CHILD READING ASSESSMENT

Please check all that apply:

- Spends a long time doing homework
- Reduced attention span
- Covers one eye at times
- Lays head on desk when doing near work
- Skips or re-reads words and lines
- Reverses words or letters (was for saw, b for d) beyond the second grade
- Does better at Math than English, History or Social Studies
- Must re-read material several times to grasp the meaning
- Gets tired quickly when doing reading or homework
- Short attention span
- Daydreams more than you think is typical
- Learns best by listening rather than reading
- Avoids work that includes reading or near seeing
- Is more than 1 year behind in reading skills

Overall, how well is your child doing in school?

- Great
- Good
- Fair
- Poor
