

The world leader in water and rope rescue education since 1979

# “Swiftwater and Flood Rescue Technician”

August 22,23,24, 2025

Wisp Whitewater Center

McHenry , MD

The Swiftwater-Flood rescue course provides rescuers with the fundamentals of survival in moving water and is recommended for anyone who may be called upon to perform in-water rescues. Students gain knowledge in hydrology and river classifications, size-up, site control, and scene management. Practical skills include self-rescue, swiftwater swimming, and the fundamentals of shore, boat, and in-water rescues. Additionally, students are introduced to the basics of boat handling and the fundamentals of rope rescue, including mechanical advantage and anchor systems. This program exceeds NFPA and FEMA Standards.
