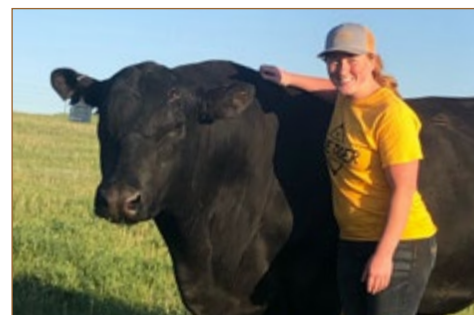

We went to Bruin Ranch in California to see the first daughters in production and to see his maternal sisters while they were wet and raising calves. To say the least, we were extremely pleased with the potential impact his daughters will have on our program.

Torque's disposition is second-to-none. Before we took the top photo, we combed out his tail and wiped his face down with a wet cloth – all while he stood like a gentleman out in the pasture.

Clint and Torque, 2018

Strommen Ranch intern, Erica Gilmore of Missouri, with Torque last summer.

"We place extensive pressure on our cowherd and ourselves to generate the right genetics that will positively impact our customers' herds."

The Substantial calves have tremendous vigor at birth and in two years, we have never assisted a single virgin heifer bred to him. The calves have laser-like focus on nursing and are very aggressive at getting on the teat. We have been told the daughters are great uddered and have tremendous structure. We will calve our first ones this spring. He is sired by Substance and out of a daughter of Territory. He has a negative Birth EPD and double-digit calving ease with tremendous ability to pass on good feet and large scrotal on his sons. We will have a good selection of Substantial sons in the next few sales. The sons are an excellent choice for breeding heifers.

Rainfall was our choice for calving-ease, performance, phenotype and carcass quality. He gave us the stoutness and body type we were looking for in a light-birth package with excellent breed character. The daughters are clean-fronted with massive body volume and rib-depth, which will help them withstand extreme conditions and gives them the internal capacity it takes to break down poor quality forage and turn it into muscle and fat for survival in our sometimes harsh environment.

Tehama Blackcap Revolution is a bull we have been watching for many years. The bull in the breeding pasture was one of the most impressive bulls I've ever laid eyes on. Charlie Boyd said, "He was one of the best bulls we have ever had walk at Boyd Beef Cattle." The females are excellent and many went on to be donor quality females. Fertility, feet and udders are great. We thought he would click well with our cattle and he definitely did. You will see his progeny trickle in over the next few years. Semen was nearly impossible to find, but we gathered up enough and have been flushing our best cows to him. Muscle mass, bone, excellent feet, productive, fertile daughters with great phenotype and tremendous udder quality. Photos of

his Pathfinder dam and a couple of sisters, along with the many daughters, sons and grand progeny we have seen solidified our decision to use him. His progeny are not frail, chicken-boned light birth calves when they are born, but have noticeable vigor and a will to live in tough calving conditions. The bulls averaged 93 lbs. and heifers averaged 87 lbs. at birth.

With 56 progeny born at the ranch and a progeny WR of 6/113, Polly 804 is certainly a cornerstone of our program. This Territory son combined with the Maternal Power™ of the Polly cow family will command the attention of the top cattlemen. Sons of Polly 804 are working in many of the top purebred and commercial herds in the region. This rascal is thick-made, deep, soft-middled with excellent body length, masculinity and muscle shape. Not going to be many sons of Polly 804 selling anymore, so get your hands on a good one here.

S R Polly 804 is the dam of Lot 1

Maternal brother purchased by Roger Harstad of N.D. in 2018.

One of the most attractive profiling bulls in the sale. This Torque son has awesome phenotype, muscle shape and definition, extremely long and attractive. His dam has settled to her AI service every year including this year and has a calving interval of 375. She should make Pathfinder status along with her granddam and dam who sports a progeny WR of 6/105 with a 369-day calving interval and settling to her AI service every year. She scored 8.5 for udder and 10 for disposition. Performance with cow power – extreme balance.

