

# MADRID PLEIADES STAR MAP I

The purpose of this illustration is to suggest that the city of Madrid incorporates the Cydonia, Mars pyramid layout. This configuration includes the Pyramid City, the Face of Ala-lu or Face of Mars, and the Pentagon pyramid. From an aerial view, their does appear to be 3 main centers in Madrid that fit this design. These 3 localities are the Royal Theatre next to the Royal Palace, the Hippodrome or race track and the 4 Tower in the financial center. These 3 main designs are also seen in other major world capitals, most notably in Europe that also incorporate a lot of the Pharaonic signatures of the Great Pyramid and the Obelisks. In the case of Madrid, Spain the triangulation of the sites is a near perfect fit, although a bit elongated and rotated 180 degrees. The major difference has to do with the Pentagon structure that correlates with the Royal Theatre. The Teatro Real or simply El Real, as it is known colloquially, is a major opera house located in Madrid, Spain.

As to the specifics of each of the 3 major depictions, the Royal Theatre correlates to the Pentagon pyramid of mars but is rotated 90 degrees. It does have an approximate degree heading of 333 as it is in Cydonia, Mars.

Being that the Spanish Empire was considered the first modern world Superpower, its kings even have the title of King of Jerusalem. The military concept of the Marines was first utilized by the Spaniards in their world conquests. It would stand to reason that the same Luciferian Templars that rule the world would incorporate their various motifs, hidden in plain sight.

The 4 Towers or Las 4 Torres is a fairly new development and although there are 4 prominent skyscrapers presently, there is still plans to build fore that will no doubt constitute 7 at some time in the near future. This location corresponds to the Pyramid City of Cydonia, Mars. It is 322 arcseconds to the Plaza del Sol or the Sun Gate.

It is offset to the left next to the Royal Palace that is will be shown to be also in an anthropomorphic proportion. The actually corresponds D&M Pyramid of Mars corresponds to the Puerta del Sol or the Gate of the Sun, i.e., the Sungate. The Puerta del Sol is one of the best known and busiest places in Madrid. This is the point of the radial network of Spanish roads. It is a befitting place and name as it suggests a 'Stargate' perhaps as it was in Mars at one time.

As this motif is replicated in the major world capitals, its design and significance goes beyond the mere architecture of the city layout. It is mirroring more that just a design, but an ideal and plan. Moreover this pattern is not human but extra-terrestrial in the sense that it does not originate f from the designers on Earth but a suggested cadre of Fallen Angels reminiscent of their celestial abode in the Heaven from where they were expelled from. Those in power of such world capitals and empires are in league with such entities to further their agenda which is Luciferian at its very core.
