

# CYDONIA TEMPLES OF EPHESUS

The *Martian Motif* includes the *Face of Ala-lu* or 'Face of Mars', the *Giant Fortress Pentagon* and the *7 Pleiadian Pyramid City*, and so too does the Ephesus environs portray such a depiction. The *D&M Pyramid* corresponds to the *Ayasuluk Fortress*. The *Face of Mars* corresponds to a tennis sports complex that is strikingly suggesting a 'face'. The side structure of lesser size is also present as it is rotated approximately 180 degrees. The *Pleiadian Star* cluster is to the south of the present day city but is yet to be concretely identified by some markers other than an earthen mound of some type of ancient ruins yet to be identified appear to correspond to this astronomical alignment. Next, the constellation of *Taurus* is configured and seen in the city ley-lines of present day *Izmir*. It is built upon ancient outlines that have the *Taurus* constellation elongated and the line from the 'head' of the Bull to the *Pleiades* directly intersects of the fortress hill of *Ayasuluk*. What is astonishing is that the angle and degree heading of this ley-line points to a distant range of hill, 7 hills that are situated just north of the city in the outskirts. Lastly when one superimposes the 'triangle' of the 3 *Martian Motifs* and invert the triangle to form a hexagram, the intersecting point on the right side of the hexagram approximates where the *Temple of Artemis* once stood. This same ley-line is also the 'back' edge of the outline of *Orion* when superimposed on the Ephesus map.

It is amazing to consider how the entire layout of the Ephesus area depicts the *Orion-Taurus-Pleiades* Star clusters. In terms of the *Taurus* outline, it is rotated horizontally 180 degrees and flipped on its axis entirely to produce a mirrored image on Earth.

The history of Ephesus, pertaining to the Gospel's history is rich on the account of Paul's missionary journeys there as recorded in the book of Acts 19. It was at Ephesus that Paul would first go to the synagogues of the Jews but upon being rejected would have a custom to preach open-air in the *Agoras*. This started a riot as all the people of the city gathered at the amphitheater and shouted down Paul for 2 hours chanting the familiar type, 'Great is Artemis', etc.

This same vein of vanity is where 'Great is Allah' or 'Allahu Akbar' echoes the spirit of AntiChrist from where it comes from. In terms of numbers, it is interesting that 2 hours equals 120 minutes or 7200 seconds. It is rather amazing that the same origins of this 'goddess' of Artemis and Allah appear to have the same storyline. Both had a green emerald rock fall from Heaven of the Goddess that later was housed as an Idol in the *Kaaba* of Mecca and the *Temple to Artemis*.
