BUMP HALT™ KITS

KEY BUMPING RESISTANT

- Bump Halt™ Bump Resistant Cylinder Technology resists the transfer of force from the bump key to the pins
- Innovative patent pending design
- Kits enable the conversion of a new or existing Ilco® or LSDA® cylinders to be “bump resistant”
- Cost efficient and effective
- No special tools and/or machining is required
- Conversion kits contain 10 pins, 10 springs and instructions
- One spring and one pin will provide resistance to “bumping”; adding an additional pin and spring will increase the security of the cylinder
