

In June of 2017 I was contacted by a teacher at the British Vietnamese International School (BVIS) in Ho Chi Minh City, Vietnam. The teacher mentioned that her students had heard about my Ugly Fruit and Veg Campaign, and the issue of wasted ugly produce, and wanted to do something. The students decided to write letters to major supermarkets to get them to sell ugly produce instead of rejecting or wasting it.

The students also decided to send their letters to me via email. It was so sincere and inspiring, letters from eight and nine year-old students (half-way around the world) who were learning English, that I responded with a personal thank you email to each of the 50 students! The letters are so great that I want to share them with you below and hope that it inspires kids you know (or yourself) to #LoveTheUgly (produce) and do something about this issue.

Because #KidsLoveUglyFruit and as BVIS 4V Teacher Rachael Moss said “There is nothing more powerful than the honest voice of children.”

Sincerely,
Jordan Figueiredo
The Ugly Fruit and Veg Campaign

Dear Super market around the world

Today I'm write this letter because to persuasive you to buy ugly food! I know that you are intelligent so can you buy ugly food?

Firstly, if you don't buy ugly food the farmer will throw it away and it is waste also the farmer will lost there money with time. However we can give the ugly food to the poor people.

Secondly, the ugly fruits and vegetables is taste the same at normal but it just look ugly. The ugly fruits and vegetables is healthy and good.

Finally, if the farmer throw the ugly food, the Earth will get global warming and it will bad for envirimment. When the envirimment are terrible which mean the Earth will be destroy. Did you want the Earth to be destroy?

What all I want to say know is can you buy some ugly food so the farmer don't throw it away.

Nicky

Dear Supermarket

I write this letter because some super market didn't sell ugly fruit and vegetables. Also some farmers sell ugly fruit and vegetables to supermarket then they can lose money and times to grow up the fruit and vegetables.

firstly is about waste fruit and vegetables. If you fling ugly fruit and vegetable poor people don't have a food to eat and they can die. Also if the farmer sell ugly fruit and vegetables they will lose money and the time. One more things if you thow ugly fruit and vegetables is waste in the UK, 1.4000.000 banana are throw and 1% is give to poor people.

Secondly is about your life is hearty. ugly fruit and vegetables make we more active that also good to eat.

finally is about environment, if you thow ugly fruit and vegetables that make the world environment pollute. Also one year had got a thousand of thousand fruit and vegetables. When you throw ugly fruit and vegetables to the sea the the waters will be a black. Some time when you go to sea and you see that you don't want to smell that is terrible. Do you want to Smell terrible thing?

Thank you for reading.

Minh Tien 4V

Dear markets around the world

We are writing this because we want to stop food wasting because fruit and vegetables are all wasted and we don't want this horrible thing happening. I heard that people are wasting food because of people thinking that it's taste bad and people not buying the ugly fruits and vegetables and fruits

People complain that they are ugly and not normal and poisoned or there is something wrong with the vegetables and fruits they taste bad but that's not true at all. Firstly all vegetables and fruits are healthy. There are some ugly fruits like a dragon fruit, durian, a twisted carrot and other wierd looking vegs and fruits.

Secondly these fruits fruits and vegs look stunning and kids can eat them joyfully and play with it also eat it they can also be creative with them. Thirdly we don't want wasting and also we don't want global warming. We are persuading tou to buy vegetables farmers have less money. and we must say sorry for the horrible mistakes we made to are earth and thank Jordan for warning us about this horrible disaster.

Finally are target is to not waste and eat ugly fruits and vegetables in the future . Keep are earth healthy and have a amazing life in earth .we would like to stop this horrible food wasting.

Edward

Dear Supermarket around the world,

We write this letter for you because we want to stop wasting the ugly food. More than that, you are the place that a lot of people went to buy things and you are very important. If you throw the ugly food we don't have anything to eat. So here are the reasons why,

Firstly, if you are throwing the ugly food we will waste it and we don't eat it. Also if you throw the ugly food away, no more food to eat. Moreover, if there are no more food, it will affect the animals and a lot of people. Furthermore, if we are throwing food, the food will smell horrible, terrible, and the gas will be polluted. If the gas is polluted, it will cause global warming and it is not good for the earth.

Secondly, if we are throwing the ugly food, it is a bad choice. It still has the same nutrition and it is still healthy. If you don't want to sell it, you can give it to the poor people or you can give it to the people that don't have any food to eat. Did you know in the UK, 1.4 000,000 bananas are thrown away every day.

Thirdly, if you don't want to sell it, we could give it to children. We can give it to the children because the ugly food looks funny and funky, but it is also very tasty and healthy. For children, it will be super super healthy. So do you want your children to be healthy? So please don't throw ugly food and vegetables away.

In conclusion, we should not waste food. The ugly food just tastes the same. When you read this letter, I hope you are not throwing the ugly food anymore.

Hope to see you in Viet Nam soon

Susan

Dear markets

We think that you are one of the best markets in the world and you make one of the best choices. You're so kind because you never shout at your customers because you want the customer to have a great day and a nice time, and you are so kind to the customer.

