

TOWN OF MARBLE

Board of Trustees Election Results

Amber MacMahill being sworn in

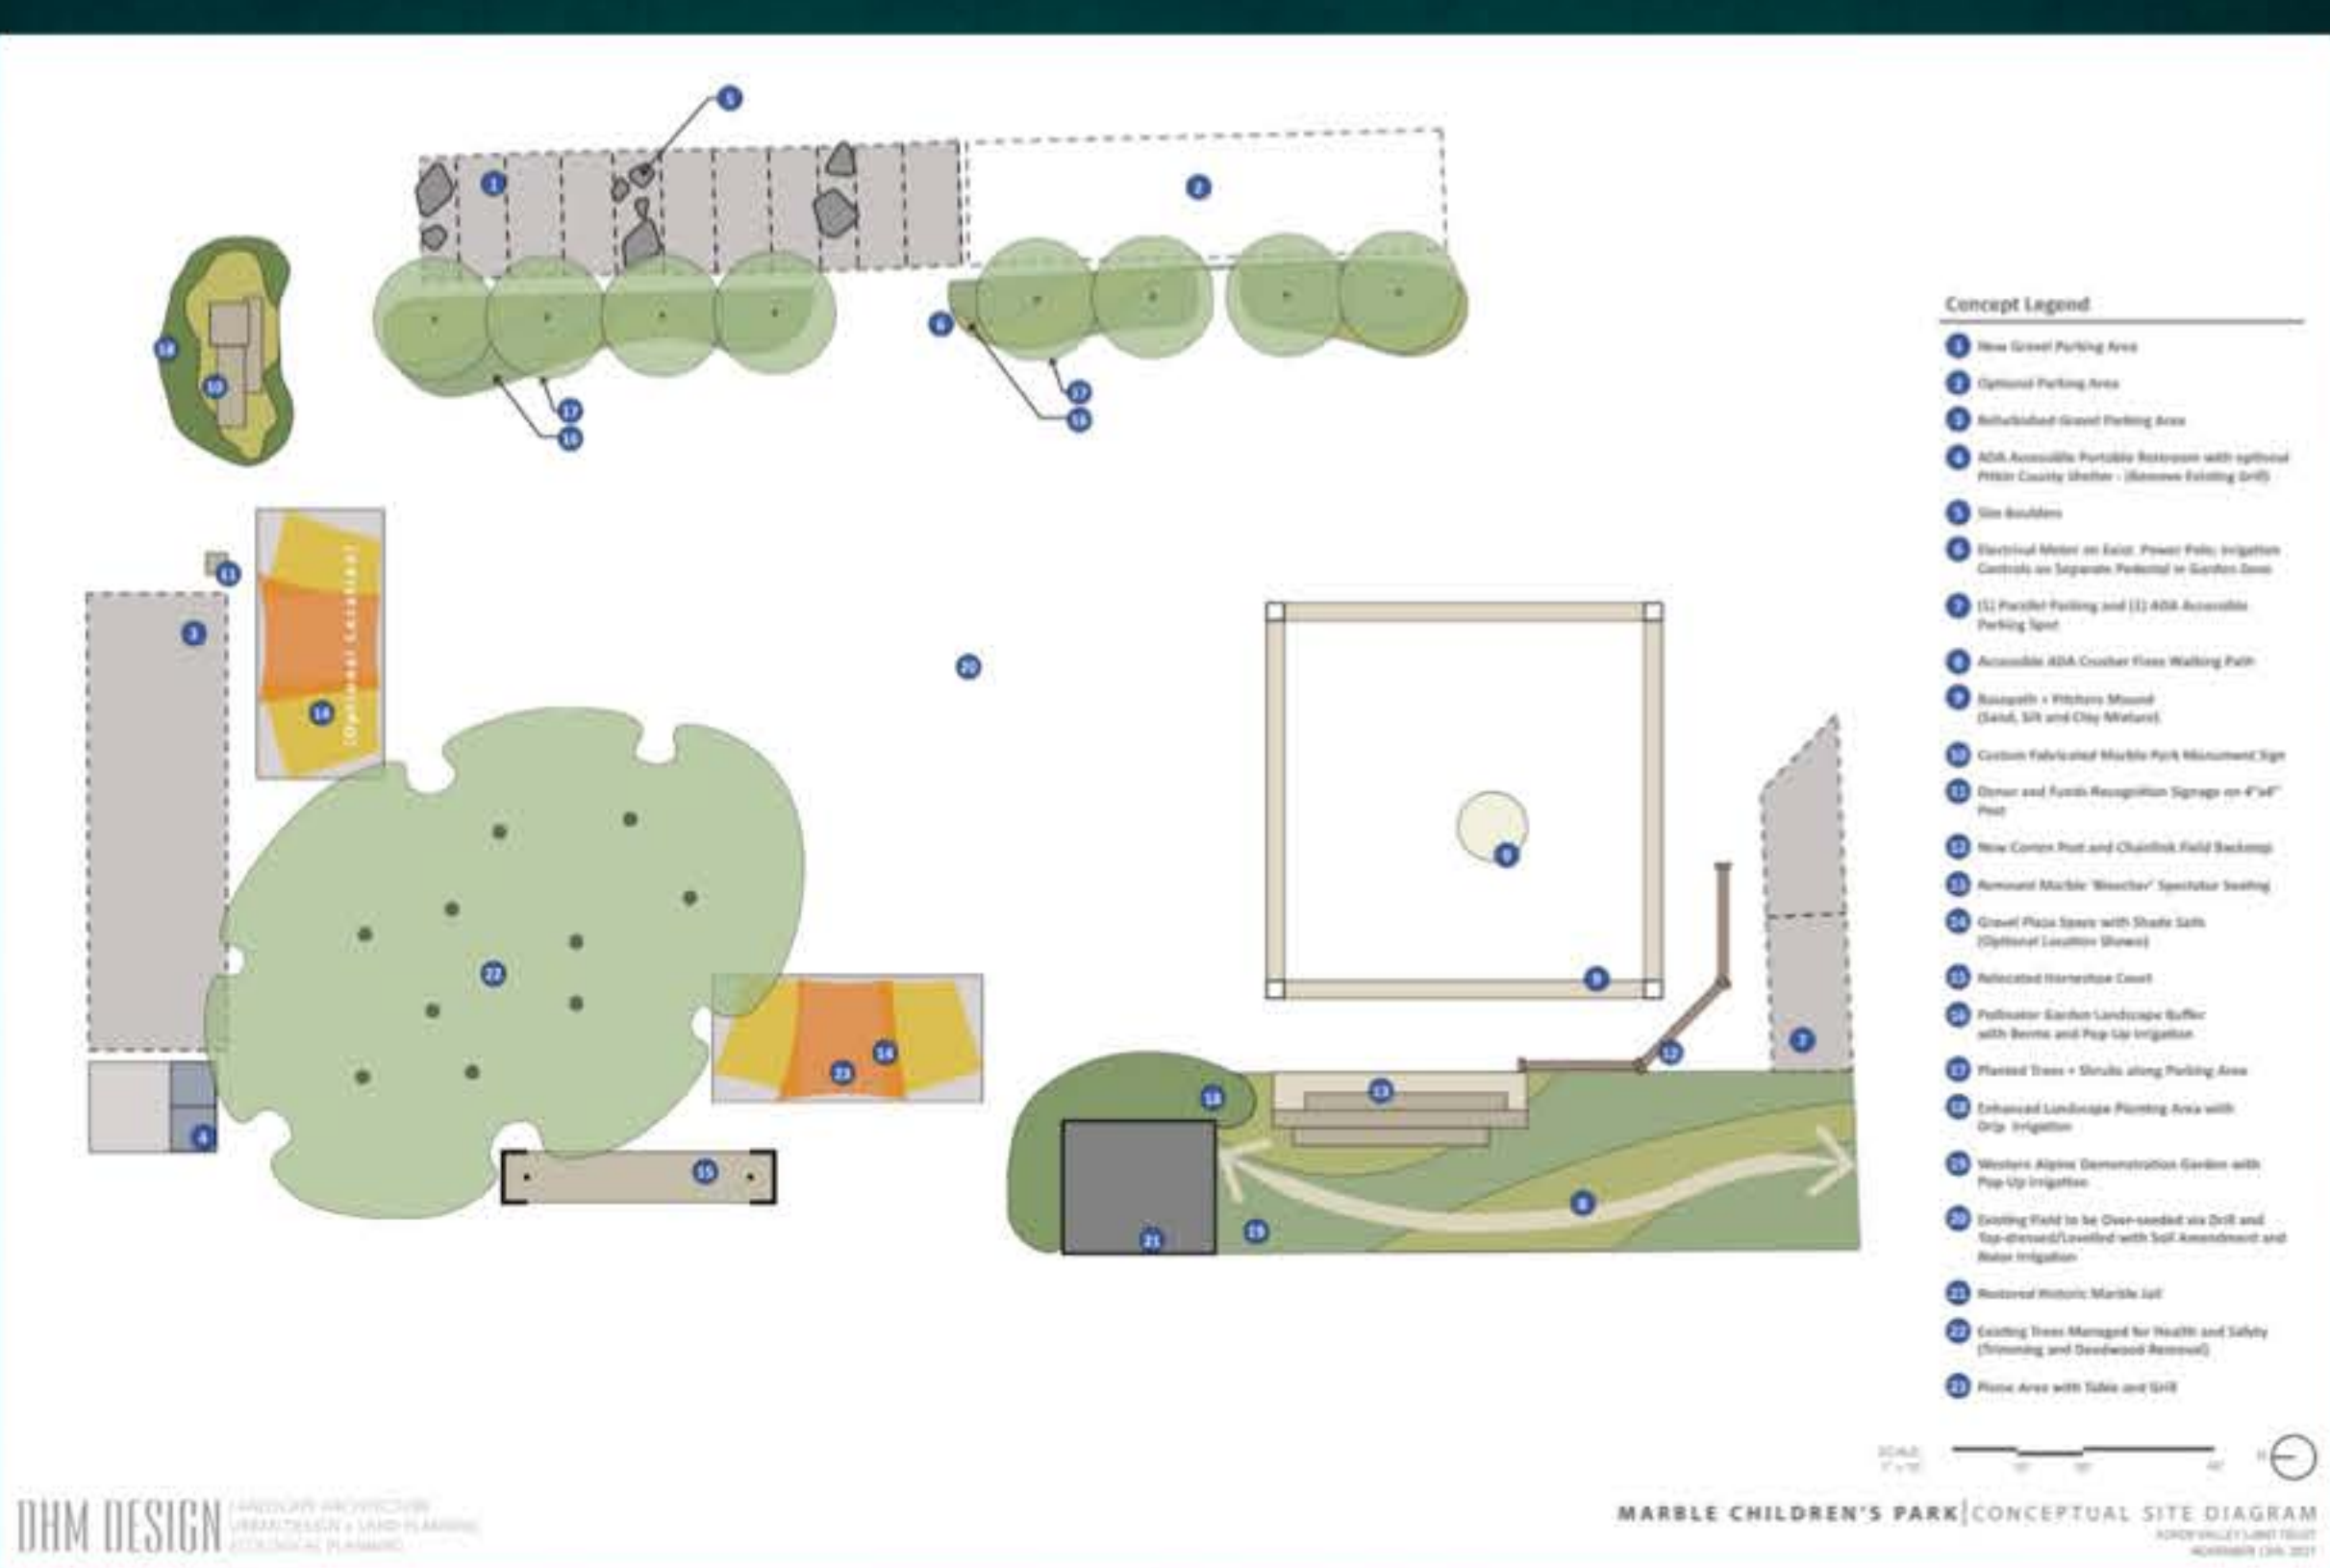

Congratulations to Amber MacMahill and Tony Petrocco as the new additions to the Marble Board of Trustees. Thank you to Josh Vogt for your service, hard work, and value.

A deep thank you to Tim Hunter for his many years of dedication to the Town of Marble and its people. Thank you for your time, wisdom, and deep care. Tim was gifted an engraved award for his service. The Marble Board of Trustees now includes:

- Mayor - Ryan Vinciguerra
- Larry Good
- Emma Bielski
- Tony Petrocco
- Amber MacMahill

