You are sure to enjoy this relaxed and informative Nocturnal Workshop. Have fun exploring the many ways that lights in the night add glows and glistening highlights to street scenes after the sun sets. You will also learn how to better take and print your reference shots either of the night or day to help you create wonderful paintings going forward. All levels are welcome and Chris will be providing 11" x 14" panels that she will prepare in advance. Demo and critique included.
