

Company Name: A & C Trades & Services

Speaker: Nathan Anderson

Presentation Title: Geothermal

Nathan Anderson grew up in Strawberry Plains, TN. Upon graduating from high school, he attended Maryville College and graduated with degrees in both Environmental Studies and Political Science. While at Maryville College he was a Bonner Scholar and was elected the president of the Student Body.

After graduating from Maryville College he attended New England School of Law in Boston and graduated with honors, attaining a Juris Doctorate with a focus on a Master's in Business Administration.

Nathan holds numerous certifications including NATE (North American Technician Excellence) certification for geothermal HVAC; as well as the highest accreditation in the industry which is the IGSHPA (International Ground Source Heat Pump Association) installer certification. Nathan was the 2nd design installer in Tennessee east of Nashville to achieve this honor and the 5th in the state.

Nathan regularly speaks about energy issues relating to geothermal HVAC at seminars and continuing education opportunities. He actively advocates for energy efficiency code and statutory issues on the local, state and federal levels working with both lobbyists and directly with elected and appointed officials.
