

ARTICLE IV

General Common Elements

1. Definition. General Common Elements shall include all portions of the project (land and improvements thereon) not included within any unit except such portions of the project which are defined as limited common elements in the following Article. The General Common Elements also include, but are not limited to, the following:

(a) The land on which the building is erected.

(b) The foundations, basements, floors, exterior walls of each unit and of the buildings, ceilings, and roofs, communication ways, and in general all devices or installations existing for common use, except as limited in the next Article.

(c) Installations for public utilities, including electric, gas and cold water for common use.

(d) Recreational greens, plantings, and walks.
