

CAPABILITY STATEMENT

CORE COMPETENCIES

Shoshone Trucking LLC was originally founded in 2009, with its roots beginning in Northern and Southern Indiana. Due to the company's certification status promoting the WBE and DBE programs, the company has had the opportunity to expand its fleet from only a few trucks to an impressive fleet of 76. Shoshone is proud to be one of the largest and most reputable union dump truck companies in the State of Indiana. Shoshone strives to maintain its excellent service and relationships by providing dependable dispatch solutions, front and back-office accounting procedures, daily contractor communications, and dependable and safe drivers. Our fleet, consisting of mainly 2022 and newer units, is all equipped with dash cameras for added safety and gateways for GPS and diagnostic monitoring. Another benefit of Shoshone is its state-of-the-art shop, with mechanics providing quality service while maintaining a high-end fleet.

Heavy Highway Projects: Hauling Asphalt, Millings, Stone, Sand, and Dirt
