INDEPENDENT AUDITOR'S REPORT

District Commissioners
Bexar County Emergency Services District No. 10

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the major fund and the aggregate remaining fund information of the Bexar County Emergency Services District No. 10, as of and for the year ended September 30, 2021, and the related notes to the financial statements, which collectively comprise the basic financial statements of the District's primary government as listed in the table of contents.

Management's Responsibility for the Financial Statements

The Bexar County Emergency Services District No. 10's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit includes performing procedures to obtain evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund and the aggregate remaining fund information of the primary government of Bexar County Emergency Services District No. 10, as of September 30, 2021, and the respective changes in financial position and, where applicable, cash flows, thereof for the year ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison information schedule of changes – net pension liability and related ratios, the schedule of District Contributions, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was performed for the purpose of forming opinions on the financial statements that collectively comprise the Bexar County Emergency Services District No. 10's, financial statements. The comparative financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The comparative financial statements are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Bexar County Emergency Services District No. 10's annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year ended September 30, 2021. Please read it in conjunction with the District's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

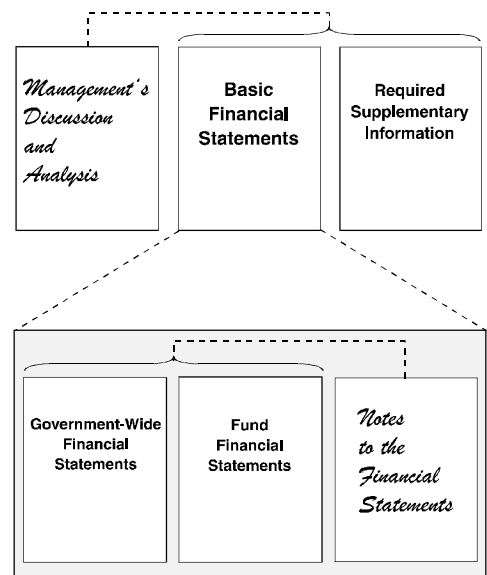

- The District's total net position was \$187 thousand at September 30, 2021.
- During the year, the District's expenses were \$58 thousand more than the \$3.5 million generated in taxes and other revenue for governmental activities.
- The District obtained a third promissory note to finish construction of the Elmendorf station in the amount of \$200 thousand.
- The District secured a loan for \$185 thousand to purchase a new fire truck, and a separate loan for \$1.75 million to replace a fire truck that was destroyed in the current year.
- The general fund reported a fund balance of \$2.3 million.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts—*management's discussion and analysis* (this section), the *basic financial statements*, and *required supplementary information*. The basic financial statements include two kinds of statements that present different views of the District:

Figure A-1, Required Components of the District's Annual Financial Report

- The first two statements are *government-wide financial statements* that provide both *long-term* and *short-term* information about the District's overall financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the District's operations in more detail than the government-wide statements.
- *The governmental funds* statements tell how *general government* services were financed in the *short-term* as well as what remains for future spending.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one another.

Summary ↔ Detail

Figure A-2 summarizes the major features of the District’s financial statements, including the portion of the District government they cover and the types of information they contain. The remainder of this overview section of management’s discussion and analysis explains the structure and contents of each of the statements.

Figure A-2. Major Features of the District’s Government-wide and Fund Financial Statements		
	Fund Statement	
<i>Type of Statements</i>	Government-wide	Governmental Funds
<i>Scope</i>	Entire District's government (except fiduciary funds)	The activities of the District that are not proprietary or fiduciary
<i>Required financial statements</i>	<ul style="list-style-type: none"> • Statement of net position • Statement of activities 	<ul style="list-style-type: none"> • Balance Sheet • Statement of revenues, expenditures & changes in fund balances
<i>Accounting basis and measurement focus</i>	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus
<i>Type of asset/liability information</i>	All assets and liabilities, both financial and capital, short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter, no capital assets included
<i>Type of inflow/outflow information</i>	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter

Government-Wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government’s assets and liabilities. All of the current year’s revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District’s net position and how they have changed. Net position—the difference between the District’s assets and liabilities—is one way to measure the District’s financial health or *position*.

