

Hebrews 6:1 “Therefore leaving the principles of the doctrine of Christ, let us go on unto perfection; not laying again the foundation of repentance from dead works, and of faith toward God”

People may become emotional but not truly be repentant. Repentance is not an emotion but a decision.

By definition repentance is an inner change of mind resulting in; a firm decision to change ones actions; causing one to change directions or to change ones actions. In the Old Testament the term “repent” means; “to turn” or “to return” So in the New Testament we get the inward nature of true repentance and in the Old Testament we get the outer action of the inner change.

In this 4 PART series Dr. Hohman teaches us the importance of repentance causing us to leave what is not producing a Godly and abundant life and turning towards God where we receive everything that pertains to life and Godliness. In other words, “Repentance is a decision to want freedom more than bondage.” Oh, The Joys Of True Repentance.

(If we put off repentance another day, *we have a day more to repent of, and a day less to repent in.*)

True repentance must always proceed true faith – Without repentance faith alone is an empty profession!!! This is one reason why the modern Christian experience is so unstable and insecure. They are professing faith but have never practiced true repentance. As a result, the faith that they profess cannot produce the favor of God nor the respect of the world. People are seeking to build without the first of the great Christian doctrines.
