### STRONGLY ENCOURAGED:

*Parents should take time to read...*

- The Well-Trained Mind by Susan Wise-Bauer
  - **New Parents** – In order to gain a better understanding of the classical method, please read at least to the point that matches your child. Also, read the sections: “The Kitchen-Table School: Why Home Educated?” and “The Character Issue: Parents and Teachers.” Please keep in mind that TCCS is a “classical-like” educational model (refer to TCCS’s educational philosophy in the handbook).
- 8 Great Smarts By Kathy Koch, [www.celebratekids.com](http://www.celebratekids.com)
- Your Child’s Strengths by Jennifer Fox
- High School: We highly recommend getting *Celebrate High School: Finish with Excellence* by Cheryl A. Bastian. TCCS is using this as a high school resource. [www.cherylbastian.com](http://www.cherylbastian.com)

### TO REMEMBER:

TCCS recommends that students begin learning to type in 4<sup>th</sup> grade. You can use any typing program and have them practice 15–20 minutes a day until they are proficient. Also, this is a great summer activity! Some of the programs that other families have found helpful include...

- Mavis Beacon Teaches Typing by Broderbund - Wal-Mart
- Typing Instructor for Kids Platinum (age 6-12) – [www.timberdoodle.com](http://www.timberdoodle.com)
  - Great introduction without overwhelming the user. A fun approach with no computer experience needed.
- Typing Instructor Platinum (ages 8 and up) – [www.timberdoodle.com](http://www.timberdoodle.com)
  - Great introduction to typing for fourth graders and up. It’s an interactive approach, with a broad variety.

Song School Latin by Amy Rehn – [www.classicalAcademicPress.com](http://www.classicalAcademicPress.com) or [www.timberdoodle.com](http://www.timberdoodle.com)