So they always have a great day. If you can't sell ugly fruit and veggies because they taste the same as perfect veggies. It's just not perfect but you can sell to kids then like it more. If you don't buy them they get thrown away so please buy them. They're nutritious and good to eat. I like and will always buy them ugly veg, because they are delicious and healthy but don't look good. Did you know ugly fruits and vegetables are the same as normal but they look funky. It's cool and good.

See you in Vietnam we hope.

Minh Trí

Dear super huge supermarket

Today I write letter to your super-cool-market to sell ugly fruit and vegetables. Here why:

1.global warming

When we throw it away it will made out gas and that kind of gas will make the world hotter and hotter and it will make global warming. Are you happy when it happens when it have global warming?

2.ugly fruit and vegetables is still healthy!!!!!!!!!!!!

Its is healthy and it taste the same!! But it getting throw away and it is such a waste .But if you eat it,it will help you grow up.

3.farmers lose money!

when farmer throw away awfull vegetables because you won't buy. are you happy when farmers lose money? you could sell them less money to children because it looks funny and children love funny.

with some of these important information please can you sell horrid vegetables there will be no more waste and global warming moreover farmer will not lose money.

see you at vietnam

Form Quang,

Dear Dear Supermarket around the world,

You are a significant, lovely and marvelous market.

We are writing this letter to persuade you to sell ugly/wonky fruit and vegetables because,

Firstly, this will be a waste if you throw it away, and people are starving because they don't have food to eat. If they don't have food, they will die because they are hungry.

Secondly, food is still healthy if it is ugly, it also has the same taste and is very delicious, if you try it you will know how healthy it is.

Thirdly, the farmer will lose their money, because they work so hard to plant this fruit but you have to throw it away.

Finally, Ugly fruit and vegetables can also make us more creative. When the children eat them they can play with them and have fun.

In conclusion, we wonder if you can take some ugly fruit, vegetables and sell them in your supermarket, so some kids can buy them and play with them happily. They could be more creative, they will eat them every day and be more healthy. If you don't eat them you can still give them to the poor people for them to eat and have fun. They will not be hungry anymore.

I hope I see you in Vietnam soon,

THAO NGOC.

Dear every supermarkets,

We know that you are the most smartest person and you sell the most delicious food, we very love it. We think that you missing something that is ugly fruit and vegetables. We got three reason.

Firstly, if we throw ugly fruit and vegetables will cost globe warming and the penguins will die and there will not be any penguins.

Secondly, farmers will lost money because there are nothing left sell and farmers will very sad and the farmers will be angry.

Finally, ugly fruit and vegetables have live like all of us and we need to protect it and we will have a lot of ugly fruit and vegetables and mother of nature will be very happy so she will not be angry.

So you see it very dangerous to throw ugly fruit and vegetables away so sell ugly.

See you in Vietnam:

Kevin

Dear the super market,

Today, i write this letter because i thing you are very gental, outstanding and special. I as you for don't throw ugly food and veg because

1.foods will waste a lots. Did you know that in U.K.,1.4,000,000 banana are thrown alway everyday. So if you saw ugly fruit and veg please don't thrown them, give it for a pool starving people.

2.The farmers are the one who grow them, they will loose many money if they can't sell ugly fruits and vegetables to the other people then the farmers don't have money

3.Inventhough, it ugly but it still healthy, delicious, and task the same at the not ugly fruits and vegetable.

You are very very very very important, you help the world so much. So please don't throw ugly fruit and vegetable.

See you again

Thank you

Oreo

Dear supermarket all over the world,

I write this letter to ask you to sell the ugly fruit and veg because it won't waste and make global warming.

Firstly, the ugly fruit and veg can be give to poor and starving people. It can be call as charity. If you given those ugly fruit and veg the poor and starving people it won't be waste and the people have food so they will alive, just because you throw ugly fruit and veg away million of people will die.

Secondly, you and the farmer will lose their money and you too. All of the energy of the farmers is use to grow the plant but if it is ugly so it will been throw away. And if all of the food is ugly, what will you do?

Lastly, the ugly fruit and veg just taste the same normal children didn't like to eat fruit and veg but if it is look silly they want to eat it more.

I believe you will sell the ugly fruit and veg after read my letters.

See in Vietnam soon,
From Gia Linh

Dear supermarket

We think you are the best because you are get vegetables and fruit to us eat, we want to persuade to don't throw the ugly fruit will waiste the fruit. why we don't get the fruit to the other children and get the vegetables to get the money and Donets for the children who don't have home . The vegetables is the same heathy and delicious and that the farm will lose money. The ugly fruit and vegetables is not the same body but the same heathy. I think you be persuaded, good luck.

BY Minnie.

Dear supermarket around the world,

You're the best supermarket,

We write this letter for you because you are throwing fruit and vegetables. I think you should take vegetable and fruit because farmers will lose money and time, waste food is not global warming and I now you are the best foremost beautiful supermarket. I think the vegetable and fruit is a same ,the vegetable and fruit is ugly but is good and have energy and taste a same .

You are the most interesting supermarket.

From Thank Vy

Dear supermarket,

I am writing to you to persuade your company to sell ugly fruits and vegetables. We all think that you are the most wonderful, the most excellent and of course the most important company ever been. We also think that the world will be nothing without you.

There are more than 1.4000000 ugly fruit and vegetables are thrown away every day and that will cause global warming. The fruit and vegetables that was thrown away produces a type of gas that causes global warming moreover it can ruin the environment. Think about it what do you get back huh? Are you proud of yourself?

Think about this, all of the fruit and vegetables that had been waisted can be feed to the pore/starving people in at least one country! They wouldn't mind much at least they have food to survive in nature but there is less than 1% that the ugly fruit and vegetables are fed to them.

There is no scientific facts about what has changed in them the only thing that has changed is how they look. The vitamins are still the same and they are still as healthy as normal.

Hope to see you again in Vietnam

Cherry

Dear: market

We are send you a letter for you because you are waste of the vegeble and fruit some people was die because there no food.

First the farm will lose money and there will do 3 thing of this. the farm dont get money and there will don work every more or the farm will know and don work every more and there will not give a food for a market every more and there will play with there pet and don do every thing

There are to much waste of food there will have 3 thing down here 1.400.0000 million banana there will not have banana every more or if you waste food there not food there not food and the earth will die and the animal will eat a broke vegeble or fruit and there die and the word don have meat.

I think you will think again and I thing you will not waste of food every more and you will eat a vegeble and fruit if people don buy.

Form: xuan phat

Dear Mr Jordan please can you send this letter to a USA Supermarket.
Thank You and hope to see you in Vietnam soon.

Dear Mr Supermarket,

We've heard some dreadful news that you only sell perfect fruit & vegetable and throw the other one's away. We know that you are one of the best-selling and your also very good at picking things to sell in your Supermarket but in this problem I think your being very evil to to the ugly fruits and vegetable away. Here's why you should sell or use the ugly Frisia's and veg:

Firstly, did you know that half of USA is fat because they have to eat unhealthy cheap food. They had to do this because the perfect fruits and vegetable is too expensive for them so they can't afford it. Therefore they had to buy cheap food. If you sell ugly fruit and vegetables they can afford it and USA will be a healthy country. Secondly, 50% of fruits and vegetables are thrown away by you and your some more supermarket. Do you think this is ok? Is this going to destroy our earth? We think you should use it for a more useful things.

Finally and most and most important is global warming.

Do you know that 1/10 of the ice in Antarctica has melted? If you keep doing this more ice will melt and cause Tsunamis and the world might drown.

In conclusion, We think you should do more useful things with the ugly fruits and vegetables than throwing it away. I hope you understand and will think again about your decision.

Thank You for your attention,

Hai Dang

Dear mr supermarket,

Today I'm write for you a letter, the reason I write this letter is I want to tell you about lost of ugly food and vegetable was throw away.

The first reason I write for you is I have seen lost of and lost of vegetable was been throw away so I want to say you throw food away like you throw money because the food and vegetable sell from the money so.

The second reason, is we if we don't ate this food so I thing we can throw that food we didn't want to ate we could give for the animal don't have food to ate.

Finally, the famer the famer was loose his money because the famer was lost his time to take the vegetables and I thing food and vegetables are very healthy for us so we throw away the food and vegetables and the famer will loose the money

So, I thing you should don't waste food and vegetables.

From Tri Minh 4B Bvis.

Dear mr Jordan

I write for you the letter because, about the ugly food and vegetable, we need to sell ugly food and vegetable because if we don't sell it the earth will be destroy, here is my 3 reason.

This is the first reason it about global warming. If we don't sell ugly food and vegetable the people don't have any food to eat and they will dead and the earth will be destroyed.

This is the second reason reason, the ugly food has be throwaway, in America the kid has fat because in America they don't have vegetable and the kid eat burger so they fat.

And this is the final reason, if we don't sell ugly vegetable and fruit. did you know in 1 day in UK 1000,40 bananas has be throw away. And the earth will be poison.

Thank you so much

Quick Thai

Dear Supermarkets,

I write this letter for you, because I want you to sell the ugly and wonky food.

Did you know that? 1.4 million of banana are throw every day in the United Kingdom. If every body waste food we will be starving rather you throwing you can give it to the starving people.

If the food are weird you won't buy then the farmer will lose a enormous mount of money. If the farmer can't sell there and farm will not sell again. You can sell that ugly food in kid section. Then the kid will like ugly food for the kid section and they will tell there parents buy it a lot because it look very great and cool.

If the people don't have enough money to eat healthy they will eat unhealthy food and they will sick and fat. If you make it cheaper and they will buy it and be healthy.

I think ugly and wonky food is marvoulus and fantastic.

See you soon in Vietnam.

From Minh Tien

Dear super market around the world,

I'm writing to you because, to ask you to sell ugly fruit and vegetable.
Food wast: ugly fruit and vegetable taste the same,if you don't eat it give it to the poor people who have no house to live.

Make people unhealthy: if you don't have vegetable you just eat meat and rice your body will be unhealthy. the supermarket throw all the ugly vegetable away so people can not to eat healthy food.

