

CORONAL MASS EJECTIONS 2024

DELIVERY OF THE MESSAGE AND CLIMAX OF THE COMET CONJUNCTION

The purpose of this illustration is to depict the Comet Tsuchinshan C/2023 A3 as the Calendar Day approaches Yom Kippur. The Comet crossed the Ecliptic on October 2, 2024, exactly 1 Year from the HAMAS Terrorist Attack on Israel. Then on October 9, the 'Birthing' of Mercury occurs in the 'Womb' Motif associated with the Constellation of Virgo. It is as if the 'Message has been Delivered'. Then the next Day, the Comet C/2023 A# which some attribute it to being the 'Star of Jacob' will be 'Birthed' also out of the Woman's Womb on October 10, 2024. It is 1 Day from the Evening of the start of Yom Kippur on the Rabbinical Calendar. Also note that this Array of Astronomical Signs has a Quadruple Conjunction or 'Square' consisting of the Sun, Spica, Mercury and the Comet, etc. Also note that the Comet exits the Womb of Virgo at the same exact Point that it entered it, approximately 180 Day prior. As to a possible Prophetic Meaning? Consider that Virgo is the Innuendo for both Israel and the Bride of Christ. What will be that 'Message Delivered'? Watch the 3 Days from October 9,10,11 and 12 for a possible monumental Occurrence dealing with Israel and the Church Age, perhaps.