- Over time, increases or decreases in the District’s net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District’s tax base

The government-wide financial statements of the District include the *Governmental activities*. Most of the District’s basic services are included here, such as Emergency Services and general administration. Property taxes finance most of these activities.

Fund Financial Statements

The District has the following kinds of funds:

- Governmental funds**—All of the District’s basic services are included in governmental funds, which focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District’s programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship (or differences) between them.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Revenues from governmental fund types totaled \$3.4 million, an increase of 19%. The increase in local revenues is a result of increased assessed values, and third year of sales tax collection.

General Fund Budgetary Highlights

Over the course of the year, the District revised its budget. Actual expenditures were \$970 thousand more than budgeted amounts primarily due to fire equipment and station expenditures.

Revenues were \$16 thousand more than budgeted amounts primarily due to grants and sales tax revenue.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of fiscal year 2021, the District invested a total of \$4.5 million, net of depreciation, in a broad range of capital assets, including land, buildings, vehicles and equipment. More detailed information about the District's capital assets is presented in the notes to the financial statements.

	<u>\$ 6,712,774</u>	<u>\$ 5,083,227</u>	32.1%

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

- Appraised value used for the 2022 budget preparation has increased. The projected revenues for the 2022 budget preparation increased to \$4.4 million. There is no budgeted change in the property tax rate for 2022
- General operating fund spending increased per the 2022 budget. Expenditures are anticipated to increase from the actual 2021 expenditures of \$4.2 million to \$4.4 million. The main increase will be capital outlay and loan repayment expenditures.

These indicators were taken into account when adopting the general fund budget for 2021-2022. Amounts available for appropriation in the general fund budget are \$4.4, an increase of 28% over the final 2021 actual revenue of \$3.4 million. Property taxes will increase due to increased property values and the addition of new properties into the District, as well as the continued collection of sales tax.

BEXAR COUNTY EMERGENCY SERVICES DISTRICT NO. 10
RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCE OF THE
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2021

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS \$ 1,192,234

Amounts reported for governmental activities in the Statement of Activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital Outlay	831,938	
Depreciation	<u>(386,472)</u>	445,466

In the statement of Activities, only the gain or loss on the disposal of a capital asset is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net assets differs from the change in fund balance by the net book value of disposed assets. (89,829)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenues in the funds.

Property Taxes Not Available for Current Period	17,662
---	--------

The issuance of long-term debt (e.g. notes payable and capital leases) provide current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This is the net effect of these differences in the treatment of long-term debt and related items.

The governmental funds report pension benefit contributions as expenditures when paid. However, in the statement of activities, differences between pension plan contributions and costs for the year are reported as an asset or obligation. 7,565

Some expenses reported in the Statement of Activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

NOTES TO BASIC FINANCIAL STATEMENTS

BEXAR COUNTY EMERGENCY SERVICES DISTRICT NO. 10
NOTES TO BASIC FINANCIAL STATEMENTS
SEPTEMBER 30, 2021

NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Bexar County Emergency Services District No. 10 (the “District”) is a political subdivision of the State of Texas and was created by the Bexar County Commissioners’ Court after a Public Election on May 13, 2008. The District was created to provide emergency services and promote public safety, welfare, health and convenience of persons residing in the District.

The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The more significant of the District’s accounting policies are described below:

A. THE FINANCIAL REPORTING ENTITY

In evaluating how to define the government for financial purposes, management has considered all potential component units. The definition of the reporting entity is based primarily on the concept of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization’s governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. Blended component units, although legally separate entities are, in substance, part of the government’s operations; thus, data from these units are to be combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

The District has one component unit, Gardendale Volunteer Fire Department (a Nonprofit Fire Department). The relationship between the Department and the District is such that it meets the criteria, as set forth in GASB Statement Nos. 14, 39, 61 and 80 for inclusion as a blended component unit in the reporting entity.

