

GROTBERG ELECTRIC, INC.

We believe our primary mission is to deliver quality services that will make a positive difference in the success and lives of our clients.

We believe in commitment. We promise to be responsive to the changing needs of our clients, stay abreast of the very latest technology, and innovative policies, procedures and systems that will allow us to serve our clients better.

We believe in honesty and integrity in all that we do. We will have an unequivocal pursuit of excellence in all of our endeavors.

We believe our most valuable resource is our people and the experience and expertise they contribute every day. We will have respect for the dignity of the individual. We will allow them and encourage them to personally develop.

We believe that our ultimate goal is the creation of an institution: that is widely admired by our peers, and that is considered 'the good neighbor' to the communities in which we serve.
