Are you an NP or PA? ASAM also provides the additional 16 hours required for NPs and PAs to qualify for a waiver free of charge.

*Once CMU receives the registration, participants will be contacted by Alyson McClintock (989) 746-7506, [hill1am@cmich.edu](mailto:hill1am@cmich.edu), Coordinator of Interprofessional Training Initiatives at CMU with additional information including the WebEx registration link.*

The ASAM Treatment of Opioid Use Disorder Course covers all evidence-based practices and medications for treating patients with opioid use disorder.

**The ASAM Treatment of Opioid Use Disorder Course is designed for:**

- Physicians, Nurse Practitioners, Physician Assistants, Certified Nurse Midwives, Certified Registered Nurse Anesthetists, and Clinical Nurse Specialists who wish to obtain a waiver to prescribe buprenorphine in an office-based setting for opioid use disorder.
- Clinicians and healthcare team members such as RNs, MA/LPNs, social workers, pharmacists, counselors, clinic administrators/office managers, and others working with providers who prescribe buprenorphine in an office-based setting to treat opioid use disorder.

Course Format: 8 hours live (*VIRTUAL LEARNING*)

This training satisfies eight hours of education requirements for providers to qualify for a DEA DATA2000 waiver. Upon completion of this course, physicians qualify for the waiver to prescribe buprenorphine in an office-based setting. NPs and PAs can qualify after completing an additional 16 hours provided by ASAM, the American Association of Nurse Practitioners, and the American Academy of PAs.

### Lead Instructor

John Hopper, MD\*

\*an original ASAM instructor and board-certified Addiction Medicine physician

### Co-Instructor

Juliette Perzhinsky, MD, MSc
