

December 12th, 2018

Hi Glenna,

We recently met at your book signing in MCX Henderson Hall. It was a pleasure to be able to speak with you for a fellow moment. I was very appreciative of the point you made to communicate directly to our two children who are 10 and 9 years old. It displays your understanding of the importance of stimulating children's minds. During our conversation you shared your journey and opened up about deeply personal issues like loss and grief. I just wanted to thank you for making an otherwise unremarkable day a memorable one...

Warm regards,

Travis Williams
