

Silverheels Ranch Owners Association
From your Board of Directors

#1 The Board would like to encourage everyone to receive the next newsletter (that includes the notice of the annual meeting and the proxy form) by email. This is the fastest method of delivery and will also save postage, printing and paper costs. If this sounds like a good idea to you, please respond to this message. Because the newsletter address list is separate from the directory list, we need a request from you in order to send you the newsletter via email.

#2 We have had numerous requests for a list of businesses that provide tree damage assessment, tree removal and tree spraying services. We are compiling a resource list that will be updated as we receive new referrals. If you are aware of reputable companies, please share them with us.

The businesses included in this list are not being endorsed by the Board, but are being shared as a service to and at the request of our members.

This address is the link to the Forest Health Task Force set up in Summit County in 2008 to address the pine beetle epidemic and includes both information and resources. <http://www.summitpinebeetle.org/>