Childrens Park

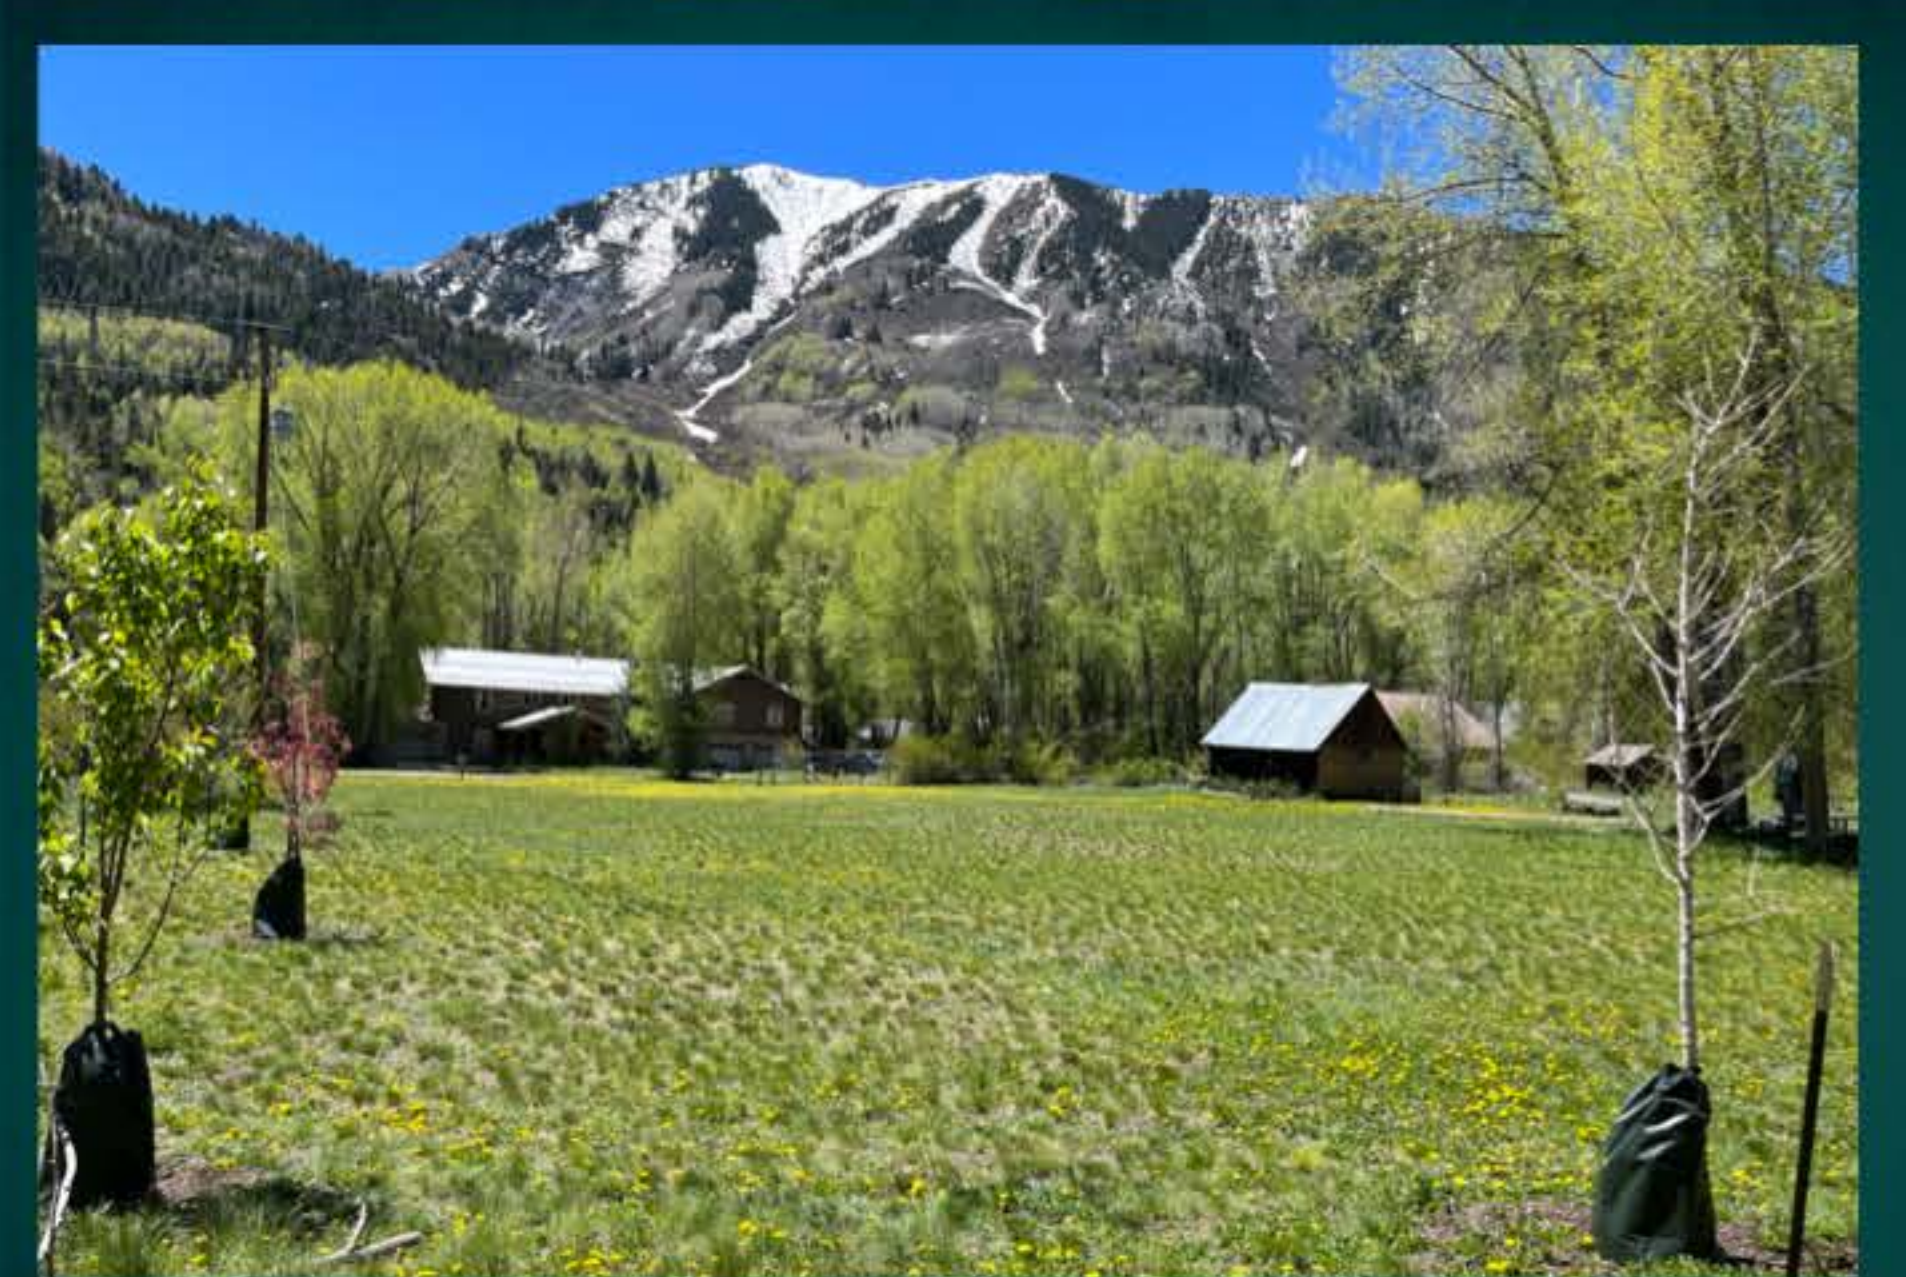

About one year ago, a group of stakeholders got together to discuss the possibilities of revitalizing the Childrens Park on the corner of 2nd and Main. The park lots were donated to the Aspen Valley Land Trust with a deed restriction to forever maintain it as a park. With the lots the old Jailhouse sits on belonging to the Town. Together, the AVL, the Town Trustees, the Marble Charter School, the Parks and Recreation committee, and the Town Manager hired DHM design to create a plan. Included in the plan is the planting of new trees along the perimeter of second street, growing drought resistant grasses, rehabilitating the original baseball diamond, a landscaped corner housing an informative sign, and improved parking along 2nd street. A grant from Great Outdoors Colorado will fund the park project as well as the restoration project of the Jailhouse, spearheaded by Emma Bielski.