Gardendale Volunteer Fire Department (the “Department”) is a local nonprofit fire department without powers of taxation, organized exclusively for the purpose of providing fire protection and emergency services to the area covered by the Bexar County Emergency Services District No. 10. The District appoints the Board of Commissioners as the directors of the nonprofit. The District presents the financial statements of the Department in the District’s financial report.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The **government-wide financial statements** include the statement of net position and the statement of activities. Government-wide statements report information on all of the activities of the District. Governmental activities are supported mainly by property and sales taxes. The statement of activities reflects the degree to which the direct expenses of a given function or segment is offset by program revenues.

SEPTEMBER 30, 2021

NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (CONT.)

Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included in program revenues are reported as general revenues.

Separate **fund financial statements** are provided for governmental funds. The General Fund meets the criteria of *major governmental funds*.

C. MEASUREMENT FOCUS, BASIS OF ACCOUNTING, AND FINANCIAL STATEMENT PRESENTATION

The **government-wide financial statements** are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Revenue types, which have been accrued, are revenue from the investments, intergovernmental revenue and charges for services. Property taxes are recognized in the year for which they are levied. Grants are recognized as revenue when all applicable eligibility requirements imposed by the provider are met.

Revenues are classified as *program revenues* and *general revenues*. Program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. General revenues include all taxes, grants not restricted to specific programs and investment earnings.

Governmental fund level financial statements are reported using current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Measurable and available revenues include revenues expected to be received within 60 days after the fiscal year ends. Receivables which are measurable but not collectible within 60 days after the end of the fiscal period are reported as deferred revenue. Property taxes which were levied prior to September 30, 2020, and became due October 1, 2020 have been assessed to finance the budget of the fiscal year beginning October 1, 2020.

Expenditures generally are recorded when an expense is incurred; however, expenditures related to compensated absences and claims and judgments are recorded only when the liability has matured and payment is due. The government reports the following major governmental fund:

The General Fund is the general operating fund of the District and is always classified as a major fund. The General Fund is used to account for all financial resources except those required to be accounted for in another fund. Major revenue sources include property taxes and investment of idle funds. Primary expenditures are for general administration and emergency services.

D. CASH AND CASH EQUIVALENTS

Cash and cash equivalents include cash deposits and investments with a maturity date within three (3) months of the date acquired by the District.

E. INVESTMENTS

State statutes authorize the District to invest in (a) obligations of the United States or its agencies and instrumentalities; (b) direct obligations of the State of Texas or its agencies; (c) other obligations, the principal and interest of which are unconditionally guaranteed or insured by the State of Texas or the United States; (d) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (e) certificates of deposit by state and national banks domiciled in this state that are (i) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (ii) secured by obligations that are described by (a) - (d); or, (e). Statutes also allow investing in local government investment pools organized and rated in accordance with the Inter-local Cooperation Act, whose assets consist exclusively of the obligations of the United States or its agencies and instrumentalities and repurchase assessments involving those same obligations. The District has all its monies in interest bearing checking accounts, savings accounts, money market accounts or certificates of deposit. Earnings from these investments are added to each account monthly or quarterly.

The District reports investments at fair value based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value: Level 1 inputs are quoted prices in active markets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

F. ACCOUNTS RECEIVABLE

Accounts receivable are reported net of allowances for uncollectible accounts. The allowance account represents management's estimate of uncollectible accounts based on historical trends.

Property taxes are levied based on taxable value at January 1 and become due October 1 and past due after the following January 31. Accordingly, receivables and revenues for property taxes are reflected on the government-wide statement based on the full accrual method of accounting. Property taxes receivable for prior year's levy is shown net of the allowance for uncollectible accounts.

NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

G. PREPAID ITEMS

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. At September 30, 2021, prepaid items totaled \$7,049 for prepaid insurance.

