1360

C125

### KEY FEATURES:

- Floats along to follow ground contour.
- Threaded depth adjustment limits down travel while allowing the semi-mounted frame to **follow the contour of the land**.
- Moveable axles with **several** mounting positions (intersect/offset/retracted)
- **FORGIVENESS** in less than desirable planting situations!
- 13" Diameter Wheels.

## ORIGINAL ROW CLEANERS

### B1532 (15") ROW CLEANERS WITH MOUNT

#### \$410.00 "SALE"

- Rigidly mounted directly to planter unit face plate
- Easily adjustable to 1/4" increments with lift assist handle and spring.
- Movable axles with several mounting positions (intersect, offset, retracted)
- Toothed steel wheels with diamond shaped points allow plenty of upward adjustment in loosely worked soils.

### B1334 (13") ROW CLEANERS-WITH MOUNT

To Fit C-IH 800, 900, 1200 Planters

#### \$ 390.00 "SALE"

# Precision Planting®

# CleanSweep®

**Clean rows....effortlessly.**

Uniform germination and higher plant counts depend on clean rows.

Clean rows are the work of row cleaners.

But, until now, row cleaners have been hard work themselves, because they need to be set precisely and changed frequently.

CleanSweep® does all that hard work for you. It puts row cleaners right where they need to be – where they move the residue but not the soil – and continuously adjusts them as field conditions change. All you need to do is move the cab-mounted controller. You can even raise the row cleaners up and out of the way when you're not using them.

The CleanSweep controller is connected to dual air cylinders on each row. The air pressure comes from a robust compressor or tank, or you can use 20/20 AirForce® as an air source.

**\*Available To Fit Martin And Most Yetter Row Cleaners!**