High Winds Bring Trees Down

Many residents in the Marble area lost sleep due to the high wind storm ripping through the valley on May 8th. Pictured above is a 50+ foot tree broken in half over the garage of Marble's town manager. The following day brought neighbors with chainsaws, tree service companies, looks-loo's, and a lot to clean up.

Brake For the School Bus

The biggest step in this process is the irrigation for the grass and wildflower landscape. The AVL is responsible for the cost of installation, maintenance, and repairs of the water system which will be trenched along 2nd street, pumping water from the Crystal. Brent Compton, Owner of Verde Land Management has been hired as Project Manager.

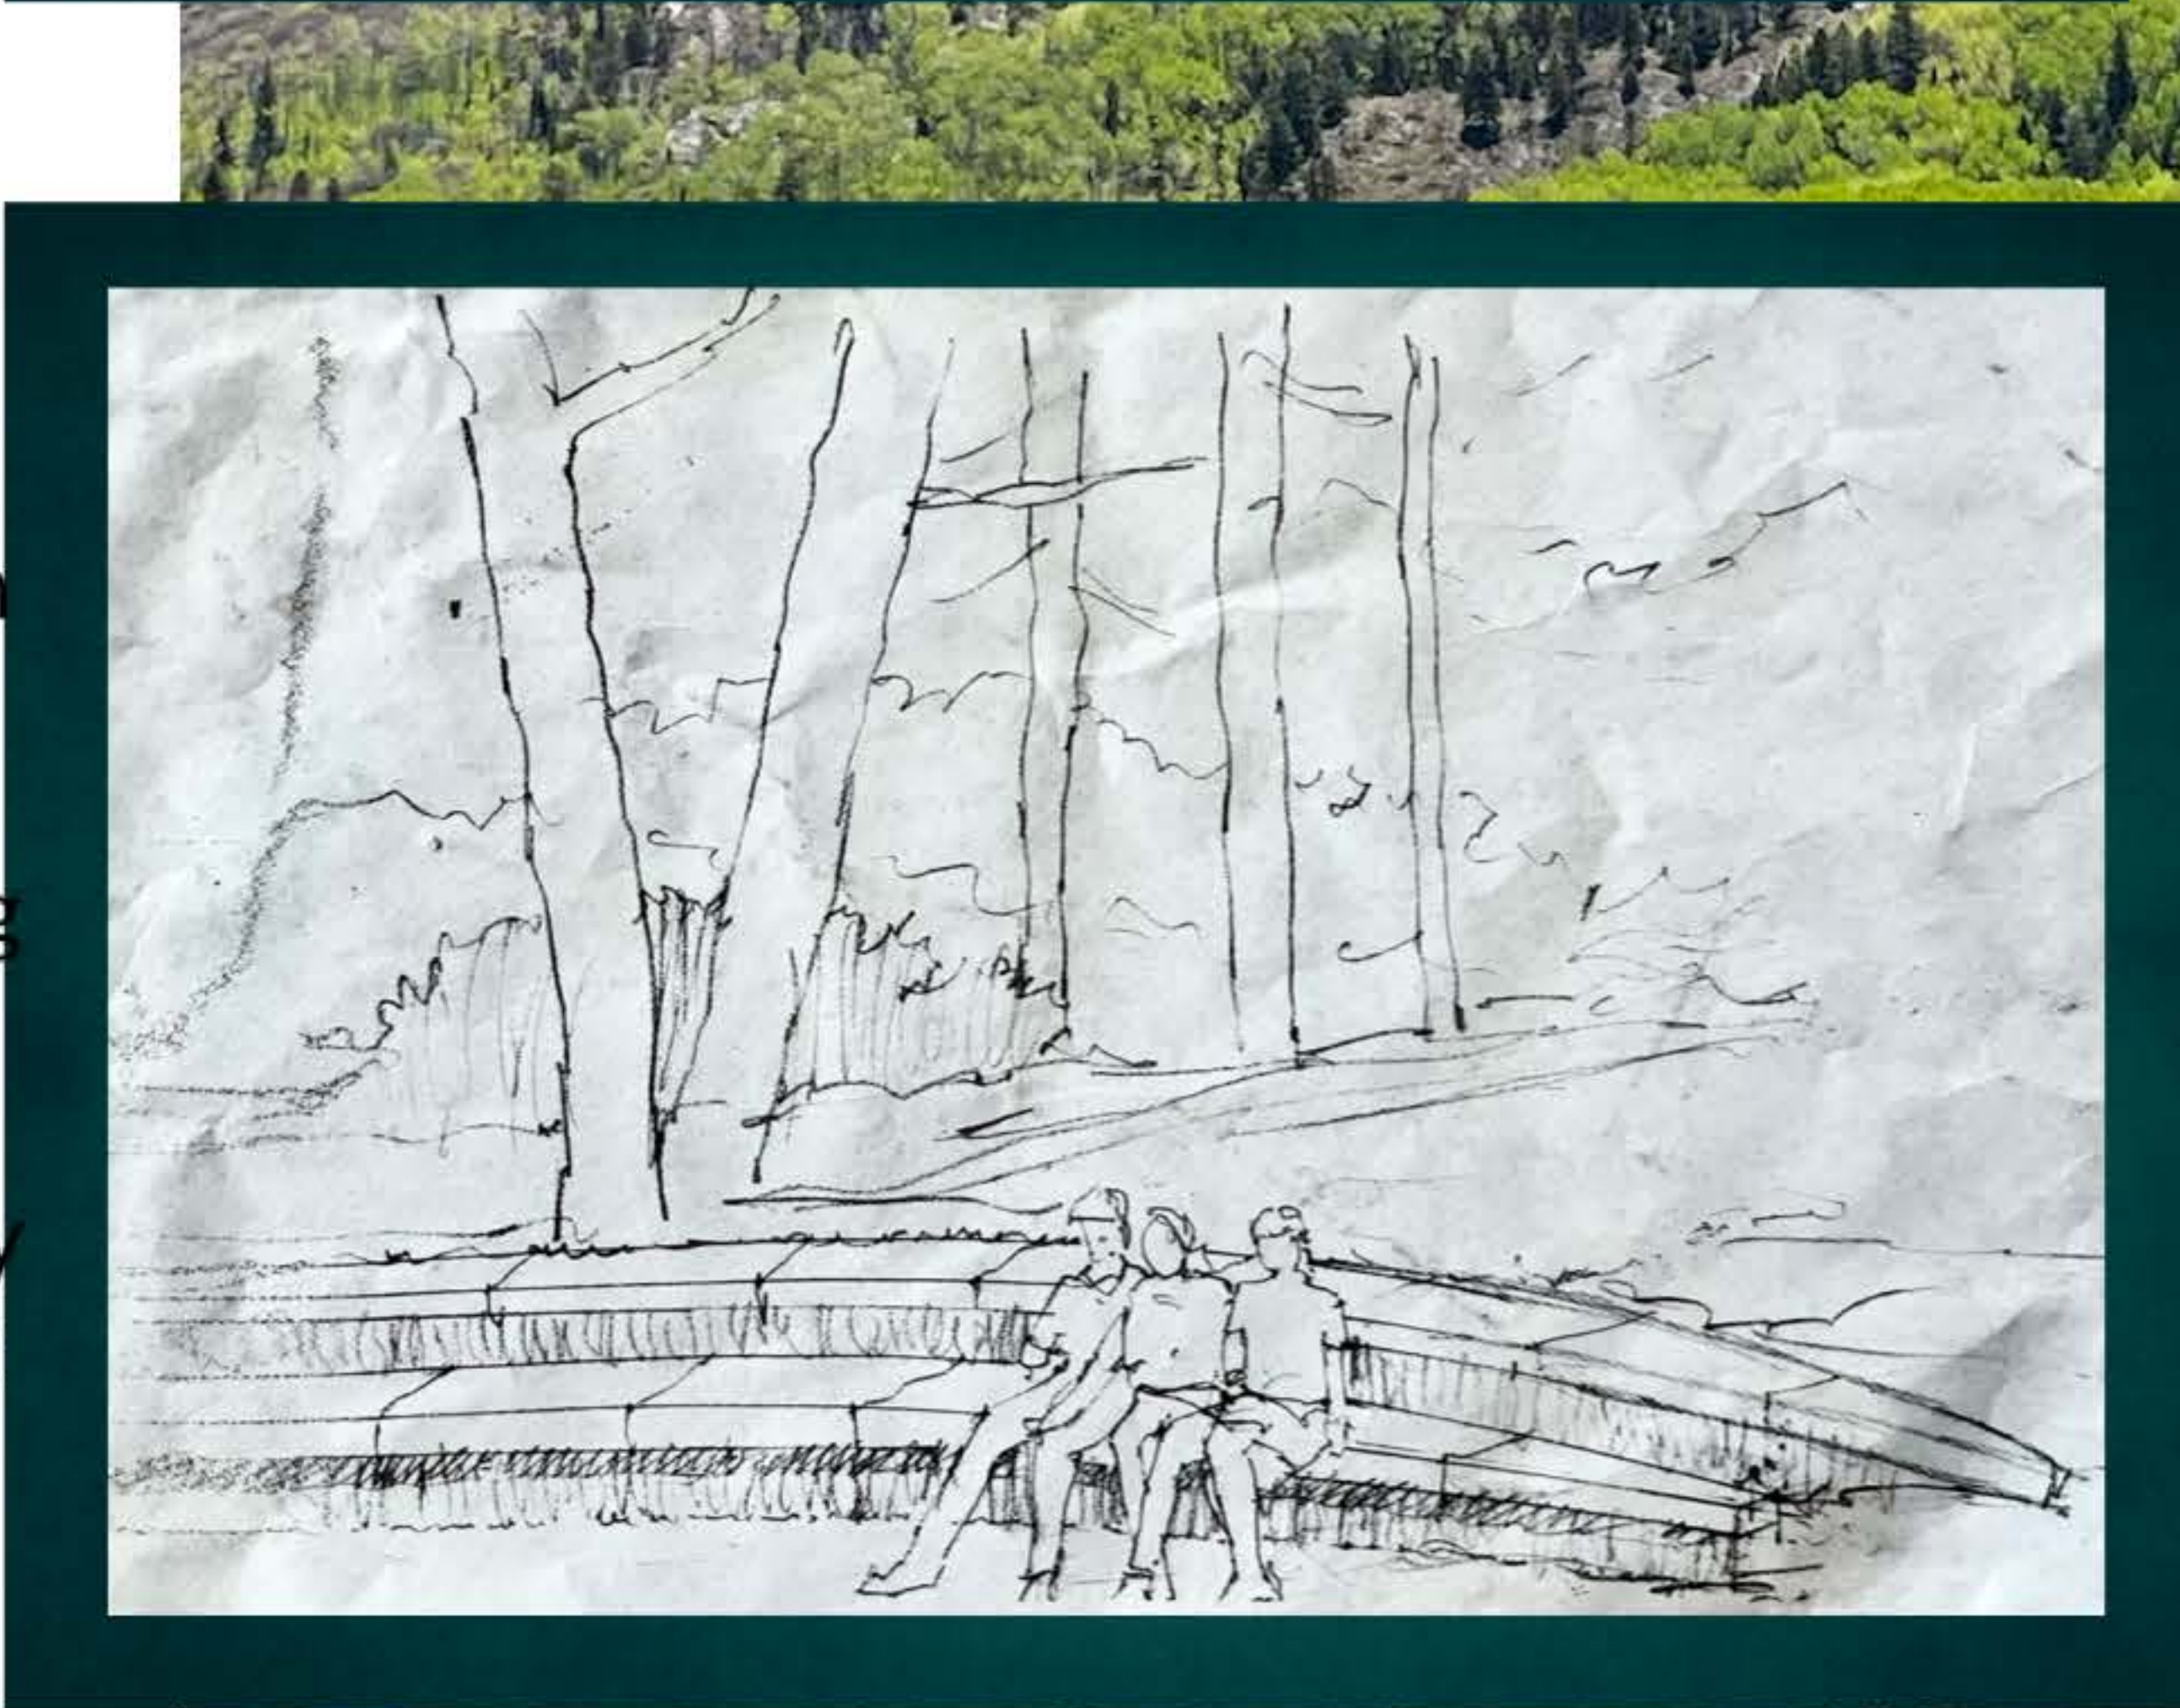

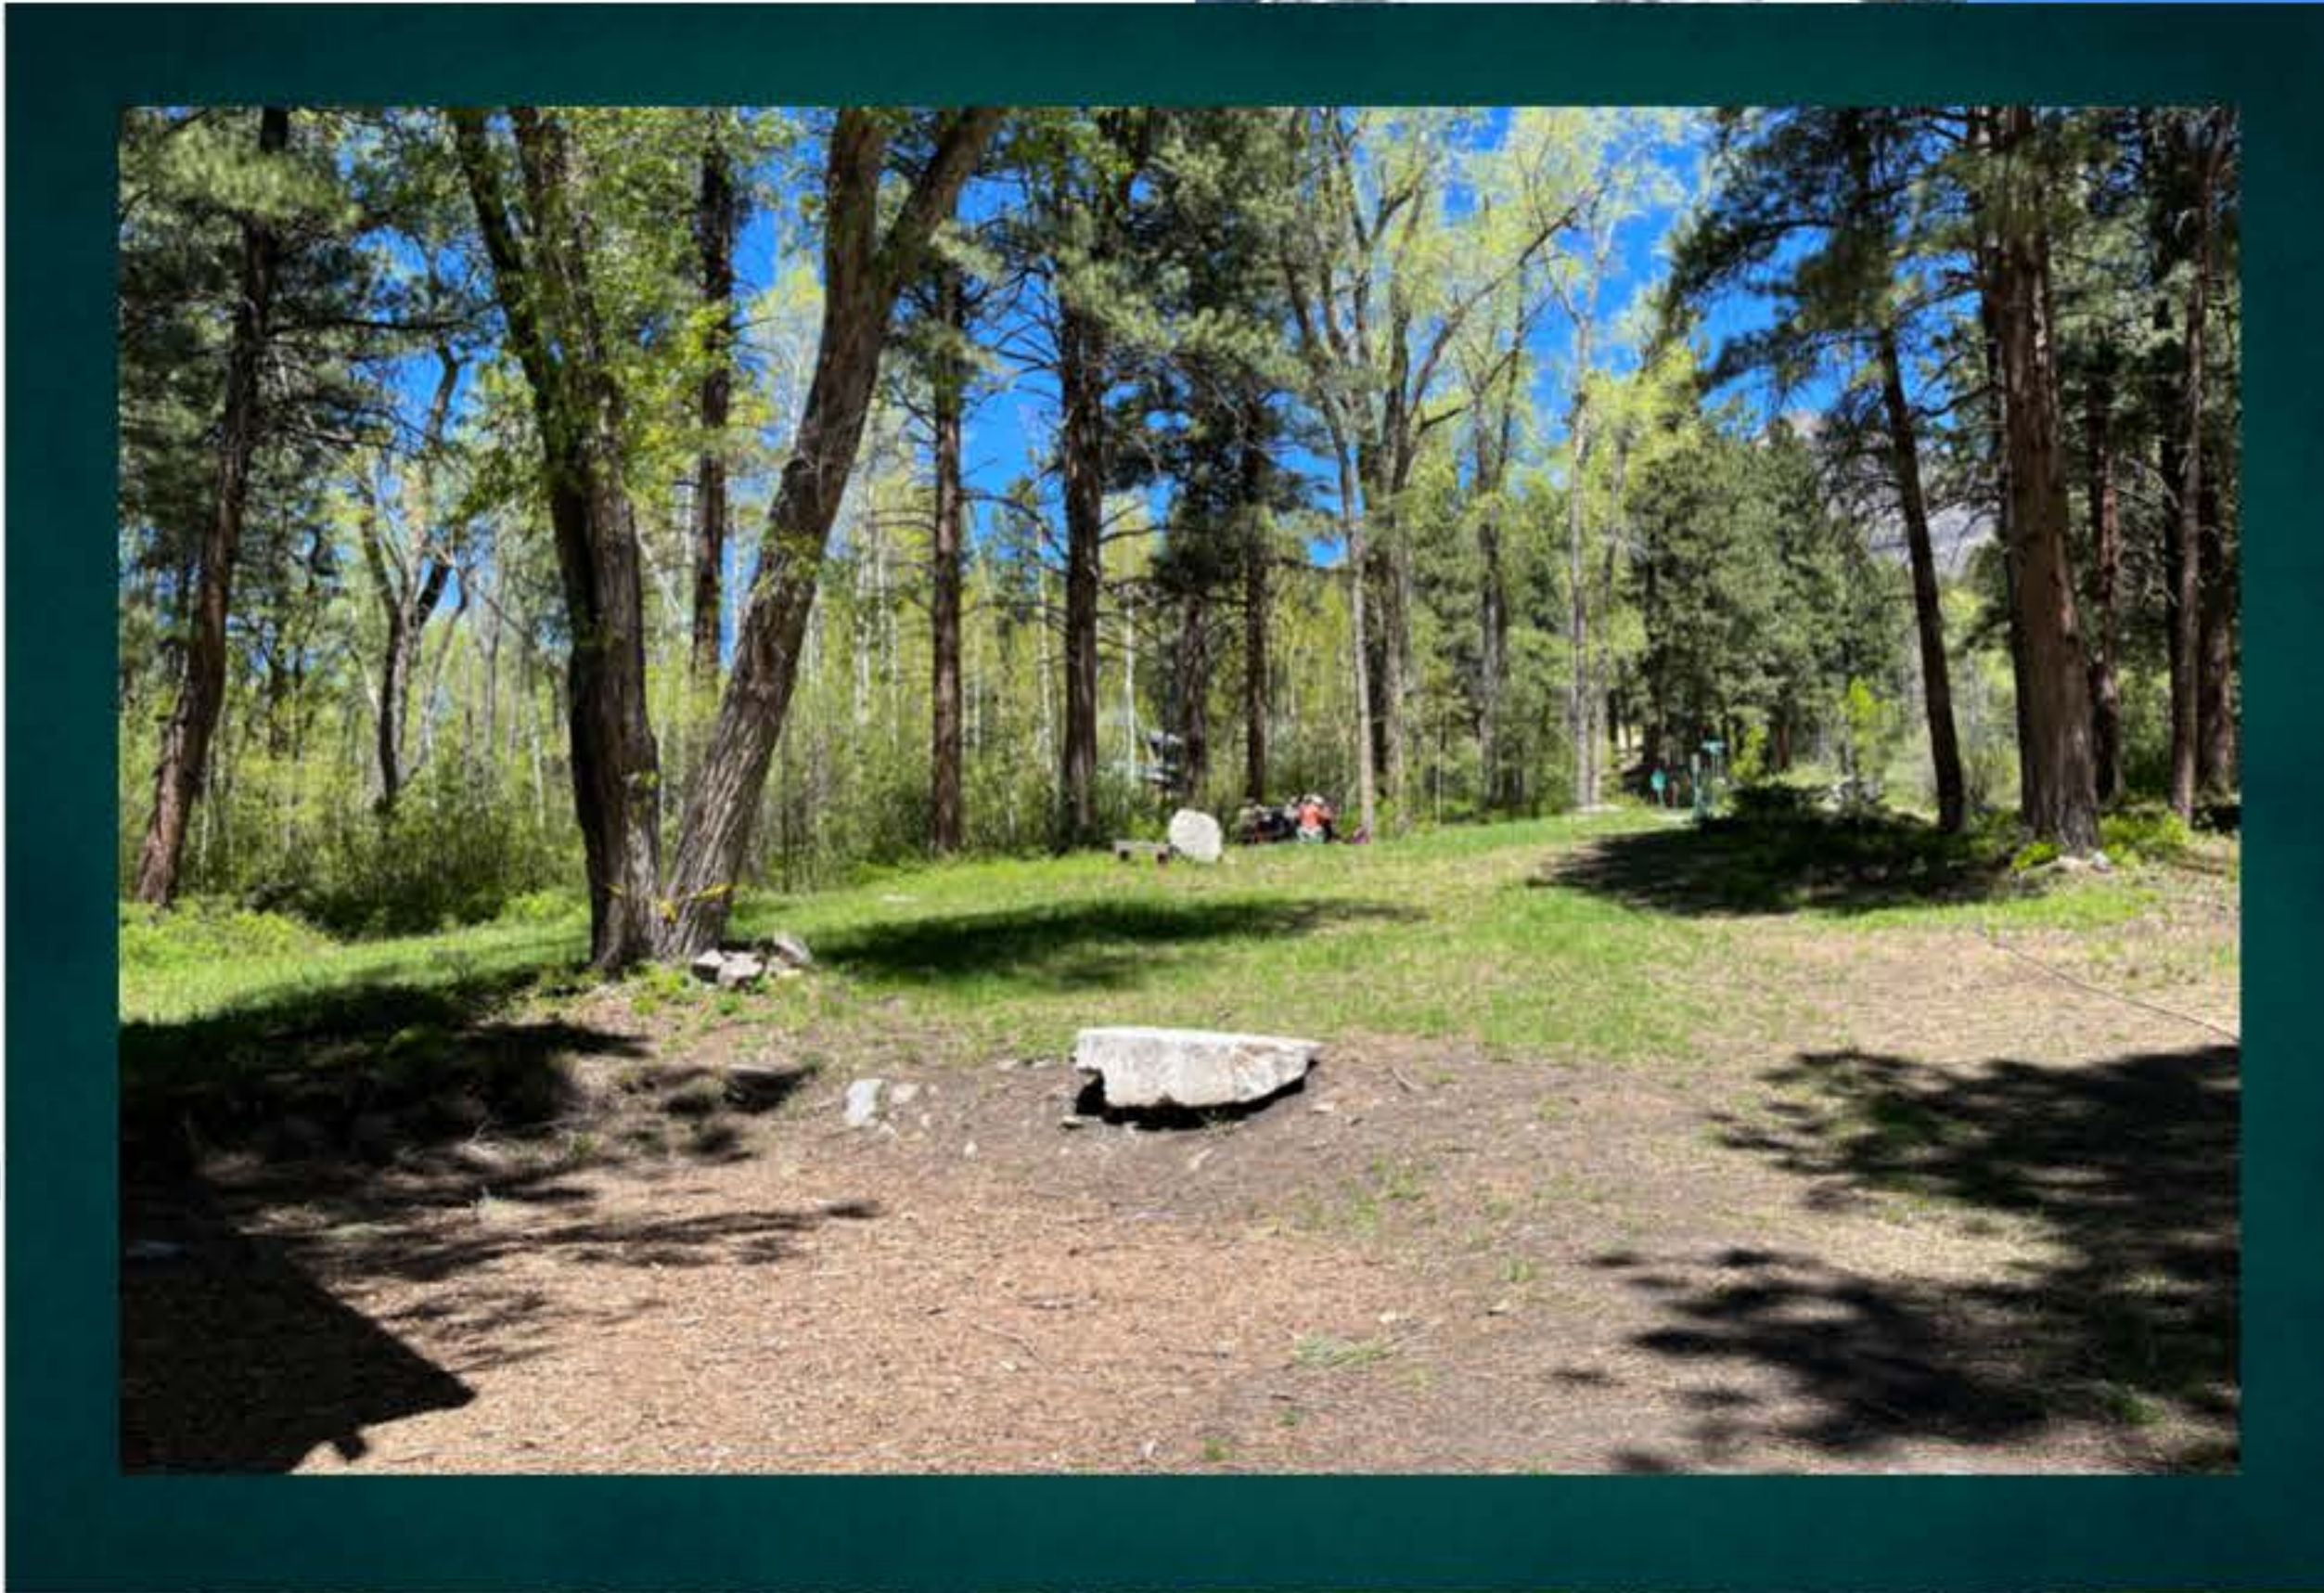