H. CAPITAL ASSETS

Capital assets, which include land; buildings and improvements; and vehicles and equipment, are reported in the government-wide financial statements. Capital assets such as equipment are defined as assets with a cost of \$5,000 or more and a useful life greater than one year. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings & Improvements	15 - 29
Vehicles & Equipment	7 - 17

Land is not depreciated.

Property and equipment that is titled to Gardendale Volunteer Fire Department is currently insured by Bexar County Emergency Services District No. 10.

I. COMPENSATED ABSENCES

The District does not offer paid time off or sick time. As a result, there is no liability reported in the government-wide statements.

NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

J. DEFERRED INFLOWS AND OUTFLOWS OF RESOURCES

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District currently has pension deferred outflows of resources.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resource (revenue) until that time. Unavailable revenue is reported only in the governmental funds balance sheet under a modified basis of accounting. Unavailable revenues from property tax are deferred and recognized as an inflow of resources in the period the amounts become available. The District also has pension related deferred inflows.

Property tax revenues are recognized when they become both measurable and available in the fund statements. Available means when due or past due, and receivable within the current period or expected to be collected soon enough thereafter to be used to pay liabilities of the current period. Property tax revenue not expected to be available for the current period are reflected as deferred inflows. Unavailable revenue is reported only in the governmental funds balance sheet under a modified accrual basis of accounting. Unavailable revenues from property tax are deferred and recognized as inflow of resource in the period the amount becomes available.

K. LONG TERM OBLIGATIONS

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities under governmental activities.

In the fund type financial statements, governmental fund types the face amount of debt issued is reported as other financing sources.

L. PENSIONS

The net pension liability, deferred inflows and outflows of resources related to pensions and pension expense, information about the fiduciary net position of the Texas County and District Retirement System (TCDRS), and additions to and deductions from TCERS's fiduciary net position have been determined on the same basis as they are reported by TCERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 1 -- SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT.)

M. FUND EQUITY

Fund balances in governmental funds are classified as follows:

Nonspendable – Represents amounts that cannot be spent because they are either not in spendable form (such as inventory or prepaid items) or legally required to remain intact.

Restricted – Represents amounts that are constrained by external parties, constitutional provisions or enabling legislation.

Committed – Represents amounts that can only be used for a specific purpose because of a formal action by the District Commissioners. Committed amounts cannot be used for any other purpose unless the District Commissioners removes those constraints through the same formal action.

Assigned – Represents amounts which the District intends to use for a specific purpose but do not meet the criteria of restricted or committed. The District Commissioners are the only entities that may make assignments at this time.

Unassigned – Represents the residual balance that may be spent on any other purpose of the District.

The District has not adopted a policy determining the order of availability.

N. NET POSITION

Net position represents the difference between assets and liabilities. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments.

O. USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

P. RECLASSIFICATIONS

Certain reclassifications have been made to the prior periods presented to conform to the current presentation. These reclassifications had no effect on fund equity.

NOTE 2 -- CASH AND CASH INVESTMENTS

1. Cash

At September 30, 2021, the carrying amount of the District's deposits in one of its banks was over the federally insured limit by \$1,721,728.

2. Investments

The District is required by Government Code Chapter 2256, The Public Funds Investment Act, to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return.

The Public Funds Investment Act ("Act") requires an annual audit of investment practices. Audit procedures in this area conducted as a part of the audit of the basic financial statements disclosed that in the areas of investment practices, management reports and establishment of appropriate policies, the District adhered to the requirements of the Act. Audit procedures in this area, conducted as part of the audit of the basic financial statements, disclosed that the District had not complied with those provisions as the District has not adopted a formal investment policy.

The Act determines the types of investments which are allowable for the District. These include, with certain restrictions, 1) obligations of the U.S. Treasury, U.S. agencies, and the State of Texas, 2) certificates of deposit, 3) certain municipal securities, 4) securities lending program, 5) repurchase agreements, 6) bankers acceptances, 7) mutual funds, 8) investment pools, 9) guaranteed investment contracts, and 10) commercial paper.