Globe warming: the ugly vegetable will be throw away on the place that Cary rubbish and this type of vegetable will black and taste not good it will the earth smelly.

From Minh Tai

Dear super market,

I write this letter to you because you don't buy ugly fruit and vegetables so the farmer have to throw it away. We knows that you sell the top appetizing food and amazing product.

Firstly, you can give ugly fruit and vegetables to starving or poor people because only less than 1% percent of waste food is use for starving people.

Secondly, you make people unhealthy. The ugly fruit and vegetables are still healthy and tastes like normal. Moreover kids can like ugly fruit and vegetables.

Lastly, it will cause global warming because it needs machines.

Your sincely

Jonny

Dear Big Supermarket

We are writing this letter to you because we want you to sell ugly fruit and vegetable.

Firstly, there are poor people don't have food. Moreover, 20-40% of food grown is throw away. In the U.K there are 1.4 millions banana are throw every day.

Secondly, if you throw lot's of rubbish it will be very dirty. Further more, it will be bad for the enviroments and it will be really smelly.

Thirdly, the farmer won't have money to survive. Also, you have to respect the farmer effort, If you don't do this things they will don't do any thing for you again. If you don't sell ugly fruit and vegetable and then you run out of it, then you won't have money to survive or do anything.

In conclusion, we want you to sell ugly fruit and vegetable, we hope you agree because you are the coolest and you work really hard.

Kind Regards

Suri-4S BVIS

Dear supermarket managers,

I am writing this letter to you because you should sell those ugly vegetables for some reason.

Reason 1: When you throw away many ugly vegetables, there will be many pieces of trash. For example, many pieces of trash cause pollution and Global Warming and we can't survive anymore. 300,000,000 tonnes of fruit is thrown away each year.

Reason 2: The farmers have put a lot of effort for growing the vegetables. However, you didn't respect the farmers' hardworking, so please can you not throw it away. Instead of that, the farmer can rest and we will die.

Reason 3: The appearance of the ugly vegetables is not important but it is very attractive and appetizing. As a result, 1.2 tonnes of ugly fruits and vegetables were sold in the first two days in France.

In conclusion, I hope you agree and sell it after reading my letter.

Kind regards,

Bella from BVIS Ho Chi Minh City

Dear co.op market

We are writing to you a letter, to you not to throw food away. You are the smartest market.

Firstly, you throw food away, you just get lovely food, while you throw food away, why you don't think about the poor people that don't have food? The poor people don't have food and you keep throwing food, the poor people will be hungry.

Secondly, did you know around the world have a lot of rubbish? If you throw many and many rubbish just like fruit. This will make Global warming. There are lot of thing has oready been throw away. There are a lot of thing oready been throw away, but you still throw trash away.

Thirdly, you will lose many and many money if keeping throw food away. If throw food away that you plant, then you throw it away, you take many energy.

In conclusion, we would like you to stop throw food away. Try it before throw the food. Thank for read my letter.

Kind Regards,

Ann thu B'is.

Dear super market manager

I'm Mike I'm in year 4 at Bvis. I'm writing to stop  wasting ugly fruit and vegetables.

First reason, there are a lot of food been thrown away then the atmosphere gets thicker after that it gets hotter it will make global [warming](#). in additions the food will make chemicals in the air because the trash and Food will mixed together. more over there are 3,000,000 tones of food been thrown away every year.

Second reason, we should eat the food because we are wasting food while the food is edible. also it had a lot of nutritious and it healthy. there

are less than 1% of food   were given to the starving people.

Last reason, if you throw food then you are throwing money and money will be a huge waste if you throw it away. Also, if you are out of food then you don't have money.

I think you should think about my reason, you should keep the ugly fruit and vegetable because you are smart and intelligent people.

Kind regards

Mike

Dear mega maker,

I writing this letter to tell you that you need to sell the ugly fruit and vegetables, under this I have some reason.

Did you want the pennitess poeple don't have food to eat. First if you waste the food the poor poeple will died for no food to eat. Moreover the far mer will think we don't respected them. Also we don't respect the time they work and have food for us to eat. After that the food the farmer grow is yummist and delectable.

Senconly if the supermaket throw the wonky fruit and vegatable you will don't have anuf

Khanh Nhi

Dear King Super,

I'm writing to you to sell ugly fruit and vegetables if you sell ugly fruit and vegetables you'll get more money moreover you will get much more customers.

Firstly, you will show more respect to the farmers that makes the food. If you sell them the farmers will feel nice inside in addition they will feel better and the fruits and vegetables will taste better. Sell them if you want to be rich.

Secondly, you will get much more customers for example you will get much more money then you can afford anything you need. Your business will get much better then you imagine and you will be famous.

Finally, those fruit and vegetables are heathy and nutrition. Your customers will be surprise and glad and you'll will be the only supermarket that has theses fruit and vegetables you will be super duper rich.

