

Name _____

Date _____

Eddie tracks how far he walks each day for 10 days. The distances shown are in miles.

Day	1	2	3	4	5	6	7	8	9	10
Distance (miles)	$1\frac{1}{4}$	$\frac{1}{2}$	1	$2\frac{3}{8}$	$1\frac{1}{4}$	$2\frac{1}{4}$	2	$2\frac{1}{4}$	$2\frac{1}{2}$	$\frac{7}{8}$

1. Create a line plot for the data shown in the table. Title and label the line plot. Then plot the data.

2. Eddie says he usually walks at least 1 mile each day. Is that a correct statement? Why?