The District had no investments at September 30, 2021.

3. Analysis of Specific Deposit and Investment Risks

GASB Statement No. 40 requires a determination as to whether the District was exposed to the following specific investment risks at year end and if so, the reporting of certain related disclosures:

a. Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not exposed to credit risk.

NOTE 2 -- CASH AND CASH INVESTMENTS (CONT.)

3. Analysis of Specific Deposit and Investment Risks (Cont.)

b. Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name. At year end, the District was not exposed to custodial credit risk.

c. Concentration of Credit Risk

The risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to a concentration of credit risk.

d. Interest Rate Risk

This is the risk that the changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

e. Foreign Currency Rate

This is the risk that the exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

NOTE 3 -- AD VALOREM (PROPERTY) TAXES

The District has contracted with the Bexar County Tax Assessor-Collector to collect taxes on its behalf. Current year taxes become delinquent February 1. Current year delinquent taxes not paid by July 1 are turned over to attorneys for collection action.

For fiscal year 2021, the assessed tax rate for the District was \$0.1 per \$100 on an assessed valuation of \$1,477,815,449. Legally, the District may assess up to \$0.1000 per \$100 on assessed valuations. Total tax levy for fiscal year 2021 was \$1,480,039. As of September 30, 2021, the current delinquent current taxes were \$52,659.

NOTE 6 -- EMPLOYEE'S RETIREMENT SYSTEM

Texas County and District Retirement System

Plan Description

The District participates as one of over 700 plans in the nontraditional, defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). TCDRS is an agency created by the state of Texas and administered in accordance with the TCDRS Act as an agent multiple-employer retirement system for County and District employees in the State of Texas. The Board of Trustees of TCDRS is responsible for the administration and management of the system. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar year basis. The CAFR is available upon written request from the TCDRS Board of Trustees at PO Box 2034, Austin, Texas 78768-2034.

The plan provisions are adopted by the governing body of the District, within the options available in the State statutes governing TCDRS. Members can retire at age 60 and above with 8 or more years of service or with 20 years regardless of age or when the sum of their age and years of service equals 75 or more. A member is vested after 10 years but must leave his accumulated contributions in the plan. Members who withdraw their personal contributions in a partial lump sum are entitled to any amounts contributed by the employer.

NOTE 6 -- EMPLOYEE'S RETIREMENT SYSTEM (CONT.)

Plan Description (Cont.)

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the District within the actuarial constraints imposed by the TCDRS Act so the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute.

At retirement, death or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Contributions

The District has elected the annually determined contribution rate plan provisions of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the District is actuarially determined annually. The District contributed using the actuarially determined rate of 2.12% for the months of the accounting year 2020, and 3.94% for the months of the accounting year in 2021.

The contribution rate payable by the employee members for 2020 and 2021 is the rate of 5% as adopted by the governing body of the District. The employee deposit rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

Benefits Provided

TCDRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the District, within the options available in the state statutes governing TCDRS.

At retirement, the benefit is calculated as if the sum of the employee's contributions, with interest, and the District-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement benefit in one of seven payment options. Members may choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

At the December 31, valuation and measurement date, the following employees were covered by the benefit terms:

	2019	2020
Active employees	39	40
Inactive Employees Entitled to but Not Yet Receiving Benefits	3	13

Net Pension Liability

The District's Net Pension Liability (NPL) was measured as of December 31, 2020, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions

The Total Pension Liability in the December 31, 2020 actuarial valuation was determined using the following actuarial assumptions:

Real Rate of Return	5.00%
Inflation	2.50%
Investment Rate of Return*	7.60%

*Presented net of pension plan investment expense, including inflation

Depositing Members	90% of the RP-2014 Active Employee Mortality Table for males and 90% of the RP-2014 Active Employee Mortality Table for females, projected with 110% of the MP-2014 Ultimate scale after 2014.
Service Retirees, Beneficiaries and Non-Depositing Members	130% of the RP-2014 Healthy Annuitant Mortality Table for males and 110% of the RP-2014 Healthy Annuitant Table for females, both projected with 110% of the MP-2014 Ultimate scale after 2014.
Disabled Retirees	130% of the RP-2014 Disabled Annuitant Mortality Table for males and 115% of the RP-2014 Disabled Annuitant Mortality Table for females, both projected with 110% of the MP-2014 Ultimate Scale after 2014.

Actuarial Assumptions are reviewed annually. Updated mortality assumptions were adopted in 2016. All other actuarial assumptions that determine the total pension liability as of December 31, 2020 were based on the results of an actuarial experience study for the period January 1, 2013 – December 31, 2016, except where required to be different by GASB 68.

The long-term expected rate of return on pension plan investments is 7.60%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TCDRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TCDRS.

Actuarial Assumptions (Cont.)

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS' investment consultation, Cliffwater LLC. The numbers shown are based on the January 2021 information for a 10 year time horizon.

Note that the valuation assumption for long-term expected return is reassessed at a minimum of every four years, and is set based on a 30-year time horizon; the most recent analysis was performed in March 2021. See Milliman's TCDRS Investigation of Experience report for the period of January 1, 2013 – December 31, 2016 for more details.

The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Classes & Assumptions:

Discount Rate

The discount rate used to measure the Total Pension Liability was 7.60%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

Discount Rate Sensitivity Analysis

The following presents the net pension liability of the District, calculated using the discount rate of 7.60%, as well as what the District's net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.60%) or 1-percentage point higher (8.60%) than the current rate:

	Discount Rate 6.60%	Discount Rate 7.60%	Discount Rate 8.60%
Total Pension Liability	\$ 307,311	\$ 245,456	\$ 198,568

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TCDRS financial report. That report may be obtained at www.tcdrs.com.

NOTE 7 -- GROUP TERM LIFE FUND

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); this insurance is for active employees who are making deposits into the TCDRS system or have made the last deposit within the past two years. The total contributed in fiscal year 2020 and fiscal year 2021 was \$278 and \$641 respectively.

NOTE 8 -- TRANSFERS

During the year ended September 30, 2021, the Bexar County Emergency Services District No. 10 transferred \$157,006 to the Gardendale Volunteer Fire Department to cover capital lease payments.

NOTE 9 -- RELATED PARTIES

Two of the four Gardendale Volunteer Fire Department board members are related (father and son).

NOTE 10 -- LITIGATION

The District has filed a suit against the City of San Antonio over a dispute of real property within the District's Boundaries. No liability or outcome can be estimated at this time.

NOTE 11 -- SERVICE PROVIDER

Gardendale Volunteer Fire Department currently allows the Bexar County Emergency Services District No. 10 to use its property and equipment. The District will continue to pay for the liability insurance on the assets.

NOTE 12 -- RISK MANAGEMENT

The Bexar County Emergency Services District No. 10, is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. To cover this risk the District contracts with the Volunteer Firemen's Insurance Services (VFIS) of Texas to provide insurance coverage for Property/Casualty and Workers Compensation. VFIS is a multi-employer group that provides for a combination of modified self-insurance and stop-loss coverage. Contributions are set annually by VFIS. Liability by the District is generally limited to the contributed amounts. Annual contributions for the year ended September 30, 2021, were \$70,890.

SEPTEMBER 30, 2021

Budgetary Information – The budget is prepared in accordance with accounting principles generally accepted in the United States of America. The District maintains strict budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the District’s Board and as such is a good management control device. The following are the funds which have legally adopted annual budgets: General Fund.

It is recommended that actual expenditures do not exceed appropriations; however, actual expenditures exceeded appropriations for the year ended September 30, 2021 due to employee costs.

The District does not use encumbrances.
