

Quilting Bees - Meeting July 14th.

After the Business Meeting and Lunch:

We will work on some smaller projects for the Bees Store:

All of us have some fabric pieces left over from quilts that we have made and probably won't use again. Let's bring them to the meeting and we will iron/cut/ fold into Fat Quarters to sell in the Bees store. If you have any smaller scraps, bring those along and we can make Scrap Bags to sell in the Bees store. If you have yardage to donate, we can measure, mark and fold for the store.

Start sorting and sprucing up home quilting space, search for those pieces you would like to move along to someone else and help us provide for the Bees store.

If you can bring a mid-size cutting mat, rotary cutter, and 24 inch ruler, portable ironing mats and irons to make the fat quarters & scrap bags. No sewing machines are needed.

Ziplock bags will be provided and tags for any yardage. Natalie has offered to take and store at her home.
