

AFTER YOUR ENERGY ASSESSMENT

Congratulations! You have officially taken the first step toward a more comfortable and energy efficient home by scheduling a Home Performance with ENERGY STAR energy assessment! Focus on Energy is committed to helping you on your path to smarter energy choices with expert recommendations and an instant discount of **33% to 75%—up to \$2,000**—for completing recommended improvements and a potential energy-savings bonus of **up to \$250**. The whole process can be completed in three easy steps.

STEP 1

IDENTIFY YOUR HOME'S COMFORT ISSUES

Your Home Performance with ENERGY STAR Trade Ally will evaluate your home from top to bottom and provide you with a personalized report that provides you information about the existing condition of your home, recommendations for improvements and estimates of annual savings and payback periods for each measure to help you prioritize your improvements and stay within your budget. Generous rewards **up to \$2,000** are available through the program to help you reduce the improvement costs for eligible measures such as air sealing and insulation.

STEP 2

CHOOSE THE MOST COST EFFECTIVE IMPROVEMENTS

Review the Proposal for Work with your BPI-certified Trade Ally. Once you have returned the signed contract, your Trade Ally will schedule an appointment with you to perform the work.

Focus on Energy will provide financial rewards including an instant discount of **33% to 75%** off the improvement cost, **up to \$2,000**. Additionally, by making recommended improvements you may also be eligible for a savings bonus of **up to \$250** based on the percentage of energy saved through the installed eligible measures.

STEP 3

MAKE THE IMPROVEMENTS AND RECEIVE YOUR REWARDS

Once a signed agreement is in place, your Trade Ally will schedule and complete the work. While the timeframe for the installation of measures varies, the work generally takes one to two days to complete—this means you can quickly realize the benefits! After the installation is complete, your earned rewards will be automatically deducted from your invoice and a Focus on Energy representative may inspect your Trade Ally's work at no cost to you.

Schedule an energy assessment today.