Ideally, Compton says " The trench will be dug if all goes as planned in 3-4 weeks time. RA Enterprises will be there to place an electric pedestal in the park 10 ft from the center electric pole. The electric and irrigation line will run 565' to the river's edge where an enclosed stand alone pump station holding a 7.5 hP munro pump. A 3" intake hose will float in the rivers edge with an automated intake strainer on the end to prevent clogging up with debris. Once we get the electric, irrigation line and pump installed the next step in late June early July is to install automated irrigation rotors in the park. This will irrigate the turfgrass and trees as well as future wildflowers." Verde has already planted a handful of trees donated by Eagle Crest Nursery this spring. Soon enough the MCS Mountain Lions will have a place to play catch and work on their batting averages.

TOWN OF MARBLE

The Mill Site Park

Many folks have been working on ideas for the enjoyment and safety of Marbles Parks. A simple yet beautiful design for a two tier amphitheater seating area nestled into the natural bowl shape before the stage of the Mill Site Park, has been in the works for some time. Greg Tonozzi says the idea came to fruition when Connie Hendrix, Alison Finn, and himself were on the Parks committee just a few years ago. The materials would be made of nothing other than marble, generously donated and cut by Colorado Stone Quarries, then carved and installed by Tonozzi. The sketch you see here was drawn by Charlie Manus, depicting the curvature and design mimicking the natural landscape. This project will commence this summer. Any and all community members interested in helping and being a part of this grand moment are welcome.

Lead King Loop

After all the hard work of the LKL Stakeholders Group, the efforts to resolve the impacts associated with the influx in tourism continue. Though an equally beneficial outcome feels impossible, there is an important upside sprouting from this long conversation. What we have learned are the top priorities of the residents, property owners, and outdoor enthusiasts of our beautiful home. Among them may be the true heart of what this community wants to hold on to when we look at the future of Marble. They include an overall belief in a good quality of life, maintaining the tranquility we value here, respect for the land, wildlife, and each other. Being able to appropriately share the access to the places we love and activities we enjoy. Above all, the safety of our homes and children. That is something we can be proud of and continue to nurture as the conversation moves forward.

TOWN OF MARBLE

Marble Charter School Graduation

Congratulations to our 2022
Graduates:

Myra Claybourne

Maya Lopez

Citaly Penaloza

Have a great summer Mountain
Lions!