Recommended for use on heifers. Wow! What a tank. He ranks right up there as one of the all-time greatest calving-ease prospects we have ever produced. Moderate-framed, massive in his rib shape and volume. He carries a ton of muscle with shape and depth of flank. His highly productive and fertile dam has settled to her AI service every year and carries a progeny weaning ratio of 3/109 and should attain Pathfinder status. She is a legitimate 1,000-1,100 lb. cow that weans a high percentage of her body weight every year. Dam scores a 7 on udder and 10 for disposition. The definition of true profitability at the ranch level with these genetics.

Recommended for use on heifers. A calving-ease son of Torque going back to the proven female makers Game Day and Eagle Eye. His dam settled back to first cycle AI and scores a 10 for disposition and 10 for udder quality.

Clint got to spend a little time with the cows this summer, though not as much time as he would have liked. He toughed it through 6 spine surgeries and multiple weeks at Gillette Children's Hospital in Saint Paul, MN, all the while keeping his happy-go-lucky outlook on life.

A performance-oriented son of Torque that weaned off his Resource dam at 764 lbs. to ratio 113. She settled to her AI service every year and scores 8.5 for udder quality and 9 for disposition. She lost her first calf for unknown reasons at 3 days old so we spiked a twin on her that she didn't get credit for in the AAA system. Nice balanced bull that covers all the bases.

This Torque son goes back to the Miss Wix 708 cow Jack was so fond of. He told me many times he'd like to have a herd of cows like her. Excellent choice for making a powerful set of steers and replacement females to build on.

Our kids are actively involved in the day-to-day operations of the ranch.

LOT 18 ~ S R REVOLUTION 0105

This is an excellent flush of bulls from our tremendous donor S R Bonnie Belle 408. These bulls exhibit the traits that make ranchers who sell by the pound profitable. They are powerful, big-topped, wide-based, heavy-muscled, great-footed and easy-fleshing. Their beautifully constructed dam has near perfect phenotype and scores a 9 for udder quality and a perfect 10 for disposition. Their proven sire Tehama Blackcap Revolution is known for the raw power and muscle he puts into his male progeny and the easy fleshing, big-bodied, excellent footed, great uddered daughters he produced. The bonus to this group is the proven production, foot quality and fertility of the Bonnie Bell cow family and the Pathfinder 2nd and 3rd dams.

Larger statured bull from a first calf Attraction daughter. The Attraction cattle have more scale and size to them. He performed well weaning off at 820 lbs. to ratio 119. Dam and granddam both settled to their AI service every year.

PROVEN, BALANCED COW-MAKERS

Our cattle are backed by generations of proven, efficient genetics, emphasizing calving ease, fleshing ability, productivity, udder & foot quality, disposition, structure and fertility.

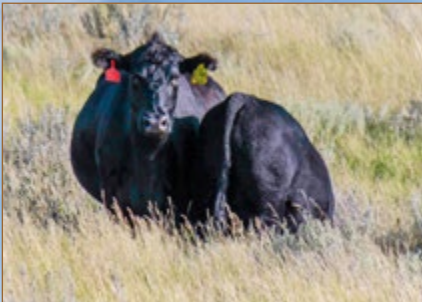

VISITORS ALWAYS WELCOME!

Visit us in person or online and follow us on social media for updates.

www.StrommenRanch.com

"IF YOU CAN'T PUT YOUR HEAD
ON YOUR PILLOW AT NIGHT AND
VISUALIZE YOUR IDEAL COW,
THE ODDS OF YOU MAKING ONE
ARE VERY, VERY SLIM."

