

County Farm Park

Building on the agricultural history of the County Farm Park, our staff created a non-traditional playground that helps to unify the dramatic landscape of the park.

The universal design of the playground and adjacent community garden help to create a welcoming space that serves as a regional draw for the County. Playful farm animal sculptures, a windmill, and custom pergola all reinforce the farm theme, while providing a unique place for children of all abilities to play and garden in a safe community environment.

Location:
Ann Arbor, MI

Client:
Washtenaw County
Parks And Recreation

Scope:
Playground Design
Plans And Specifications

Completion Date:
2006
