

FOR IMMEDIATE RELEASE

December 8th, 2020
EDMONTON, AB

AdvantageVM Distributor of Premium Pesticide Products in the Canadian Industrial Vegetation market is pleased to announce the expansion of their **IVM Product** offering to include **Corteva Agriscience**.

Effective immediately, **AdvantageVM** has expanded their distribution channel in Canada, and will carry the entire **Corteva Agriscience** IVM product line including: Aspect, Clearview, Garlon XRT, Gateway, Milestone, Lontrel XC, OcTTain XL, Sightline, Tordon 22K, and VP480.

AdvantageVM will continue to provide their customers with a full line of industrial and landscape herbicides including products from Bayer CropScience, UAP Canada, Evergreen Bio Innovations (formally Lawn Life), Norac Concepts and RoCon Industries.

AdvantageVM, is a Canadian owned pesticide distribution company servicing the vegetation management industry. With an emphasis on agronomic solutions for vegetation management needs, they offer individualized sales consultations, exceptional customer service and reliable delivery of goods. Owners Julie Dixon and Geoff Thompson, along with their team have a combined 90 years working experience in the application, sales, and marketing of herbicides. Founded in 2016 **AdvantageVM**, has quickly differentiated itself through their commitment, honesty, expertise, customized service, and industry knowledge.

For further information about the Corteva Agriscience distribution or for inquiries regarding working with AdvantageVM please contact Julie Dixon or Geoff Thompson at:
