Position Summary

The CFO is responsible for building and maintaining the company's financial management environment/infrastructure and for ensuring compliance with all Federal Acquisition Regulation (FAR) and Cost Accounting Standards (CAS) requirements. The CFO will serve as the principal financial advisor to the CEO and the Executive Staff, as well as be the main point of contact for auditors. This individual will also be responsible for the operational review of the financial performance evaluation.

Major Responsibilities

- Lead the building of the finance department including staffing, system implementation, and reporting.
- Oversee the design, development, and implementation of policies and procedures that establish an effective financial internal control structure and establish at-risk and not-at-risk financial management.
- Review and counsel on all financial issues submitted by company personnel and subcontractors to the CEO.
- Review and approve financial management reports.
- Oversee the development of forward pricing bid rates for use in pricing government change orders and contract procurements.
- Manage the change order accounting associated with requests for changes to government contracts.
- Maintains compliance with laws and regulations related to finance and audit requirements, including providing auditors with information about accounting procedures, schedules, financial statements, and reports.
- Establish line of credit and banking arrangements in accordance with company needs.

- Present and review budget information with other senior management personnel.
- Act as liaison with clients, auditors, banking officials, and other external agencies regarding financial matters.
- Advise the Board of Directors and Officers on matters relating to the company's financial and banking arrangements, as well as consult with the Board on tax planning and compliance.
- Supervise the finance department to ensure continual improvement of the efficiency and effectiveness of the finance team as well as provide individuals with professional and personal growth opportunities.

Essential Skills and Experience

- A minimum of eight years of experience in accounting with supervisory experience in financial and personnel management.
- Experience as CFO or controller of a large fee-for-service or managed healthcare organization.
- Strong verbal and written communication skills.
- Good interpersonal skills, ability to motivate personnel, and follow through on project completion.
- Must demonstrate knowledge of or ability to learn and apply to job functions, those state and federal laws and regulations applicable to the operating unit.
- Experience in establishing a start-up business.
- Forward thinking and strategic.

Education

- Bachelor's degree in accounting or finance from an accredited college or university.
- Graduate degree in accounting, MBA or MHA preferred
