Hi Bonnie,
This is AWESOME!!!! You are the best! It's PERFECT!!!
... at the Board Meeting everyone appreciated it and commented on [how] great you all have been to work with and your participation has also helped our show become more successful. No one argued those points either!!!

Advertisements prepared FREE as a courtesy to our customers become the property of *WorldWide Drilling Resource*® and **may not be reproduced** or used in any other magazine, website, or venue of a competitive nature with *WorldWide Drilling Resource*® without explicit written permission.
~ Contact the management for permission to use the advertisement elsewhere.

Reverse type is acceptable, but should not be less than ten point and then only be reversed in areas having at least 70% black, magenta, or cyan value.
Grayscale or CMYK color only. RGB color formats do not print correctly and may modify your intended image.
Black type MUST BE 100% black for clarity in printing; deviations will put hazes around the words and make them illegible. *WWD*® not responsible if not sent properly. Material may be e-mailed directly to us or sent via DropBox.

NOTE: Photographs, logos, or any other illustrations to be used in preparation of ads by our production department must be clear, high resolution with a **minimum** of 300 dpi, saved as JPEG, TIFF, EPS, PSD, or PDF files. **PC FORMAT ONLY.**
Any deviations from these specifications must be agreed upon by the management of *WorldWide Drilling Resource*®.

Deadline Dates: Space reservation by the 25th day of the month prior to the preceding month of the issue (for example, November 25th for the January issue). When *WorldWide Drilling Resource*® provides ad preparation **FREE** it is due no later than the 27th of the month prior to the preceding month of the issue to allow sufficient time to prepare the ad to your specifications and receive your approval. Advertising material prepared by ad agencies must be received by the first of the month prior to the issue month. (If these dates fall on a weekend or during holiday schedule the dates will revert to an earlier time).
All Rates subject to printing and postal rate increases.

Featured Product of the Month

Fight Clay Formations with CLAYMASTER®

Wyo-Ber's CLAYMASTER® is a concentrated, nonhazardous, proprietary clay inhibitor which can be used with either polymer or bentonite systems. It keeps clay cuttings from sticking to each other and drilling tools while reducing or even eliminating swelling of the borehole. CLAYMASTER® significantly reduces rotation and pullback pressures, easing wear and tear on your tooling.

When used with the pilot hole... and pullback, CLAYMASTER® greatly reduces clay's tendency to absorb water.
