Bush Replacement 2021: Dogwood bushes located by garages and front landscaping only

- The Board has reviewed the situation with the dogwood bushes. These bushes are located in the front landscaping, near garages or between garages. There are vertical branches that are gray in color - Many appear to be dead, dying or are past their normal life span.
- The arborist has been consulted and he agrees that it is time to replace these bushes.
- The Board will remove the bushes that are not longer viable in 2021
When it is time to replace these bushes, the Board will pick the best replacement in consultation with the arborist. This project will be done all at one time for the best efficiency and pricing.
 - These bushes will not be replaced in 2020

PLEASE NOTE:

There will be a pause in landscaping and requests to Mastercut as of 7/27/20. There has been an extraordinary amount of requests and they need time to finish the work.