"I AM ANGUS: ED OLIVER, GEORGIA"

OUR CATTLE *Thrive* IN A GRASS-BASED, NO-FRILLS ENVIRONMENT

From the beginning, we've been laser-focused on producing Angus cattle that prosper in a no-frills environment: moderate-framed, high-volume, easy-fleshing, productive cows with good feet, great udders and a quiet disposition. We expect our cows to re-breed quickly and wean a calf that is a high percentage of its dam's bodyweight, year after year. Our cows have consistently increased weaning weights while increasing the percentage of cows that re-breed in the first 21 days. You won't find any lick tubs or creep feeders hidden behind the hills of our pastures. **Cattle that can do more with less – that's our definition of MATERNAL POWER™!**

From the beginning, we've also been very particular about the sires we select. **We hate surprises.** That's why we use a small group of proven, balanced-trait AI sires on our cows each year. We conduct a tremendous amount of research – evaluating the generations of genetics behind a bull, as well as his progeny – before we commit. A powerful, consistent cowherd cannot be

built using a "little-bit-of-this-little-bit-of-that" strategy to sire selection. You must have a plan and a clear vision of what your ideal cow is.

We know what it is like to start from scratch – and how important it is to make cattle work for you, instead of the other way around. As your seedstock provider, we want your operations to be profitable and sustainable for generations – regardless of the market. **We believe you can achieve this by developing your own herd of efficient, problem-free livestock backed by Strommen Ranch MATERNAL POWER™ Angus genetics.**

We invite you to attend our Maternal POWER™ Angus Bull Sale, **Feb. 20, 2021**, starting at 3 p.m. at the ranch, Fort Rice, N.D. Our bulls' pedigrees are stacked with six to eight generations of proven, balanced, female-making genetics and we stand behind them with an industry-leading guarantee, exceptional customer service, and a powerful, maternally oriented herd.

Power bull here. He came across the scale at 836 lbs. to ratio 124 against his contemporaries. His dam is one of my favorite XXP daughters and scores a 10 for udder quality and a 10 for disposition. She settled to her AI service again and has a calving interval of 359 days. He has extreme performance numbers and will definitely have progeny that smash down the scales. We are thrilled with the Blackcap Revolution progeny and we will have his progeny for the next few years.

Recommended for use on heifers. Dam has a history of light birth progeny and is out of a second generation Pathfinder. Calving ease, production and cow power.

It's getting harder and harder to catch Cooper on camera. "I'd just rather work when there's ranch work to do," he told mom one day.

DVAuction
 Broadcasting Real-Time Auctions

Can't make the sale? **Bid from home with DV Auction's "real-time" internet bidding service!** Buying online is as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "register" tab.
2. Apply for bidding approval by clicking on the "details" tab at least 24 hours prior to the auction - a DV representative will notify you when you are approved.
3. Tune in for the sale and make your purchases!

After the sale, contact Aaron to arrange transportation and payment. High speed internet is required for successful bidding - be sure to check the lag-time monitor in the top left corner to ensure real-time broadcasts.

Proxy Bidding: If you can't make time to watch the sale, register a proxy bid and DVAuction represent your bid while you're away. Look for the "proxy bid" tab on the auction listing and fill in your maximum bids. They'll handle the rest!

Having troubles? During the auction, you can type a message to the operator at any time for assistance. DVAuction support can always be reached at (402) 474-5557.

An excellent Raindance son out of our Polly cow family-a cornerstone in our program. Many Maternal Power™ greats in this bulls' ancestry-Right Time, Alliance, Emblazon, Paxton, Traveler 004. Dam has settled to her AI service again and has a 370-day calving interval. Granddam is a matriarch to our program and has a progeny WR 6/113. Dam scored a 9 for udder quality and 10 for disposition had a slight vertical crack started in a front foot.

Maternal brother of Lot 64 purchased by Lance Giannonatti in 2019

Recommended for use on heifers. We couldn't get the DNA to match up on the sire of his dam so she is not registered but a really nice cow. The known pedigree reads for calving-ease. EPD's are estimated.

Strommen Ranch delivers! We truly enjoy visiting our customers at their ranches and seeing our genetics at work in their herds.