After this letter I hope you change your mind now sit back and relax because I'm going to tell you some facts. Do you know 20%-40% food is throwaway each day! Less 1% of the food that's thownaway is given to those starving people. In the United Kingdom 1.4 million bananas are wasted in a day! You should sell them and 24% more customers and the bad thing is you will be sold out in 2 weeks. They sold 1.2 tones of ugly fruit and vegetables in a day.

Sincerely,

Sofia

Dear Big C supermarket manager,

Every one know that your supermarket is the top in Vietnam. As a customer, I want your supermarket to sell ugly, wonky fruit and vegetables .This is because 20% - 40% of food growing has been thrown away.

Firstly, ugly, wonky fruit and vegetables is spectacular and special. All of this ugly ,wonky fruits and vegetables are extraordinary. This kind of fruits and vegetables are the hardest to find in the whole world. They look unusual but creative as a art teacher.

Secondly, all the ugly, wonky fruit been thrown away. As the result, the unlucky people from all around the world didn't have food to eat but instead of respecting the food as well as the farmer hard work we are wasting the food. On the other hand, the pitiful people need to work very hard as being a maid to have food, so we have to respect the food as well as respecting the as well as respecting ugly ,wonky fruit and vegetables .

Thirdly, imagine your supermarket is out of food. Then, will the customer come to your supermarket again? Absolutely no. So at that time the only thing you can do is sell ugly ,wonky fruit and vegetables. The customer will rather eat ugly, wonky fruit and vegetables than have nothing to survived .Moreover, if we don't have food to eat we will DIED! ○○○○

So I want your supermarket to sell hideous fruit and vegetables. In addition, ugly ,wonky fruit and vegetables is the juiciest and healthiest fruit and vegetables in the world .From all this reason ,I hope you will agree with me .Thank for reading.

Your sincerely,

Suri 

Dear Big C supermarket,

I am writing to you this letter to persuade you to sell ugly fruit and vegetable. Everyone in Ho Chi Minh city know that you are the only supermarket that always sells great, gorgeous, glamorous fruit and vegetable, however sell wonky food is good too!

Firstly, ugly fruit and vegetable are very healthy and nutritious. Ugly fruit and vegetable outside it look as frightening as a monster and it also is the most repulsive food in the world, on the other hand, scientist say it have a lot of nutrition and it also very pleasant. Did you know as a result, 1.4 million of repulsive bananas are thrown away everyday int the U.K because of how they look? Do you want it continue to happen? You can help by selling wonky food.

Secondly, it can help you make more money. By selling ugly fruit an and vegetable you may have more money. Morover, your supermarket could have more customer because your supermarket have food that look strange and funny more wonderful it is also very pleasant. Selling repulsive food is good for your supermarket too!

Thirdly, if you throw away food, it waste! Did you know the amount of revolting food that you throw away can help a billion of hunger? As a result, less than 1% of waste food is given to the starving people and most of ugly fruit and vegetable was throwing to the bin. So do you want that to happen again? Will the ugly food will continue to throwing to the bin?

In conclusion, selling wonky fruit and vegetable is the best way to make your supermarket better and it can help people around a lot. If you sell ugly food, you will be the most gentle supermarket in the city. Furthermore, it will show that you respect the farmer by using the food that they grow.

Your sincerely,

Bao Tran 41

Dear Takayashima shopping center,

We want your shopping center to sell ugly fruit and vegetables in your shopping center. In this letter I will prove three reasons to sell ugly vegetables.

Firstly, ugly vegetables are still nutritious, also ugly vegetables are not taste disgusting or bad. Furthermore, if they look disgusting that means they are natural.

Secondly, we have to show respect to the farmers. For example, if we don't sell ugly vegetables, farmers may be mad and won't produce for us more food. Moreover, farmers might lose their jobs.

Thirdly, your shopping center might keep a lot of customers, and if you sell ugly vegetables, customer will buy more food. Did you know a shopping mall in France named Intermache is selling 1.2 tones of ugly vegetables in two days.

I hope you will sell revolting vegetable like the Intermache shopping mall. I know you will do that because you are the most remarkable, magnificent, gorgeous shopping mall ever.

Kind regards,

Hoang Long 4i.

Dear supermarket,

In our earth,  Many fruit and vegetables have been thrown away at the market just because all these fruit and vege are ugly and weird .you shouldn't throw these thing away

REASON NUMBER1

Not respecting the farmer

All farmer in our countries work very hard to grow all of these fruit ang vege,you are wasting there time to grow this food.They trade you the food but then throw it away .that is a waste of time for the farmer.

REASON NUMBER2

Waste of food       

If we keep throwing these food away we might not have any more food left. we are also not respecting the people. That travels the food to another

countries. Furthermore these could cause global warming  If you throw these food away it's like your throwing trash away."do you want this to

happen".if not then STOP  Did you know that 300,000,000 tones of

food is thrown away each year! .

REASON NUMBER3

They are very healthy

Even though these foods are hideous although they are still healthy. it give your body more energy and it is nutritious as well.

CONCLUSION

In conclusion you should stop  throwing all these foods away. even though they are ugly they are still healthy to eat. you should buy these

fabulous, glamorous looking  Foods and stop throwing these foods away.

