"Publix is thrilled to partner with BiG Children's Foundation in their efforts to make a difference in the lives of foster children and at-risk youth in our community. We believe in investing in our youth by training them up, and giving them a fair chance to succeed, no matter the odds. BCF is providing opportunity and hope for at-risk youth, and transforming them into leaders, so supporting them is a natural fit."

"Individuals who don't receive the support and services they need, live without the realization that they can make it. They're susceptible to homelessness, human trafficking and often wind up incarcerated. It's a different story for those who do get support. I know first-hand of a young lady who, because of an organization committed to transforming the lives of kids in, and aging out of, foster care, is now flourishing: She's in school, she has a job, and she's learning to leave the past in the past and look forward to the future. Organizations like BiG Children's Foundation make a world of a difference to kids like these, and by doing so, make an impact on the community."