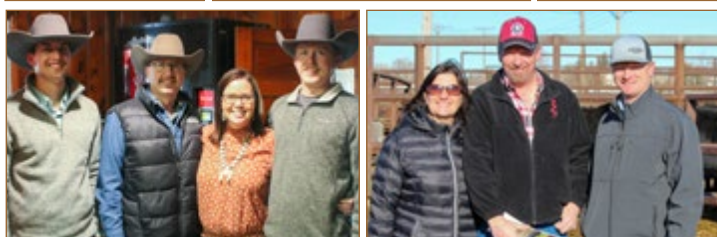

Photos of sale lots and many of the support photos were captured by Aaron or Sheyna. We are far from being professional livestock photographers, but we usually enjoy the experience – at least by the time we're done.

FOR OUR VALUED CUSTOMERS, WE OFFER:

- Two sales with two ages of bulls:
Spring Sale: Yearlings • Fall Sale: Coming 2-Year-Olds
- Free delivery within 500 miles of Strommen Ranch.
- Full 90-day breeding season guarantee.
- Fertility tested; Freeze branded.
- Bulls that aren't overfed.
- Discounts for volume purchases and repeat buyers.
- Large sire groups and expanded selection.
- **Exclusive commercial female marketing assistance.**
 - Badlands Angus Alliance Sales in Dec. and Jan.
 - Commercial Female Listing.
- *Your satisfaction is our top priority.*

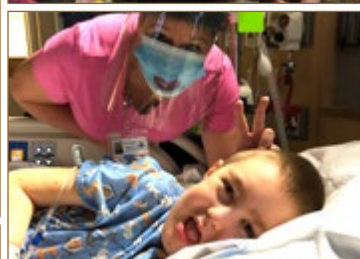

Flasher students pausing for the National Anthem

Above, Erica Gilmore of Missouri spent the summer with us as our 7th Strommen Ranch Summer Intern. If you know of a college-age student who would like more hands-on experience on a working ranch, encourage them to apply today!

Clint convinced his respiratory therapist to put lipstick on her mask!

Exhibitors at our neighborhood "4-H Family Fun Day," pose with Clint, who took home the coveted 'golden halter.' The recipient's family gets to host a fun day the next summer!

Introducing MONTANA GLOBAL 9129

Global gives us a maternal lineage, herd bull presence and an excellent phenotype on both sides of his pedigree. His full sister is a gorgeous cow with a beautiful udder. His young dam is a full sister to Coleman Bravo 6313 and quickly rising to the top of the Montana Ranch herd. We expect Global to transmit calving ease in a moderate-framed package with fleshing ability and maternal goodness. **SEMEN AVAILABLE FOR HEIFER PROJECTS. Commercial and volume discounts apply. Contact us for availability and pricing.**

WE VALUE **OUR CUSTOMERS.** We know that our success is wholly dependent on your success. This is why we are committed to not only raising the type of Angus seedstock that will have a lasting, positive impact on your bottom line, it is why we continue to work to build a market for Maternal POWER™ females.

Over the past three years, we've partnered with Talkington Angus Ranch and Best Angus to help our collective customers sell their replacement bred females through Badlands Angus Alliance sales in Dickinson in both December and January. The Badlands Angus Alliance is recognized by many as *The Premiere Source* for Angus genetics in western North Dakota. We've also helped our customers market and/or purchase high-quality heifer calves through our Commercial Female list. These are marketing perks offered exclusively to our bull customers.

WE VALUE **INTEGRITY IN BUSINESS.** It is why we offer the bull guarantee we offer. It's simple. We want you to have a bull that lasts for years. Our guarantee tells you we still have 'skin in the game,' beyond sale day. When you buy a Strommen Ranch bull, you can bet that Aaron will check in to see how your Strommen Ranch bulls are performing. And, if an unforeseen circumstance arises, you can bet that we will stand behind our bulls. If you've ever visited with Aaron about cattle (or any subject, really), you know he does not mince words. He'll tell you what he likes about a bull or female and he'll tell you what he doesn't like about that animal, as well. We feel blessed that our customers also embody this same level of integrity and do their best to protect their investment in their bulls with Maternal POWER™

A full-page background image showing a sunset over a vast, grassy field. The sun is a bright yellow orb in the upper right, casting a long, golden glow across the sky and the landscape. The sky is filled with soft, wispy clouds in shades of orange, pink, and blue. In the foreground and middle ground, a herd of dark-colored cattle is grazing on the grass. The field is a mix of green and dry, yellowish grass. In the distance, there are rolling hills and a few scattered trees under the twilight sky.