Na

Dear Maga Market,

I think that Mega Market should sell the ugly fruits and vegetables so the user have more food to eat.

Firstly, if you have more vegetable to eat you will be burly and healthy. Furthermore, in school the P.E teacher will proud of you.

Secondly, when the worker added the ugly fruit there will be lot and lot of fruit so that more people. The supermarket will have more money.

Thirdly, each year 300,000,000 tones of ugly fruit and vegetables was thrown away and if the worker at Maga Market thrown the ugly fruit and vegetables away Mega Market will be one of a part that throw fruit away.

In conclusion, if you agree with my idea and stop throwing fruit away, Mega Market will be very famas. Thank you for reading my letter.

Kind Regards

Quocbinh

Dear Big C,

I sent this letter to ask you for sell monstrous food. We buy the ugly foods for eat not for compare with the other pretty food. Down here is som reason:

The first reason is to respect the farmer, if they see your supermarket sell the monstrous foods they will happier so that the farmer can make more food. Also they will have money and the can live with their family.

In addition, the ugly foods are very disgusting but they are healthy for all of your body begin from leg to head. this hedious food help your bone grow faster, also it look replutive however it is delicious and it also have vitamin in there. For example, orange has vitamin C, carrot has vitamin A and ...

Morover, you can earn more money. After that you will be rich people so you can travel everywhere you like! Or you can get that money to give for the poor people don't have anything for eat.

Do you want your costumer to healthy? If you want I suggest you to sell the ugly food, it will help you with your bussines Big C. If you sell some of this food you will have more costumer. So please sell the revolting nutrition (food).

Gia

Dear supermarket managers

Everyone knows you have the biggest market we ever know and we write this letter to you because you should gift this hideous fruit and vegetables because 300,000,000 tons of food is thrown away each

years and we want you gift  the fruit  to the poor people

Firstly, it will effect the global warming, when the people throwing fruit and vegetables away, the supermarket can use fire to destroy the fruit and vegetables then there make smoke anywhere in the earth, the water will be destroyed when people throw the plastic bag in to the rivers however, there noting to drink in the end, the air will become hotter and hotter then, the

people will go in the death. 

Secondly it Healthy and nutrition, the people will get more energy so the people can exercise and do more thing, the energy from the fruit and vegetables are big

in conclusion, the ugly fruit should be given to the poor people

Huy Duong

Dear Lotte Mart,

I would like you to bring in some ugly or wonky fruit and veg. Moreover this is a great way to respect the farmers.

Firstly, when you bought this fruit and veg in, it help our bones and muscles so we can grow to be more fits. Furthermore, in those fruit and veg they have a lots of nutritious. Also they are good for our body to help us grow.

Secondly, when we throw those ugly or wonky fruit and veg away it make our environment worse than usually. For example the rarest animals would die out like: the Siberian tiger, the Bangal tiger... As a result, this extraordinary creatures will become extinct. Moreover not just animals got extinct it will lead to a part where water and air got polluted.

Thirdly, your martket will lose a lot of customers if you don't bring more of this fruit and veg in one you would run out of food and no more food mean no more customers and no more customers mean no more money. Moreover 24% more customers.

In conclusion, less than one 1% of food waste is given to starving people. In addition, a supermarket in France call Intermache 1.2 tones of ugly fruit and vegetables there was sold in the 1st two days.

Kind regards

Sue

Dear, M&E market

I writing this this letter to tell you that you need to sell the ugly food and vega.

Did you want the penittis people don't have food to eat Fisrt i you urat the food, the poor people will died with no Food to eat. Moreover the farmer will think we don't respect the work and have food for us to eat. Aver that, the food the farmer grow it yummiest and delectable.

Secondly it the super maket throw the ugly food you will don't have anf for people buying. There for, i you sell the ugly food you will have more money ,.

Thirtly, i you sell the wonky food ae diffrent Shapes but it heathies the people will nuy Alot 1s day you .

In conclusion, I think you will sell the ugly fruit and veg to everyone . Very think to read My letter, I know you sell the ugly food.

Kind regard

Khanh nhi

Dear Big C,

I am writing this letter for you so you can change your mine, I think you should put some ugly fruit and vegetables in your supermarket because these ugly fruit and vegetables are mouth watering. Here are some reason that your supermarket should have some ugly fruit and vegetables.

Firstly, the environment right now is horrible because we are wasting so much ugly fruit and vegetables therefore it make the sun hotter moreover if we are throwing ugly fruit and vegetables we will just have a little bit of space because the world is plenty of ugly fruit and vegetables.

Secondly, we are so lucky that god gives us food however some people are wasting food that mean they are not respecting god therefore god will be woeful.

Thirdly, there is lot of poor people are starving in the world, did you know? All of the food that are waste are in the bin just 1%of ugly fruit are for the starving people. Did you know? In intermurchē supermarket they are starting to have some ugly fruit and vegetables moreover a lot of people like there ugly fruit and vegetables therefore they have more custermer and they make some juice and smoothies by ugly fruit and vegetables.

In conclusion, for the above reasons, i hope that you have change your mine to have these ugly fruit and vegetables in your supermarket. Thank you for reading.

