Back frame

The back frame is made of PP with 15% fiberglass, meeting environmental standards, with a width of 450 mm, height of 480 mm, and thickness of 7 mm.

Nylon chassis, mold injection molding

The base is a nylon injection-molded chassis designed for durability and stability.

ABS Cover

An ABS cover is used as a decorative and protective layer for the base.

ABS Storage tray

The chair includes an integrated ABS storage tray underneath for holding personal items.

ABS Writing tablet

The writing tablet is made of ABS, sized 520 × 330 mm, and includes a built-in cup holder.

Aluminum alloy rotating structure

The tablet is supported by an aluminum alloy rotating arm that allows smooth opening and closing.

High-density foam zuobao

The seat uses high-density foam (density 40) for comfort and breathability.

Writing board support

The tablet support is made of high-quality steel with a thickness of 2.0 mm.

Caster

The chair has 50 mm nylon casters with a PU surface, supporting up to 100 kg and meeting BIFMA standards.

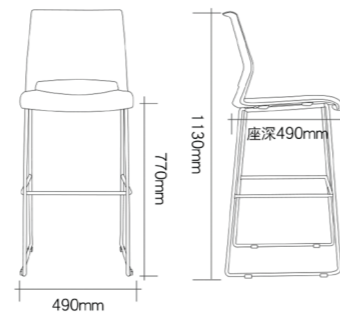

TLS-30EH
