## Bus Driver & Passenger Protection Shields

- **FULL COVERAGE** protection and **FULL VISIBILITY** for bus driver at main passenger entry/exit point (not air tight).
- Several varieties of driver barriers available - contact us for your specific bus.
- Passenger protection available with shields behind each row of seats.
- Driver barrier swings on a hinge to allow driver to enter/exit, as needed, for emergencies.
- Shield can be sprayed with disinfectant and wiped dry with microfiber cloth (*included w/ purchase - additional cleaner available*).
- Instructions for installation included.
- Shield can be removed later with minimal “scarring” to the vehicle.
- DOT compliant materials.

## Nanocide Grab Rails

- [Nanocide](#) impregnated, germ-killing entrance grab handle covers.
- **Tested effective on over 630 germs and bacteria.**
- Available for entrance/exit grab handles, which is a high contact point for passengers.

*\*images enhanced for better visibility of shields*

Yes! I'd like to protect my drivers and passengers!