Your sencirily

Kayla. 

Dear supermarket ,

In wanting every pepent in the world be helpol so I want the supermarket to geve the world food and vegetable, I very now that same Pepper don't have food to eat or don have money to buy them some food or something for them I want the supermarket to geve the only don have money

Firstly, if the food and vegetables are ugly we don't have to fron the food and vegetables away, we keep the food in the supermarket and we Kane buy the food.

Seriously the supermarket have the food and vegetables and we Kane buy food from family.

Inconsistency, we want the supermarket don't front food away.

Fom Tony

Dear Gigantic supermarket,

I am Oscar from British Vietnamese International school. I am telling you why you should sale the ugly fruit and vegetables.

Firstly, if you throw away ugly fruit it will make the earth hotter. And it's bad for the farmers hard work of planting. Also if you throw it away then it will make the ground bad.

Secondly, it's bad for the energy of the farmers of making the fruit and vegetables. It's bad for the farmers because they need to buy the seeds and plant them. After they need too grow them.

Finally, you may think it looks disgusting that it's the worst but as a fact it is delicious and healthy. And more delicious than you think.

Conclusion, thank you for reading my my letter and I hope you consider about it thank you, thank you.

Your sincerely

From Oscar

Dear supermarket ,

We all know that you were selling healthy fruit and vegetables for us. But you shouldn't throw away ugly fruit and vegetables, here are some reasons why.

First, if you throw away ugly vegetables or fruit, it will cause global warming for the earth and it will be terrible. It could be raining cats and dogs and we can't go swimming or anything outside, we could be sick.

Next, it could cause pollution for the world, the world would be very dirty and if we breathe in the oxygen that has a lot of pollution, we could be sick badly and go to our funeral and that would be very sad.

Finally, we are wasting the farmer's effort and wasting all of our time, we are wasting all the healthy foods for us to eat. When you look outside of the foods, it is very ugly but on the inside, it is very very healthy for us.

In conclusion, I suggest you should not throw away ugly fruit and vegetables away like that because it is very wasteful.

Rosy 45

Dear Big C

We are writing a special subject to us. We would like you to don't waste ugly fruit and veg.

Firstly, why don't you give those ugly fruit to the starving people they will love it. Did you know that there are less than 1% of wasted food is given to the starving people.

Secondly, if you throw the ugly fruit you will not respect the farmer. In addition there are 1.4 billion tons of food are thrown away every day.

Thirdly, if we throw too much food our planet will be full of trash. Moreover 300,000,000 tons of food have been thrown away every day.

I hope you don't throw ugly fruit and vegetables!

Dat

Dear Sir/Madam,

I am Tram Anh and I'm a student at British Vietnamese International School. I think you should stop throwing ugly fruits and vegetables. You are the smartest and most intelligent.

Firstly, you are making the environment polluted by throwing ugly fruits and vegetables and the fruits and veg be rotten then the smells will fly everywhere, it mix with the oxygen it smell very terrible. Furthermore, we mit be sick very bad and died.

Secondly, you will lose customer and your boss will be very grumpy and you wont be very happy if you have no money, beside your supermarket will run out of normal fruits and vegetables very quick.

Thirdly, you are rude to the farmer by throwing ugly fruits and vegetables, I suggest if you stop throwing ugly fruits and veg you will have more for customers.

In conclusion I think you should stop throwing ugly fruits and veg. You are the most handsome and prettiest.

Your sincerely,

Tram Anh

Dear giant supermarket

My name is Emily and I learning in BVIS. I writing this letter for you because I want you to buy this ugly food and vegetables.

Firstly, if the farmer throws a lot of food away there will be no more food to eat then we will be very hungry because the farmer has throw the food and vegetables away already.

Secondly, now you throw to much food and vegetables about 300,000,000 tones of food have been throw away in one year. And if you throw so many food to the bin it will have a stinky smell because the fruit and vegetables are rotten. This smell will make our world will be global warming.

Thirdly, everyone don't now that the food is ugly outside however the food inside is very healthy, yummy and wonderful. So I think you don't need to throw food and vegetables when you don't know the fruit is yummy or not then you can throw it away.

In conclusion, we know your supermarket is the most beautiful, delicious and healthy fruit and vegetables in the whole world so I hope you will consider this. And thanks you to read this letter.

Yours sincerely,

Emily

Dear big C

I know you want to throw ugly fruit away but I want your supper markets to sell ugly fruit and vegetables. You are the most respect people so I know you will listen to me.

Firstly if you say to the person to buy that that they can use it for decorating in Halloween then maybe they will buy it because it is cheaper and easier to buy.

Secondly, if you throw the ugly fruits and vegetables away that mean you are not respect the farmers hard work and if the famer know it they will be very sad and don't grow fruits and vegetables anymore.

Thirdly maybe your supper market will run out of fruits and vegetables so your supper market can't sell fruits and vegetables and don't make money.

In conclusion, I hope you will sell the ugly fruits and vegetables.