“IT’S NOT HARD TO
MAKE DECISIONS
WHEN YOU KNOW WHAT
YOUR *values* ARE.”

- ROY DISNEY

WE VALUE **QUALITY**. Bulls that make our February and December sales are the top-cut of the calf crop and have been retained specifically for these sales. Not every bull calf born at Strommen Ranch makes it to the sale pen. Not every seedstock operation sells steers. We do.

Strommen Ranch calves grow out on grass. We DO NOT creep feed or use lick tubs. We choose to run our seedstock operation like a no-nonsense commercial operation. We want your calves to perform in your environment – that’s why we ask our bulls and females to shine in a similar one. Our cows have consistently improved weaning weights, while increasing the percentage of cows that re-breed in the first 21 days, maintaining mature cow size and placing downward pressure on our input costs. We are continually asking our cattle to do more with less.

WE VALUE **MATERNAL POWER™**. Strommen Ranch cows must calve annually and wean a calf that is a high percentage of its dam’s bodyweight. They must also possess the basic phenotypic traits to cover country, breed on time, have the smarts and mothering ability to do it on their own, all the while performing under the conditions that Mother Nature has dealt us. We select for fertility, longevity, sound structure and realistic performance in the cowherd.

Cattle that breed early in the cycle, are structurally sound and can raise big calves efficiently in a practical environment with minimal inputs are the kind of cattle we produce and believe will have a positive impact on your bottomline now and into the future.

FLOYD RICHARD

JAN. 4, 1929 - MAY 29, 2020

FATHER • FARMER • FRIEND

Sheyna's dad, Floyd Richard of Rolette, N.D., passed away May 29, 2020, at age 91.

Growing up through the Great Depression and Dust Bowl, Dad was enthralled with his parent's farming operation, recounting numerous stories about bringing lunch to the field as a young boy, then threshing and hauling bundles as a teenager. His formal education ended at 8th grade as he struck out on his own at age 14, yet his thirst for knowledge – particularly about agriculture – never ceased. As a young man, he farmed with his brother Art and made ends meet by installing heating

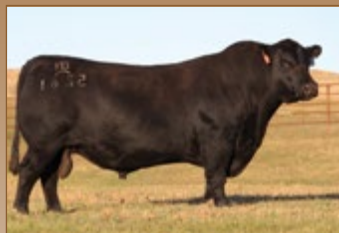

systems for a local contractor. After a 1952 "Short Course in Ag" at NDSU in Fargo, he went on to farm for 66 years in Rolette, Pierce and Bottineau Counties. He was proud to have helped his four sons get started in farming and was blessed to have worked alongside them until he was 85 years old.

During his career, Dad saw the evolution of farming from horse-power, to precision ag. After their wedding in 1954, he and Mom purchased a ranch near Rolette, N.D., where they raised 4 sons, 2 daughters, Polled Hereford cattle, Columbia sheep and small grains. They persevered through droughts, floods, depressed farm markets and the farming crisis of the 1980's. Through it all, Dad never failed to rejoice in seeing a field of ripening wheat, rich brown soil, or a newborn Polled Hereford calf.

Over the years, Dad was recognized by numerous groups and organizations, for excellence in agriculture, but the way he lived his life is what made him truly one-of-a-kind. He could strike up a conversation with anyone and had the unique ability to make others laugh. He enjoyed a good joke, a strong handshake, playing cards, and dancing to the music of a live band. His opinions were as strong as his Catholic faith and when he wasn't farming, he LOVED a heated political debate – particularly about farming. Dad had more common sense than most and could calculate numbers in his head faster than we could punch them into a calculator.

He was a Polled Hereford breeder in his younger years, but around 2001, he happily started promoting Angus cattle by wearing his Strommen Ranch hat everywhere.
