

**Steel Pipe Bollards**

Steel Pipe Bollards are designed for facility protection by guarding against vehicle impact.

**Post Guard Bollard Covers**

A Post Guard bollard cover is a protective sleeve that easily fits over posts. It saves time and costs by eliminating constant scraping and repainting.

**Decorative Bollard Covers**

Lightweight, Decorative Bollards add a touch of style to architecture or landscape.

**Dome Top Bollard Covers**

Another choice for a bollard cover. A new look with a dome top and a smooth finish.

**Height Guard Overhead Clearance Bars**

Clearance Bars help you avoid major repairs and insurance claims by preventing vehicles from accidentally hitting your building or overhang.

**Speed Bumps**

Rubber and Plastic Speed Bumps designed to reduce speeds and protect vehicles from potential damage when driving and parking.

**Mini Speed Humps**

Mini Speed Humps protect pedestrians by gently slowing down vehicle speed.

**Gate Arm Guards**

Gate Arm Guards protect customer vehicles and pedestrians from unintentional contact with a moving gate arm.

**Parking Blocks**

Rubber and Plastic Parking Blocks provide a highly visible, maintenance-free alternative to cement parking blocks

**Scrape Guard Flexible Vinyl Wrap**

Visible and Flexible Protection for Painted Car Surfaces

**Gorilla Post Removable Magnetic Delineators**

Designed to act like a permanent delineator, the Gorilla Post is tough enough to take a 15mph vehicle impact and will spring back to original upright position.

**Poletector 360° & 540XL Light Pole Base Covers**

Enhance the visual appearance of unattractive light pole bases. The patented ring assembly allows the Poletector to fit any height light pole base.

**Sentry Protection Products**

The most complete impact protection available to fully protect your parking structures and garages - your facility, your people and your equipment.