By Ryan

Dear mr Big C

We are writing this letter for your supper marketers to stop your supper market throws ugly fruits and your ugly vegetables away because 1.4 million bananas are being thrown in the U.K. and we have to stop the throwing away the ugly fruit away. here are some of the reasons why you don't throw away your food

Firstly, you keep throwing your food all of the food makes global warming because three hundred millions tons of food been thrown away each year food is the same as three millions elephants are a lot of food we have thrown

Secondly, just thinks you're a good farmer you didn't makes any thing wrong with the supermarket and the food you give to them being thrown so the hard work has been giving away like a farmer they're a person not a animal you have to respect the farmers.

Finally many people have died because they don't have food so if you don't selling it then please give it to the person that hungry or the person that homeless

So finally I want you don't throw the ugly fruit away

Your sincerity

Nam

Dear Family Mart,

I don't know how to spell your name but I write this letter to tell you that you should sell ugly fruit. I hope that you had change your mind after reading this letter. Moreover if you wan't to add more ideas for the ugly fruit call 093333,so sit on your chair,had a coffee and enjoy the letter.

Firstly, it show politeness to the farmers. For example, farmers work day to night to make ugly fruit grow but no one had even sell it! This show that we just disrespect to work self .Farmers can be really poor if they can't sell any thing. Imagine it ! how poor can farmers be?. Farmers make food for us so respect the farmers. Oh !,not only farmers but we need to showing politesse to the ugly fruit. Moreover it can effect the earth a lot. We depend to live on earth what can we do?.

Secondly, they are good for you and nutrients. The ugly fruit are hilarious but on the other hand it healthy for us. Costumer would love healthy fruit right?. Ugly fruit make us even never sick. When we eat ugly fruit and vegetables it make our body stronger. It even had an incredible taste. Once I was 7 years old mama told me eat some ugly fruit and vegetables so you be healthy.

Before I step on to my final reason I hope that you will sell some ugly fruit and vegetables. Ok, so now let's get started into the final reson. Thirdly, we had different feelings ,some are sad, happy angry....The ugly fruit had an incredible shape that can make us laugh .As you know ,that the ugly fruit and vegetables are cut but they not always cute, they are nourishing. People think that ugly fruit and vegetables are not fancy.Well ,that true but when people eat it there feelings changed a lot .

Finally, I want to thank you for reading this letter I hope that you should sell ugly fruit and vegetables. Once again I hope that you show politeness to farmers.

By Elise.

Dear supermarket

I write this to let you know should sell ugly fruit and vegetables. When I write this letter I hope the supermarket manager will change your mind.

Firstly to make supermarket rich. If supermarket not rich then supermarket will not have money to buy more fruits and vegetables. Moreover if supermarket rich they can updated the supermarket the supermarkets. Furthermore if supermarket sell ugly fruit and vegetables maybe they will get more money. Do you want supermarket run out of fruit?

Secondly to show the respect to the farmers, if we buy fruit and vegetables in the supermarket that means you have show the respect to the farmers. Inadition the farmer is working very hard to make the vegetables grow up to give us eat. If we don't buy it, the farmer will be very miserable. Moreover we have throw a lot of fruit and vegetable away therefore have a lot of people Naver no fruit Hacene no fruit to eat. Do You wanted every people is strave?

Thirdly fruit and vegetable helps us stronger. Moreover fruit and vegetable have a lot of nutrients. Furthermore fruit and vegetable helps us away from the sicknes. Also 14 million Baranas are be throw away from U.K and 300,000,000 tones of fruit is be throw away from every year. Do you wanted every people in the world is be sick?

Inconclusion the supermarket should sell ugly fruit and vegetable so they can eat a lot heathy things.

Your sincerely

Ngoc Quan

Dear Giant Supermarket

I am scarlet from British Vietnamese International school

I will telling you about why you need to sell the ugly fruit and vegetables

Firstly, The ugly fruits and vegetables are very ugly, But we eat the ugly fruit and vegetables we will be more healthy and stronger. The ugly fruit and vegetables are very healthy and delicious so every adults are buying a fruits and vegetables but supermarket don't sell the ugly fruit and vegetables they can't eat any fruits and vegetables.

Secondly, The supermarket need to sell the ugly fruits and vegetables because The farmer is working very hard. But supermarket didn't sell the ugly fruits and vegetables we waste the farmer's hard working.

Finally, The ugly fruits and vegetables are very healthy. But supermarket didn't sell the ugly fruits and vegetables people can't be healthy and stronger. So supermarket need to sell the ugly fruits and vegetables. So people can be healthy and stronger.

Thank you for reading my letter

Dear supermarket

I am write this letter because you should sell out the ugly fruit and vegetables.

Firstly, about waste, the farmer throws all of the vegetables but it still haves vitamin inside and you should know about the farmer they will lost they energy and money.

Secondly, about the world ,you should know the normal people like us don't have food but the poor people don't have food. If you let the farmers throw. Will the earth Global warming.

Thirdly, you need to think about your supermarket made more money , as good but 30% cheaper .

In conclusion, I hope that you will never throw the ugly vegetables .thank you for reading.

Your sincere ,

Anh