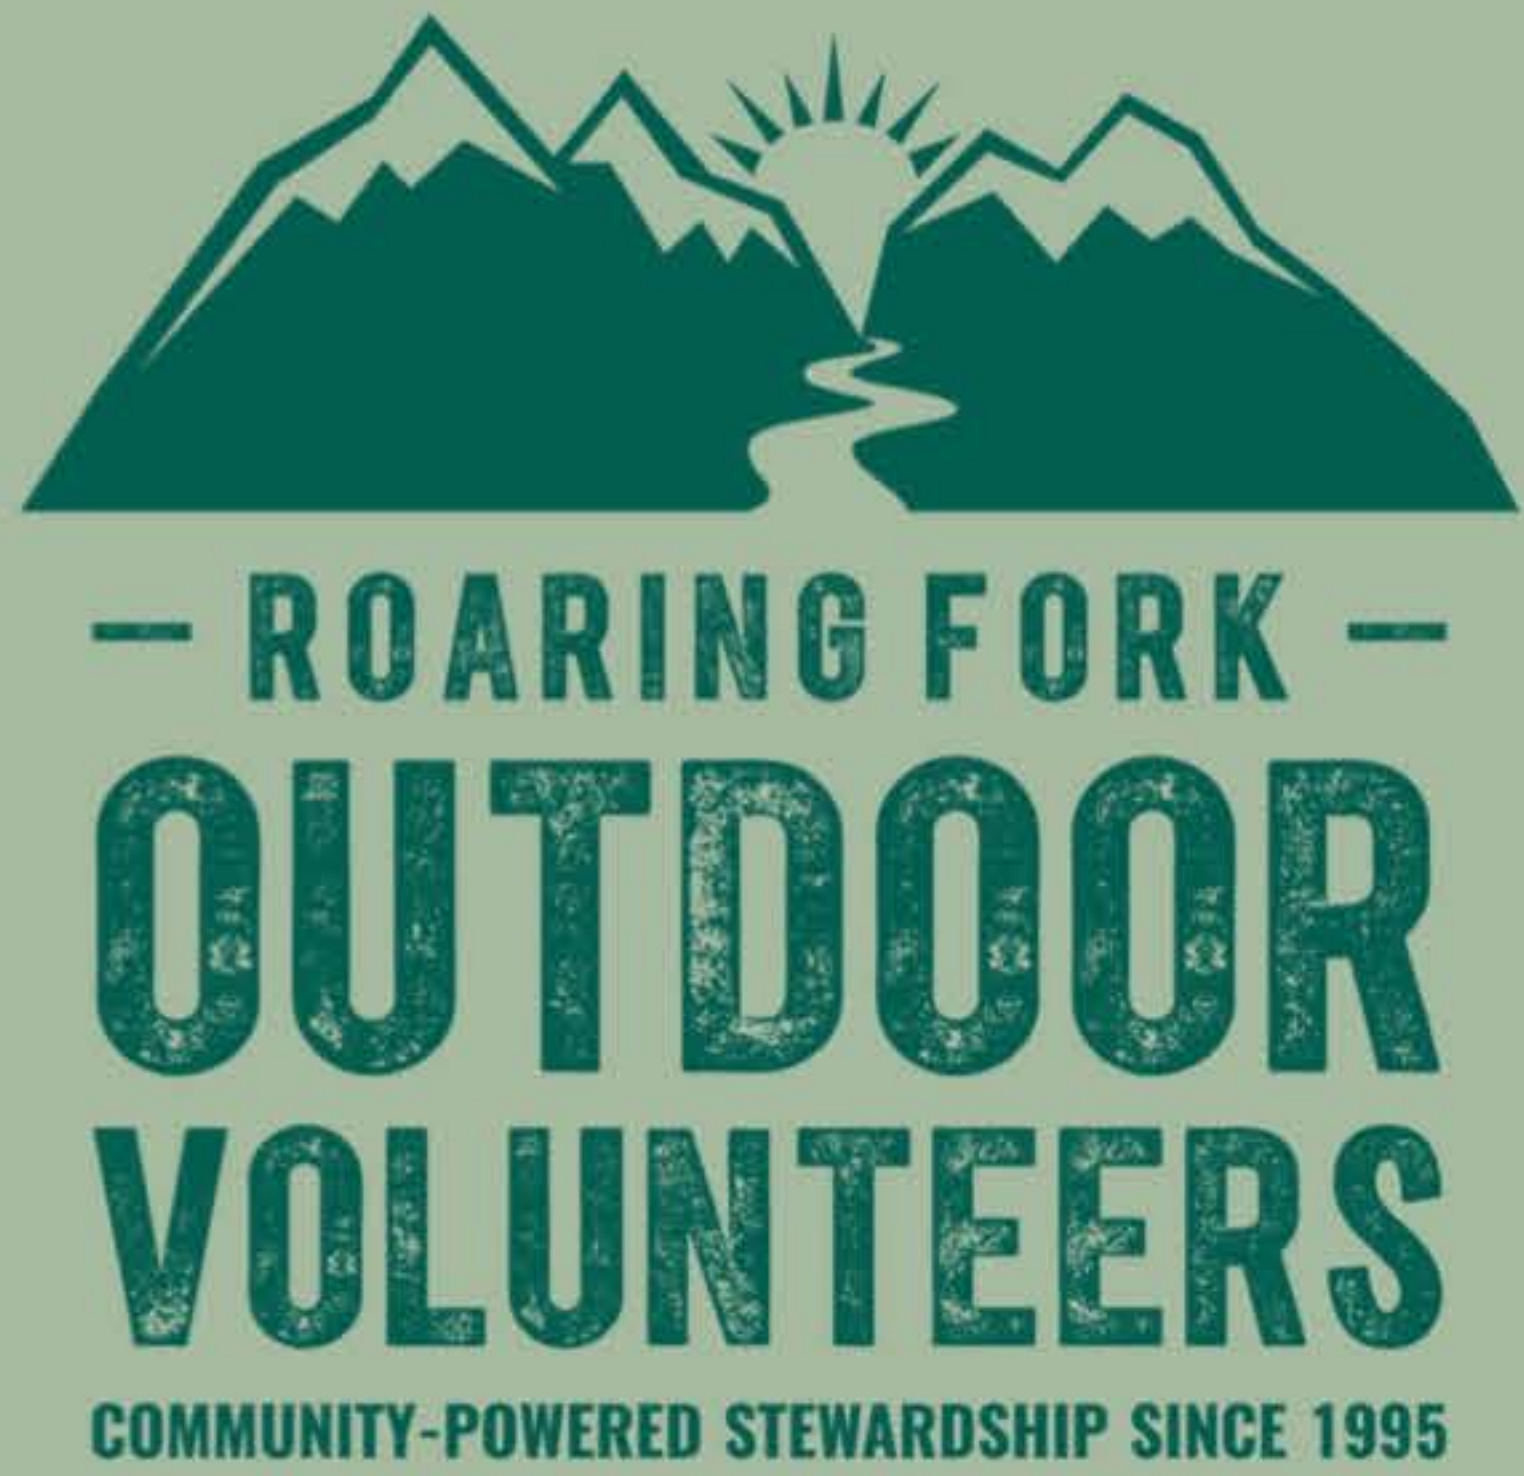

Thank You Pastor Jon!

Many people have a profound gratitude for Pastor Jon Stovall and his 11 year service to the community of the Crystal Valley. He has been a minister to all and will be tough to replace. Jon and his family will remain living in Marble. His final service will be the last Sunday in September.
