

## Logistics Science Engineering & Technology

Logistics Science Engineering & Technology (LSET) is a premier SDVOSB, SDB and minority owned company providing business solutions and technical support too Federal, State, and Commercial agencies. We stand ready to serve our clients by first understanding mission requirements and then providing a team of skilled professionals to deliver superior results.

LSET is committed to providing innovation, common sense solutions, and best business practices as we provide first class contract support to our men and women in uniform. We believe that we can best help you achieve mission objectives if we continue to improve our business process, meet or exceed customer expectations, and retain the most highly qualified and professional employees. LSET can ensure that all projects will be delivered to completion, on time, and customer satisfaction. At a glance, our core service areas include:

- ✓ **Logistics, Supply Automated, Supply Chain Management**
- ✓ **Facilities Operations & Maintenance (O&M)**
- ✓ **Base Operations Support Services**
- ✓ **Program Management**
- ✓ **Training Support**
- ✓ **Administration, Human Resource & Management Services**
